Best Memories in IITD ?

Late night conversations with friends. Counter strike. Getting internship, placement.

Things you regret not doing ?

Socializing and learning more things.

Best thing you learn from here ?

Perseverance and patience

What Next ?

Microsoft Redmond

Best Buddys ?

Ashutosh, Kaushal Hooda, Akshay, Abhimanyu, Shubham

From inventive slang to coding, from tetris to grades, your single minded focus has always impressed me. A poster boy to people everywhere who say that CGPA is not everything. And of course the one to turn to when deadlines loom on the horizon! I'll be forever grateful for your help in acads, and even more for lending me the formals that got me my job 😊 Ah, the times we had doing projects together, and even outside of studies. All those fundebazi sessions, the wasseypur stories. Never change the chill and easygoing attitude you've always kept through times good and bad! As for the future, you need no luck, but only my congratulations!

PS: Python > C++!

- Kaushal Hooda

Yo aakash. You have been of the utmost help during the assignments, I can never thank you enough for that. Mostly I am very wary of programmers 😊, unable to relate to them, but you break the stereotype. Besides wouldn't for you, I would have never been able to spend so much time in gcl doing assignments, we made that fun too. You have an amazing career ahead, you are among those (whom I know) who love what they do, cheers! And I am very grateful that you were quite sympathetic and even encouraging when I decided to choose another career. 😊 And you have a very good taste in movies, its fun discussing movies with you, never quit that 😊

- Shubham Solanki

'The funda guy' as everyone call you, but I've never got any of them.

Ohh man, seeing those many TV series - that is special talent and I know you take pride in that 😊

Those 2 months of Biryani and Chicken 65, teasing Nishant were fun 😊

Hope we'll have a good time at Microsoft playing Foosball and Carrom 😊

Sure with your talent, you'll have an awesome career.

And 'The roomie saga continues'

- Akula Maneesh Satya Prakash

The King Coder of House Aravali! ,(certainly not) the First of His Name, King of the C++ and Java, Lord of Seven other random programming languages(seriously Brainfuck is a language too- I came to know from you) and Protector of the Aravali nalle from assignments. You have been an amazing friend and guide all these years. I do have a feeling that I might have disappointed you somewhat regarding academics but thanks for believing in me that I could turn it around. We shared quite similar views on a lot of things in life. Extremely chill, helpful, humble and funny guy . It's been an honour, Captain. Best of Luck with Redmond.

- Ashutosh

Bro, you are the main reason behind me completing all my assignments. You were able to give me timely advice and motivation in times I was acting silly. I will most remember the random fundae I gave you while going out for a tea to teahalt. And the infinite number of times I asked you placement ke fundae. I am happy to see you starting your career with a bang. I wish you all the success.

- Akshay Suresh Bhat

Behind your cavalier attitude and your absurdist and sometimes silly life philosophies is a fully developed nerd waiting to break through. I'm really excited to see what kind of person you become when you leave this bubble we call IIT. On a lighter note, I really enjoyed some of our freewheeling discussions about the nature of life, the universe and everything. Also, contrary to popular perception, I really looked forward to you magically summoning yourself in situations where cake was involved. However, I will admit that I sometimes forget even to this day that you were part of the Braille Tutor team 😊 (Really, what is it about you?).

- Abhay Mitra

Take life a little seriously dude. 😊 I will miss your lectures.

- Rayala Bharadwaj

Aakash, I got to know you during our internship only. You were so fun to hangout with. I was so jealous of your foosball skills 😊 Redmond mein jaake khoob machana. All the very best 😊

- Khushboo Gupta

Bhai you are an inspiration, tu itna chill rah ke macha deta h .. kha se paya ye .. hume bhi sikha deta . keep rocking bro .Good luck for Redmond.

- Nikhil Kumar

Bhai fuckroo, you are my C++ teacher, Uno teacher, Rocket League teacher, ML teacher, and what not. Baahar se itna aalsi lagta hai, par time pe saara kaam nipta leta hai. I am always amused by your virtual "smoking", and your exasperated expression when you're trying to get me out of your room 😊 I started a little bit of competitive programming because of you, but you turned back on your word 😊 Still, I owe my placement partly to you. I hope you find a lot of success in future (as a Rocket League streamer 😊)

- Tushar Marda

Are yaar Suteri !! I still remember the day I had to carry you back drunk and you were giving "life ke funde" throughout the journey of auto, in second sem. C++ master _/_, bas uske baad toh jaise machate hi chale aa rahe ho aap. DPS ke kisse sunana, majors mein life ke fundae baatna. And then the final home run with Redmond !! All the best for future my dear friend !! Aise hi chill rehna 😊

- Ritesh Baldva

Mr. Coder! Bhai tere school ke kisse.. More feel than Wasseypur. I am so gonna miss your fundae. And the way you make me do assignments first so I can tell you! 😊 Macha dena Amreeka mein 😊

I only came to know you closely during our internship. You are so brilliant and amazing inside, but lazy and humble enough not to show this to the world. I always feel people underestimate you. You have an amazing clarity of thought and life. I loved your life k fundas that you gave and wrote on my whiteboard 😊. I will always cherish and remember the long night we spent preparing our last presentation and you motivating me at 4 o'clock in the morning with "The night is darker before dawn". And lastly, your fb status update "You are not your GPA.Microsoft Redmond." - super awesome 😊. Wish you a long, prosperous and chill 😊 life at Microsoft.

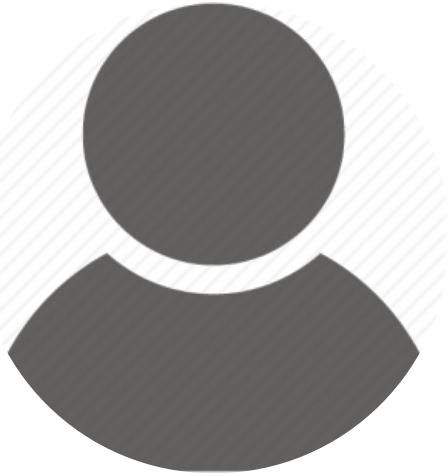

- Nishant Kumar

Though we were in same hostel and cycle, I don't think we became friends until the Braille Tutor (Keyboard Division 😊). And along came, your gazillions of ideas for future applications of Braille Tutor 😊. Do remember ABCDEFGHI, JKLM, NOP,QRSTUVWX, Y,Z 😊 Best of luck for future. Let Aakash be your limit. 😊

- Abhinav Deep Singh

Main asli Aakash ko CSP mein jaana. Maine tujhe galat judge kiya tha ki tu kaam nahi karega. Lekin "Braille tutor" project mein tune bahut kaam kiya. I was very happy after hearing your placements in Microsoft Redmond. All the best for your life ahead.

Aashish Goyal

Yaar, You are a very direct person. I am really a fan of your way of visualizing things. I have worked with you and have noticed you are a very hard working, motivating and inspiring person. Keep doing it up.

- Devansh Dalal

I remember we used to hang out a bit between and after classes. The Two Attachees!! Start start mein akela atachee fighter ho jata be. Best of luck for ahead.

- Arpit Singh

You are one of the most sincere, intelligent and hard-working guys I have seen in IITD. You used to take courses not for grades, but, to learn subjects you were interested in. I remember you taking weird maths and tough HUL courses because you were interested in those subjects. I had a great time working with you during the Cycle-3 labs of 1st and 2nd year. Best of luck for your future!

- Ritesh Noothigattu

If I had to code in Python to save my life and my hands were tied, I would probably nominate you. You are the one true chupa rustam of our batch. The elegance of your code, your pragmatic pursuit of academics which sets you apart from the other academically inclined people in our department, your capability to tolerate as boring a course as Parallel Programming makes me wish that I had known you better in these 4 years.

- Abhay Mitra

Hi I have not had much interaction with you but I have always found you as someone's who's ready to learn more. I have seen you completing any task with utmost sincerity. Best of Luck 😊

- Vansh Pahwa

Most of my interaction with you happened only in the last year. But even in this short span I realized that you are a very smart and intelligent guy. Well, you are a fun-loving person too. And a manga lover, who could have guessed. I hope you enjoy a lot at IBM. All the best for your future.

- Bhavya Goyal

Amazingly knowledgeable, intelligent, sincere and hard working person. Thats what I knew about you before doing parallel with you... Now I know you're a chilled out person to the core as well. But seriously, kya machate ho yaar. All the best for the future 😊

- Ritesh Baldva

Before we teamed up for networks, I used to think that you are a very serious guy. Then I realised that it's true 😊

Just kidding. It's amazing how you complete work in time without losing up on fun. Wish you could have spent more time with us, day scholar. 😊

- Tajveer Singh Sandhu

A very nice, intelligent and studious person, the most sorted out person I have met at IIT.

We have spent much time together. We did exactly the same courses in the first 2 years but after that we diverged.

We have kept a good spirit for each other and I hope it continues in the same way.

Best of luck for your future.

Nagu! Ajeeb hi hai tu yaar... Jutte, belt, jeans aur shirt pehen ke hi sota hai! 😊 Warna saale tujhe neend nahi aati...lol... Aur bhai itni badi to kiski hoti hai. Check karva liyo doctor se.. 😊 Saale tere se zyaada sust aadmi nahi dekha maine aaj tak. Saala bas isko bed dedo aur ek laptop. Saala hilega nahi mahino ke liye 😊 Aur saale kabhi to apne khud ka decision le, kab tab dusro ke bharose jeeyaga?? Aur saala kabhi bhi koi baat ke liye sure hi nahi hota sala undeterministic FSM 😊 Nagu saale bahot kamina hai tu, kaun assignments bantata firta hai. Saala bichaare maasum bachho ko galat rah pe bhatkata hai 😊 aur itna bhi dara mat kar, mana maine dekhat bitha di hai tere

dimaag mein 😊 . Apne shiva IMDB hai tu sab pata hota hai tujhe koi bhi Tv series ya movie ke bare mein puchh lo 😊 Kuchh bhi kaho par banda bahot sahi hai tu 😊
Baaki tu to sab jaanta hi hai 😊 😊

- Zala Ronak Prakash

Nagu, you have maintained a sanctity level that is appreciable, particularly for me and that too throughout your stay. This quality is going to be an uplifter for you in life.

PS I wish we get to sit for GATE together once more!

- Ishaan Batta

u r the most real and selfless person in batch. U have this big punjabi heart which is ready to do anything for anyone without doing a single calculation in mind (which most of us do here). Talking to u is always fun . U inspired me a lot at kota. If given a wish, i wud have asked us to be in same hostel. Looking forward to have blast in banglore. Someday, if i am of any help to you..just let me know !!

- Rajat Thakur

Mr. Nagu urf bhalu. Coolest guy I have ever met. Kabhi bhi teko gussa ni ata, ata bhi he toh sab ignore kar dete he. Your time management is good. Har TV-series/movie tune dekh rakhi hoti he, assignments vgerah bhi sab time pe, bas you are too much lazy(physically very inactive). Jeans,shoes pahne hi so jata he. I also remember some of your mental activities including cricket court wale ped k sath tera chakkar, bat leke diwar pe kuch kuch likhna, kabhi jor jor se hasna(vese this one is good). Assignments k time pe teri jyada jarurat hoti he, tere chakkar me advance graphics utha rha hu, dekh le asn tujhe hi karne padenge. Nagu, U r sweet but I have to say it- "Tu neem k patte ki tarah kadwa he"

Best of Luck for ur future.

- Prerit Kumar Patidar

yaar nagu, tu itna hagoda hai ki pehli baar jab mile mujhe laga ki bhai yeh hagoda hai ki mai chu**iya. Dhire-dhire samajh aaya ki nahi bhai yahi hagoda hai. Tera attitude har chiz ko leke mujhe bahut sahi lagta hai yaar. Tere hagge ke paar dekhke teri baa ke bhavna samajh me aa jati hai mijhe aajkal. Bahut sahi aadmi hai bhai tu.

- Kshitij Morodia

"The one with IMDB" Hi, Brother from another mother. The only Michael who is both "Lazy" (Famous for his Vishnu pose) and yet Hard-working.

The best part is your laugh, Joke sun ke hasi aaye ya na aaye par Teri hasi sun ke aa hi jaati hai. So Always keep smiling.

Teri hasi bahut miss karne waala hun main and tujhe bhee. A true helper with extraordinary skills. All the best for your Future.

- Ajay Kumar

Nagu ji.. Abe bta rha hoon movie review dena chalu karde. Ab duniya ke kisi kone mein bani movie tere alawa kisi ne dekhi nahi to review koi aur to de bhi nahi sakta.. Kabhi terekho non chill mode mein nahi dekha. Vaise dekhna bhi nahi. Aise hi chill rahio be

- Arpit Singh

Bhalu bhai tu bahut hi chill banda hai... tujhe senti bahut hi kam hote huye dekha hai.. kitni bhi uda lo bura nahi manta... -5 to yad rahega hi 😊 .. baki jo bhi bache wo dustbin me dal dena 😊 ... debugger hai bhai tu 1st year se hostel ka... bed se to tujhe kuch jyada hi pyar hai... jeans, belt aur shoes kiski night dress hoti hai 😊.... jokes aside, you are one of my best buddies 😊 .. have a great future ahead...

- Shivam Verma

Funny how you were cursed to always have a roomie who played DotA so much 😊 You have a good helping nature and have saved me a lot of times. It was nice being your roomie in Bangalore. All the best for Flipkart!

- Rohit Pruthi

A famous man said that lazy persons are the next gen inventors as they will find a short way to do things !!! And you can easily make that man happy with you lying in vishnu pose and doing everything(including some crazy inventions...) in bed... I really like your fighting spirit(with inertia 😊) and it has been a great fun and privilege to know you !! Best of luck for future man !!!

- Nitin Agarwal

Nagu, my friend, you are suffering from clinomania.. Kabhi to apna bed chhad diya kar bhai.. I can bet that you seen more movies than our entire batch combined.. 😊 You have been great friend, my night-mess buddy, assignment buddy, baddy buddy and what not... Its great fun being with you.. All the best for your future man!

- Chirag Agrawal

Nagu, u are one person who can stay in his bed for as long as u want (in your vishnu pos). U are one person who sleeps while wearing jeans and belt. How lazy u are. Yr bdi sahi sahi movies dekhi h maine tere saath , khoob mje maare h yr apan ne saath mein bread bhujia party , dhoodh party , soup,maggi,aur pooja namkeen aur na jaane kya kya. U r true person and sweet as well . kitni bhi gaaliyan de doon tjhe main ,tujhe kuch khaas fark nhi pdta. My Best Friend at IITD, Khushboo. Assignment cum hangout buddies Abhay, Abhinav, Abhishek, Anshul, Bhavya, Ishaan, Ritesh, Rohit, Tajveer and many more.. 😊

YO StudDD ! 😊

Wo CSP ke din, achha tha ki tu bhi bakiti karne nahi lagti thi. Warna kuchh karte hai nahi 😊 Par Chill hai yaar tu 😊
All the very best aage ke liye 😊

- Zala Ronak Prakash

Aastha, you are the only creature who showed signs of patience and maturity among the ones I have been connected to in the department. I always wished I could be as understanding and caring as you are, hope to learn this from you and evolve.

- Ishaan Batta

Aastha! Bohot dil ki saaf hai re tu! Pehli baar dhang se tab baat ki thi jab railway station ek saath gaye the. Wish I had gotten to work with you. One of the nicest people of the batch. Really wish you loads of success and happiness in life.

Lai. Dogra chhat nahi gayi, itni si baat? Diro's dinner ke just baad raat ko chalte hain na? 😊 (Edit : Ab toh chhat bhi

ho gayi, degree ki dhamki wali daant bhi ho gayi 😊)

Sabko quote baant raha hu, par tere liye toh gaana hi.
"Dil hai chhota sa, chhoti si aas(t)ha
Masti bhare mann ki, bholi si aas(t)ha
Chand taaron ko chhune ki aasha
Aasmanon mein udne ki aasha"

- Anshul Bawa

Are Aastha! Itni bollywood movies kaise yaad rehti hain tumhein? 😊 I will never forget the late night windT dumb charades where I literally stood motionless for minutes at your movies.

You are a great human being and your seemingly unlimited supply of kindness is bewildering. I have never seen you speak negatively about anyone in the four years that I've known you, not even in jest. I hope we get a chance to share a birthday cake again sometime. Those times were fun! 😊 Wish you a great life ahead.

- Abhay Mitra

"Chit chat, chit chat" bate karna tere se koi seekhe. 😊 Even though, we worked together for the first time in last sem only, I have seen you working hard in GCL and classes for the last 3 years. Interacting with you I have come to realise that you are a fun person to hang out with. 😊 To end this, I trully believe that you are gonna do great things in life and hope that you always keep on smiling. 😊

- Mohit Agarwal

You are a really nice person. I respect the level of devotion that you put in each and everything- academics, job prep, relationships(obviously the one and only one with Khushboo 😊) . Enjoyed working with you.

- Abhishek Verma

Aastha, a perfect friend anyone can ever have. You are the best person in the whole world. I have never seen a person so truthful, innocent, caring like you. I can't even describe how much I love you and how much I am going to miss you. But as some say don't cry because it is over, smile because it happened. I am the luckiest one to have enjoyed your friendship (Not everyone has it. You know what I mean 😊).

Your jokes, your songs, your laugh, your drama, the little child inside you has made me laugh even when I was in my worst mood. I have never been so happy in my life as I am with you.

Mujhe subah 4 baar uthaana, notes bnana, proxy Igana, mere liye ADA mein sit-through karna, mera har mood swing jhelna, yeh sirf tun hi kar sakti h yaar.

Mujhe hamesha yaad rahega kaise hum ek doosre ko alag alag fundae dete rehte the, discussions on life, dono itne bade foodie h k kabhi bhi bahar khaane chale jaate the, aur nahi to order kar lete the. Aadhe se jyada discussion to is baat p the k kya nahi khaaya and kahan khaane jana h 😊

Itna saath mein rehte the k alag reh kar bhi similar code likha and MOSS mein pakde gye. Thankfully prof. samaj gya 😊 Aur tab to hadh ho gyi jab humne ek doosre ko same gifts kiye bas color difference k saath. This all proves how deep our friendship is. I just hope it always stay the same because I don't want to lose this and more importantly lose you ...

Please mujhe bhoolna mat warna bahut maarungi. 😊 I know busy ho jayegi but is dost ko bhi yaad rakhna..I wish all the very best in all your future endeavours. 😊

And yes, gaana to banta h..

Tere jaisa yaar kahan,
Kahan aisa yaarana..
Yaad karegi duniya,
Tera mera afsanaa..

- Khushboo Gupta

Well, a very sweet personality !! Though I wish I had a chance to work with you sometime, still talking to you was always a delight. Gossiping with you and Khushboo was soo fun. Best of luck for your future 😊.

You are a really patient person (considering how much you've managed to tolerate Khushboo so far 😊), and a very hardworking person. Your notes have been a savior so many times, and you have a very friendly attitude. You still owe us one for freeloading in cloud project 😊 All the best for your future!

- Rohit Pruthi

You are the most calm and peaceful person at IIT (contrast to your friend Khushboo who is so loud 😊). I'll always remember those chillest ASL courses that we took together so many times 😊 I hope you have a fun time in Mumbai. Best of luck for your future.

- Bhavya Goyal

Antakshri champ! You are so friendly and caring. 😊 I remember how we started talking in 3rd sem during CSP301. Kaam ki baat to hoti hi nahi thi, gappein maar lo jitni marzi 😊 We didn't spend a lot of time together but jitna kiya that was fun (remember Piku?).. All the best for your future! 😊

- Tajveer Singh Sandhu

One of the nicest people ever met. So calm and serene. 😊 Humein aastha hai ki aap apne bhavishya mein bhi accha kareingi. 😊

Best Memories in IITD ?

Too many to count, and most too context sensitive to write about in this space.

Things you regret not doing ?

Making a college bucket list.

Bigest Change Since First Year ?

My dork quotient appears to have gone down by quite a bit.

Best thing you learn from here ?

If you want something done, do something about it. No point cribbing about it.

What Next ?

Atomicles!

Best Buddys ?

Jindal, Deep, Paaji, Koonal, Badly, Verma, Bawa

Arre coder bhai, you maintain your calm as if nothing ever happens, walking on with a smile on your face. The only time your smile fades is when you beg for marks 😊

- Ishaan Batta

I know that my decision to pick IIT-Delhi was right because I got to meet people like you. I think it's fair to say that you are an expert at what you do.

We started collaborating with your DB project, continued to being roommates in the valley and finally ended up being co-founders. It has been an adventure really. I got to know that you are great engineer, a half decent ukulele player, an art lover, a true nerd, a philosopher (though I disagree with most of your non trivial ideas) and a true friend. Sometimes I cannot digest your motivation to do things with all that has happened, but then I just stop trying. And yes, let us rock the world with Atomicles!

- Kunal Singhal

Bro, I see more maturity in you than most other batchmates. I want to see you make it big someday. I am sure you will. I have no idea how long you will stick with your present idea but you should hit the jackpot at this rate soon buddy. I should have interacted with you more in the 4 years but I was too busy smoking pot 😊

You are a very genuine, fun and smart guy to talk to. We have connected on a lot of nerd stuff, really. I still remember, my first indirect interaction with you was when you were in BSP, and had quite ingeniously and critically commented on my rather popsci article on quantum computing. You are a person with great, varied and wonderful ideas, which makes a lot of people including me look up to you. All the best with all that you do in the future, Abhay!

- Sahil Loomba

Kaamchor, Besharmi 😊 . Jokes aside, you are the ideal colleague to work with. Would not be the ideal boss though, kaam pura hame pakada dega. 😊

Best of luck with atomicles.

- Rayala Bharadwaj

Roomie forever. There is so much to learn from you, things as apart as academics and the art of handling people. I really love the discussions that we have. You are really nice and don't get annoyed easily- remember the time I tried to burn you as a sacrifice to the Gods. 😊 But those who manage to annoy you are ready for a hard time. Wishing you good health and success in all future endeavours.

- Abhishek Verma

Aap Stud ho !! An extremely knowledgeable person !! Best of luck with Atomicles 😊

- Vansh Pahwa

Abhay-the person who has answer to every question. Be it linux or philosophy - you rule them all. I know Atomicles will be the next big hit! All the very best 😊

- Khushboo Gupta

Yaar kya hi kehne aapke toh !! Studaap level infi xD (Also Tharakpan level infi) !! Tumhare stalking waale kisse, philosophy ke funde xD. What are people calling you these days? Bijlee, Magod, CTO ? We'll be working in the summer together, but still will miss you next year bro

- Ritesh Baldva

Yo Bday Buddy!

Kya hi likhu aapke baare me, aap to h hi mahaan 😊. Apart from jokes, you are really machau, bhai itna ubuntu kaise hi kisiko aa sakta h, jaise hi kuch problem hota tha I used to call you at that time only. Aise hi rehna, pata h atomicles bada ho jayega, busy ho jaoge par tab bhi phone utha lena 😊. All the best for Atomicles, itne hi determination se kaam krte rehna and safalta tumhara saath ni chodegi 😊

- Aastha Tripathi

Bijlee aayil! 😊 Kitne saare nicknames rakhe na maine tere, Mr. Fundaebaaz.. The go-to guy for discussions on all topics - Compu, Philosophy, meaning of life and what not. Fun and talent dono koot-koot ke bhare hain bhagwaan ne tujhmein.. Sorry, tum mein.. Ye tum bolne ki aadat bahut gandi failayi hai 'tum' ne.. Will miss you a lot buddy! 😊

- Tajveer Singh Sandhu

Mere Priye "Maggu Magod" Mitra,

Hum aasha karte hain, ki aap apni zindagi mein humesha khush rahein. SURA with you, was an awesome experience. May you find success in all your endeavours.

Lastly Mitra, Always B Positive 😊

- Abhinav Deep Singh

You have an extremely wide set of skills and you're very talented. I feel people underestimate you quite often.

Except that one occasion when you vented out on me for ditching, I enjoyed working with you at ACES ACM. All the best for Atomicles!

- Kaushal Hooda

Baba abhimanyu (◡‿◡) I have been coming across a poll recently at many places framed as "who has changed the most during these four years?". And there is only one image that drops in my head reading that poll, yours. Man, we had some fun during the first two years, in cycle 1 😊; you and few other guys were the ones who made labs, tutorials (the ones in which we showed up) bearable. You could be extremely hilarious at many times, and you did. And then as everybody has suggested, you almost transformed with your decision to prepare for civil service. And believe me the first time I got to talk about certain books with you, I was quite moved by your zeal to learn, know and read. It is amazing how civil service preparation is not just a means to reach a destined point. It is quite evident, from my experience 😊, you have grown a lot and now you read for fun, not to achieve something. But you must never quit the bakchod attitude in it, which we had been witness of, quite fondly and frequently during the college.

- Shubham Solanki

Bhai, apne country ke neta bane wala, apko pranam. Mai kush hoon ki ap apni jabardast daddi ke anusar hi career choose kar rahan hai. Kuch saalon mai to apse milne appointment lena padde. Anyways bro, it was fun hanging out with you. Giving and taking fundaes on anything other than compu was very refreshing for me. You may not realize it but there is a lot in you that is inspiring and serene. I am sure you are mature enough to capitalize on it and achieve whatever you want in your life.

- Akshay Suresh Bhat

arre chachaji.. my roomie.. pehle mereko lagta tha ki kaafi withdrawn banda hai.. bas minor 1 tak.. phir tu mere saath chill hua.. uske baad laga kya hi extreme banda.. extreme masti, extreme gussa, extreme sentiyap, extreme enthu.. ek goal chahiye tha.. vo mila to tune machana shuru kia.. apni yaari thodi alag hai shayad roomie se shuru hui isliye.. ab wait karta hun tera ias nikalne ka..

- Arpit Singh

From being a bakchod to what you have become now, definitely one of the most remarkable transformations I have seen in a person. One of the most enthusiastic person I know. I wish you the very best for future endeavors.

- Kshitij Morodia

Chachwa!!! you are one of my best friends at IIT. hamne bahut bar late night conversations kari hain about life and bandi 😊 ... tujhse har bat share ki hai mene because I know you are one of the people who I can trust. Nahi to mera mehnat se bharosa uth jayega.. All the best 😊

Chachaji! You are the most determined and passionate person I have known in these four years at college. The amount of hard work you put in for achieving your goals is commendable. I still remember how we became friends (at Compu Freshers night 😊). We spent so much time together in the first year (GCL, WoW, SDA Market 😊). I am surely going to miss all those long talks with you and Piddi. You are one of those persons who'd go out of their way to help others. Stay awesome, and all the best for IAS. Keep in touch. 😊

Yo ADS !!! You are both a work in progress and master-piece simultaneously.... You are one of the dearest friend which I can proudly boast in future 😊 . Your politeness and hard-working nature has inspired me a lot during my stay here 😊 . The quote that "as the tree gets laden with fruits, it bends low" suits perfectly on you with your infinite level studappa combined with humbleness ... Jyaada bore ho raha ho kabhi toh mere MTP mein help kar diyo 😊 . I wish you all the best for your adventures in Korean islands and do stay in touch 😊 . It is a great pleasure knowing you 😊

- Nitin Agarwal

Yaar I regret not knowing you in the first year at Bansal and then not knowing your name for another year. 😊 . But I am so glad that I can remember your name now! You are one of the most polite and kindest people I know. All the best for your Korea adventures! I hope things never go "North" for you, if you get what I mean. I hope we stay in touch!

I know you as a coke obsessed professional burning matchstick thrower who always manage to crack up the crowd with his jokes. And more.

- Kunal Singhal

Bro. I suspect you are the one here with maximum testimonials written to them. And deservedly so. So here I go as well. I have actually not been around a more peaceful and legit man than you. How you figure out how to be straightforward, predictable and genuine in the way you do truly astonishes me. You have dependably loaned some assistance at whatever point I have required. I truly lament not investing more energy with you. I need to have a beer with you for the one final time before clearing out.

- Akshay Suresh Bhat

ADS, my oldest friend at IIT. Frankly speaking, i was a wee bit happy when you didn't get IITB 😊 It felt relaxing to get into IIT knowing that i will have a friend like you on whom i can depend for any kind of help (little selfish of me, i know 😊). You are extremely smart and at the same time very humble. Its been great fun teaming up with you for numerous assignments. Best part of those assignments was you getting all tensed up with deadline near by and I keeping "chill" which would further get you tensed 😊 You have been a great friend. All the best for your future buddy. Have a great time in Korea!

- Chirag Agrawal

Abhinav! Itna God level aadmi aur phir bhi itna humble. Your sincerity for your work is inspiring. Tere jokes ne itna hasaya aur rulaya hai ki puchho mat. Your contagious laughter, that last minute preparing for exchange interview, that not turning up for SBL class, those visits to McD and subway and your awe-inspiring orders, your eye for detail in learning French, that long walk to Trevi fountain in Rome and being disappointed at it being renovated, that Monaco mein sponty swimming, Nice ke promenade pe promening 😊, aur bohot saari happy memories.

You are your best and worst critic. Don't be too hard on yourself. 😊

"In all of living, have much fun and laughter. Life is to be enjoyed, not just endured."

— Gordon B. Hinckley

- Anshul Bawa

Jitne bade ho tum utna bada tumhara dil bhi hai. You have quite the optimist when it comes to humans. And you are a great listener. Somehow I just can't imagine you spilling the beans on anyone ever (maybe because I don't want you to. You know too much 😊).

I think we are almost polar opposites when it comes to how we form opinions about people. That made for some interesting conversations during our SURA (jiska certi aaj tak nahi liya humne 😊). Good luck for Korea. Two pieces of unsolicited advice: try not to be want to control everything all the time and watch less youtube 😊 Ending with one of your "good" jokes because what would be your page without it.

"Agar tum iss haalat mein haircut karwaoge toh barber tumhein poxie cut dega" (crack: I had chickenpox at the time)

- Abhay Mitra

Abhinav, I have heard stuff about you like one hears legends about legendary people. The guy who painted his hostel room walls by himself. The guy who eats a lot of pizza and drinks a lot of coke. The guy whose room is a peaceful sanctuary. And in person too, you come across as a very sincere and genuine guy who is at great peace with the pace of life. I hope you keep the legend growing: all the best for that, and for every great opportunity that comes your way!

- Sahil Loomba

I still have the sheet of paper we used to vote for professors to approach for a winter project. For me, it was a memorable December. Also, I asked you but I never expected you would actually get me a souvenir. It really means a lot to me. I have never met a gentleman like you and not that you need it, but I wish you all the very best for your future ahead.

- Parul Jain

Yo Deep Singh ! Nice knowing you. We had a really fun time in Korea and its always fun talking to you. I never imagined one can drink that much coke 😊. Hope you have a great career ahead. And don't stop cracking those deep jokes 😊.

- Kothinti Trivikrama Reddy

It was fun having timepass with you! Though people say that your jokes are poor (and they truly are), the non-funniness & silliness of the jokes makes them so funny! Have a great time at Samsung!

- Ritesh Noothigattu

I believe you are a very intelligent, kind, respectful, calm and helpful person. I remember doing assignments with you during the first 3 years in GCL(In last year I did not do many courses with you in common due to your inclinations towards other courses). I also enjoyed your company during the time of internship. I have also noticed that your fundaes are sometimes different from the rest of crowd (remember the debate about IIT fee increase). Have a fun life ahead.

- Devansh Dalal

Hi ! I have always loved your wordplay jokes 😊 . I dont know why but I always saw you as someone going for a PHD. Best of Luck with Samsung Korea 😊

- Vansh Pahwa

You call me Voldemort and I still don't know why. 😊 I had chosen that name for someone else 😊 Abhinav, you are a very humble and polite human being. Your unique way of laughing would make all of us laugh. Always stay the same and all the very best for Korea 😊

- Khushboo Gupta

Bhagwaan (Gauuuud) You're my JAVA saviour!! _/_ From the French language studaap (as your Mac language) to the Korean studaap, sir you're the best east or west 😊. All those Dominos pizzas, the stack of diet coke cans (will post in Hostel book), no one could have ever achieved that except you. Your humor _/_ .. , I'll surely miss those stupid jokes and your monstrous laugh. Visiting the night mess and "Mess" always was a challenge with you but I enjoyed it. And then the piano, it seems there is no end to your talents bro. Will surely miss you a lot !!

- Ritesh Baldva

I have never met so modest person like you. You are so nice and calm, kitni hi baar maine assignmnts ke liye tujhe pareshaan kiya ho, but you always solved those with a smile. Keep Smiling and All the best for Samsung and new life at Korea 😊

- Aastha Tripathi

You are one of the most flawless people I have met. The right combination of wit and toil, fun and seriousness. I remember assuming that you would be an uptight and aloof person when I first saw the temple and the paper-covered wall on your side of the room, but you were nothing like that. Still remember your long, non stop high pitched laugh in our first year, though I don't remember the reason 😊 Unfortunately, never heard anything like that afterwards, though we came close sometimes. Keep laughing, and live an awesome life 😊

- Tushar Marda

Lets see .. sincere, hard-working, gossip loving, friendly, studious (at times), helpful .. no more adjectives i can think of right now 😊 . But seriously, thanks for all the help and suggestions you gave me on numerous occasions in these 4 years. You have an amazing attitude of not panicking even in the most pressured situations. Wish you have great career ahead at Samsung 😊

I still can't believe you ignored me the first time I said hello to you. Achcha hua na main gussa nahi hua, nahi to mere saath BTP kaun karta 😊 There are so many memories ki likhna shuru karu to khatam hi na ho.. From pointing out 'luxury items' in your room to calculating your Dominos yearly bills to forcing you to reveal your crush! I have always said that you are ziddi, and you don't accept that (because you are 😋).. but I agree that you have changed (a bit of) that over the years.. Now don't use this against me! 😊

- Tajveer Singh Sandhu

You are one of my closest friend in IIT . We started interacting during the CSP phase and then teamed up for it. I remember you giving me a treat when i helped you in your architecture assignment.

I like the way you keep your stuff organised. Just Ritesh N might be more organised than you. We did the winter project under Bansal Sir for which you were particularly excited. That project gave the title of 'Dabba' to your Laptop. I remember that the time you put in to complete the app when we returned in the semester and kept me going to complete it otherwise it would have never completed.

You are the Bade Log of the Korea batch , RDS guy who loves to play pranks(I have the record on my feed) ,crack PJ's and what not. Learned a lot from you and will keep learning from you .I took your advice on many occasions and your advice on those has been invaluable and helpful. Lets have fun in Korea .

- Shivam Garg

You are a very friendly, peaceful, hukka loving, pranks loving, (poor) jokes loving, calm (so calm that sometimes we can't hear you) and slow guy (so slow that you have been coined the term RDS 😊). You are an incredibly good person, and your good nature keeps on inspiring me to better myself always.

As far the 'stepping into my shoe' thing is concerned, whenever someone 'steps into my shoe', the ML estimate is that it must be ADS. This has happened so many times, that whenever it happens again, we both start laughing, and everyone else gets confused, thinking, 'What happened to these two??'

All the best for your life ahead. We'll have great fun in Korea.

- Prateek Chaudhry

Abhinav (aka RDS (Rate Determining Step), Bade log) Sir aapke baare me to jitna kaha jaye wo kam hai. The thing I like about you the most is how you keep on laughing for such long on not so funny jokes. And who can forget those PJs of yours. You don't know how cautious I try to be around you by thinking twice before speaking any word containing "O" 😊 Good to know that we still have a long way to go together in Korea 😊 Hope you do well in Samsung and your jokes become a bit funny 😊

- Bhavya Goyal

You were my first friend at IIT. We were in the same team starting from CSN, MEL, EEP, CYP, CSP till Braille Tutor. You make very neat and long reports which I cannot do. MEL ke bahut saari funny incidents yaad hain, especially welding (Ek seedhi line bhi nahi bana paa rahe the hum log). You are a very caring friend. Jab CSP ke liye mujhe late night tak rukna pada to tuhe bahut bura lag raha tha. Best of luck for your life in Korea. Always be happy.

Tau, bhai main tere ko 11vi se jaanta hu. Tune apne aap ko boht stability ke saath rakha hai in 6 saal mein. Jo sincerity aur seriousness tujhmein VMC days mein thi, wohi 4th year ke end tak bhi rahi. Tere ko IIT life hila hi nahi payi, ulta tune khud ki choice se boht kuch seekha hai yaha reh kar. You are a true inspiration for me, definitely, I see an ideal in you. 😊

- Ishaan Batta

In real sense, it was the 6th semester when we started talking. Soon I realized that you have a funny side too and yes its impossible to count how many laughs we had together. Also you are so genuine and honest that it is impossible to not believe something that you say 😊. Many of us would term anything that you say as tautology and so any argument if supported by you would win 😊.

You are a hard working person and you have achieved about everything with it and would continue to achieve. Some really memorable moments would be those during the BTP 😊. Oh God, we were so pissed off by both the project and the professor 😊. Thankfully things ended better than we expected. Also I was so happy when you got

Adobe. All the best for your future.

- Himanshu Gangwar

Thanks for all the Notes which saved many courses for us ! You are one of the most sincere and honest persons I have come across. Have a great time ahead !!

- Kothinti Trivikrama Reddy

Notes guy of the batch, very traditional, conservative and simple going. Not the one to be trifled with.

- Rayala Bharadwaj

Hey roomie. We were room-mates for 2 years during which you were very helpful to me in courses(best notes maker of class) as well as other daily life things. You have a good understanding of me and so do I. You are person with very traditional mentality who minds his own business. Sometimes your way of explaining things from scratch in absolute details helps the people a lot. Having sincere and punctual guy like you around really helped me. I remember our long conversations and fundaes sharing late night sessions about many important topics and sometimes with other peoples as well. Since we were both from same background it was very easy. Apart from that you always kept our room cleaned 😊 .

Wishing you a great life ahead : 'Farzzi Insaan'

- Devansh Dalal

I have seen you as one of the most sincere and dedicated persons. Your notes have often been a batch savior. Best of Luck for all future endeavors 😊

- Vansh Pahwa

You are one of the most sincere person I have seen. You were the one who dared to take the tough mal courses for OCs. You are very simple person. All the best for your life ahead in Adobe. IAS jaroor try karna 😊

- Shubhankar Suman Singh

We were in the same coaching institute, but never really talked until coming to IIT. And you turned out to be just as Bade Bhaiya described you in class. A well mannered, hard working person, who just sits quietly in the class and listens and understands everything.

You possess this amazing super power of jotting down well organized notes in your beautiful handwriting. You have saved a lot of us in numerous courses, in particular Graph Algorithms and ESL330. Thanks a lot!

All the best for your future goals!

- Prateek Chaudhry

My best friend till now in my life. You are the most trustworthy and honest person i have ever met. That is why i trust you with all my memories, views and feelings. I am simply amazed when everytime i see you unfazed in the advent of adversity and pressure. I have seen myself cracking under pressure god knows how many times, but never can i remember the same happening to you. You may not have realized it, but you have helped me learn so many things about life. I will cherish our time spent together, including our common love for wwe 😊 . All the best for Adobe and figuring out your path in life 😊

- Nishant Kumar

A very nice guy who always criticizes me as much as possible. Of course, I know that you respect me deeply internally. You are a sincere and hard-working guy. I'll really miss you calling me "farjee aadmi" and the way you imitate me!

The best friend. The things I am gonna miss most about college is your company, your critics about anything and everything, all things Dota and much more. You have been a partner in so many crimes (literal and metaphorical) that I can't even remember them all. Have a blast this summer at IBM, bas thoda kam bhi kar lena 😊 Hopefully see you there next year. Adios, phir milenge.

- Swapnil Palash

Hi Gorakhpur!!!. I have never seen a more chilled out guy than you in IIT(maybe Swapnil gives you a tough competition). But really, the way you handle academics and your no-f**k attitude about anything amazed me. I

always wanted to take a leaf out of your book so that I could handle situations in a relaxed way. IBM mein fodd ke aana and best of luck for all your future endeavours. Stay in touch 😊.

- Shivam Garg

Gorakhpur! First of all, your bullshit meter for movies is totally bullshit. But your recommendations are without fail amazing. Thanks for taking to the virtual tours of UP, totally changed my perspective! And yes I am never having an argument with you again (remind me if I do), you are like a hormone charged teen in arguments! By the way, now that I think about it, your bullshit meter for girls is not much different than that for movies. Fix karle bro, zindagi badal jaegi!

On a serious note, stay in touch.

- Kunal Singhal

I think we have a lot of similarities, same cg, Assignment mein last moment ki fights, Courses mein Similar type ki attendance, Prof se faltu agruments (remember ASL 701 😊), Kitne minors and majors honge where we find us in the Similar position, Jab bhi mujhe kisi mein course mein F ya attendance short ka daar lgta tha, i found you chill with same kind of situations and chill ho jaata tha. DOTA sab kuch nhi h, iss chod and life mein bndiya dunda start kr de. I hope Intern ke baad tu single nhi rhega 😊, Best of luck for Placements (Hope tu Flipkart hi aa jaaye);

- Vijender

Perhaps the most chilled out guy as far as academics is concerned 😊. Never met a guy who is so happy after screwing up an exam. Thanks for all the movie recommendations. Had a nice time listening to all the gossips and the fundas. Hope you do well at IBM and in your final year and beyond. All the best.

- Prateek Chaudhry

Rarely does a movie qualify through your screening process!!! Aur yeh swedish art movies kaise dekh leta hai yaar tu?

If I remember correctly, we used to argue a lot during our first year, but I guess it stopped because I realised that Nobody can ever win against you. Always ready for any trip we plan without even knowing where we are going. Best of luck at IBM and for your placements!!!

I have interacted with you mainly at two times : during our Architecture project and during our internship at eBay. You are a very helpful, consistent and interesting person. I enjoyed living with you in Bangalore and sharing my thoughts with you. I remember time spent with you at eBay canteen, in foosball, during Coorg trip, at Balaji PG and many more. Lastly, in terms of facts, we are almost identical : Both of us are "Abhishek", both of us are from Vidyamandir, both of us did internship at eBay, both of us have a job at Adobe, both of us have similar CGPA. I look forward to working at Adobe with you.

- Abhishek

Very focused, talented, and principled person, Verma ji has recently taken upon himself to point out to me, that I am

fat, anytime he meets me. 😊😊 Had some good memories with you, whenever the group meets. Best of luck for all your future endeavours. 😊

- Abhinav Deep Singh

Verma, I think you are one of the few people I just can't seem to form a coherent theory about. Also one of the few people I've tried to do that with. We've spent so much time together, yet the thing I will remember is how effortless our (quite lengthy) moments of silence were. The kind of understanding we had on what to talk about and how long to talk about it is almost uncanny. The fact that we never had even the slightest tension between us, given my propensity to snap with people close to me, is something I can't explain.

You are kind, honest, helpful, dedicated ... let me stop before words fail me. I almost feel bad that you never asked any favor of me during all these years when I was asking you to fill the water bottles, or get my couriers, or mark my proxy every other day. I don't because I know you didn't mind. A testimonial this big probably screams "life advice", but I know you enough to believe that you will be quite alright 😊

- Abhay Mitra

Never had I thought I would meet a calm and composed person in the debating club of IIT Delhi. But when I did meet you, right in my first year, you were clearly an exception to that. We easily connected over our VMC upbringing, shared interests in debating and literature, and your friendliness and approachability made it even easier. Abhishek, you are a soft-spoken, honest and hard-working person: traits which go a long way in being a great and successful person. I hope you get what you're searching for in life, all the best!

- Sahil Loomba

Abhishek you are a very polite and secretive person. You would never tell us your progress in the assignments 😊 I haven't seen you much in this semester and I am pretty sure you are upto something 😊 All the very best for Adobe and the secret thing you are doing 😊

- Khushboo Gupta

You are a very nice person. It was fun working with you in foundary. You shocked me by carrying two boxes simultaneously 😊

I remember how happy we were when our jugaadu AI bot reached quarter finals 😊 aise hi jugaad karte rehna and all the best for Adobe 😊

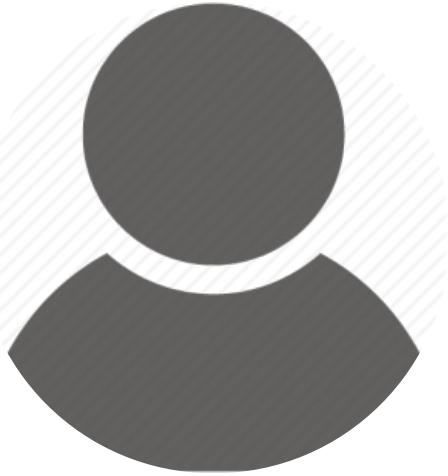

- Aastha Tripathi

Abhishek, You are very cool and talented person. You tackle problems very easily. Mujhe kabhi bhi deadline ki tension nhi leni hoti thi jab bhi tere saath assignments hote the 😊 pata hota tha ki tu apne aap hi sab manage kar lega 😊. You were the authentic source of all course related information for me 😊 It is nice to have a friend like you.

- Veerendra Singh

You are one of the few persons at IIT whom I haven't heard swearing in 4 years. You are the nicest person I know in IIT and talented in so many ways. I did a lot of assignments and projects with you and enjoyed doing each and every one of them. Hope that your dream of travelling in a train gets fulfilled soon 😊 All the best for your future and I hope you have a fun time at Adobe. Keep in touch after IIT 😊

Aditya Shakya

The most restless guy of our hostel. I really wonder from where did he learn that walking style. Its crazzyyyy bro... Well ek assignment yaad hai.. kch nii kiya phr b full aaye the.. #DoingTheImpossible

- Anand Agrawal

"I am not lazy, just on Energy Savings mode" seems like your motto. Kya chaal ha, kya dhaal ha. College ki starting me, I remember Kailash ke photocopy wale ne tujhe Jiasarai ka launda samajh ke bhaga diya tha. That meek small guy is now "Shakya Power". Keep up the Boss-like attitude. Have a mast life.

- Swapnil Palash

No fucks given since 1995. I doubt you ever plan for more than five minutes ahead. I remember how you slept through Holi in second year. Almost 20 of us were banging your door and you did not budge. Jitne shows tu ek mahine mein dekhta hai utne maine last 4 years mein nahi dekhe honge. Hats off to that! I remember those winter jogs we went on. Wait that never happened! Anyways, good luck with tranzo. And iss baar MAL250 nikal lio! Keep rocking that lazy ass of yours..

- Kunal Singhal

Mr Tortoise, I am in serious doubt if you will read these testimonials or not (time hi kahan tere pass TV series, dekhne se 😕 I think tu ider se "B Tech in CS" nhi "B Tech in TV Series" ki Degree leke jaa rha hai for sure); Joke Part I think u r most innocent guy in whole IIT, and the one jiske saath forever roomie bna ja skta h without even a single thought. though we did not interact that much in the final year (I can understand, tujhe SA 23 and SA 38 ka distance cover krne mein hi week se uper lg jaata hooga), but i am really thankful to you the way u r caring for me in Sarangi Course. I can easily see your changing efforts in the Assignments when we are in the same team. Seriously i do not like ki tu summer intern chod ke startup mein work kr rha, apni abilities ko underestimate mt kr and go with your best in the Placements.

PS : agle semester achi Coding Practice kr liyo, you have your whole life for TV Series and startup aise bhi tu abhi h ki kitne saal ka (12 ? 😊)

- Vijender

Dabra ka Don !!...

The only guy with his own swag. "No shit given" attitude.

sHe is the the only guy follows his own rules ... not going to class period . ab koi iske gate tor de room ka nhi uthne wala.

Webmail pe update ho na ho but sare TV series pe update rehna jaruri hai.

Kehne ko Btech kar rha hai but tv series and movies is only thing he is serious about.

But bhai stud to hai. (aur gate pe logo ne jo likha hai wo mita de lol)

Best of luck

Stay connected

- Mukesh Kumar

The coolest cucumber. You don't give a shit about anything. OS ke lectures tak toh thik tha, but movies 1.5 ki speed par kaun dekhta hai yaar? Aur is duniya mein tere bed ke alawa bhi kafi cheez hai, kabhi toh bahar nikal liya kar. India mein maximum TV series dekhne ka agar koi award ho, toh koi tere aas pass bhi nhi rhne wala. Jinke humne naam bhi nhi sune, woh dekhta rhta hai.

Par ladka hai bahut talented, OS mein aankhe band karke video dekhta tha aur exam mein phod deta tha. Stud.

Best of luck for your future!!!

- Abhijeet Joshi

Cool guy..You are like MS Dhoni, who always maintains the cool. One best thing about you is you are very kind, helpfull and honest hearted person...Best luck for your future bro..

- Akash Kailas Baviskar

The coolest guy. you just don't care about things untill the moment jab apko pata chale ki ab to lag gyi, imbd ki tv list me utne serials nahi honge jitne tu dekhta he. I am proud that i have spent my life's best 4 years with the fastest man alive in 100 billion galaxies, matlab flash ko pairo pr khade hona hi Shakya ne sikhaya he. And Shakya ne shaktimaan ko advice di ke 'Silence me to Superman bhi ud leta hu Tu 'fak' 'fak' kr ud' aur to aur shaktimaan k 7th chakra ki jagah Shakya ka photo rakhne wale the but shakya ne as usual apne down to earth nature k karan mana kr diya.

Ok this is the last one 'Shakya don't always leave bed but when he do he immediately checks the mirror to see if his six packs has arrived and sleeps again'.

GOT character - There's no one in GOT who can qualify for shakya'a awesomeness. All the best for tranzo bro! FO

Best Memories in IITD ?

The best memories are the ones I can't remember anything about, and yet can still feel everything.

Things you regret not doing ?

Never look back unless you are planning to go that way. So, no regrets.

Biggest Change Since First Year ?

Future is just a concept which we use to avoid being alive today.
So, I have stopped thinking about what happens in the long run.

Best thing you learn from here ?

A thing is a thing, not what is said of the thing.

What Next ?

Electric guitar, learning French (job is my last priority).

I did not realize it would be so hard to write about you until I sat down to do it. The easiest explanation that came to my mind was that I don't know you well enough, but I think that's not entirely true. I have known the Aishwarya who did CSP with me, meeting only thrice including the two TA reviews. I have known the Aishwarya who would write how loving each other was the most worthy of all pursuits. I have known the Aishwarya who kept her head down and let voices (seemingly) stronger than her prevail. I've known the Aishwarya who would speak her mind in the safe space that was the Gender Technology and Society class. I have known the Aishwarya who isn't afraid to take a contrarian stand (on the Internets no less) and defend it vigorously.

So I hope you see my difficulty. Which Aishwarya do I write about? The one who was, the one who is, or one that is yet to come. I cannot extol your virtues, for you might change. I cannot give life advice based on my convictions, for I might change. So maybe I won't write about you now. Maybe we'll always share this hard-to-describe connection in our own subjective realities, and maybe I'll never have to write about you.

- Abhay Mitra

Aishwarya, I'll call you more of my HUL classmate than my CS classmate! You are a very thoughtful and smart girl, who never shies away from stating a bold point of view: a true iconoclast. And it's always a pleasure to be a part of discussions that you start. I'm sure you'll go a long way in whatever you choose for yourself. I hope that you keep the skeptical enquiry up, and be one of those changemakers, another popular Aishwarya Rai people will hear of

sometime in the future! All the very best.

- Sahil Loomba

Hi! You are extremely talented and fun loving chick and I wish you would have allowed people to become aware of it. Nonetheless, I am glad I was able to witness your singing and dance performance. I will always remember our talks when we could talk about the things some people will never understand. Things got bad between us but we are back on track and may it always stay this way. Wish you luck for your life ahead. Cheers!

- Parul Jain

Never have I seen someone so open minded, you are unique. Wish I could read minds, (just) to know yours 😊. Best of luck in the corporate world.

- Rayala Bharadwaj

Aishwarya.. You are one of the bravest and wittiest persons I know 😊. I hope that I get the guts to pursue whatever I want, like you do (I'm jealous of it 😊). We both are the same in many ways. That depressed discussion about life and career which we had on the day before we got placed, is something I can always look back and laugh at. You have given me support when I'm down (you might not have known it) and made me believe that people like us exist and I'm not the only odd one out. So, thank you for that 😊. I think by now you guessed who I am 😊.

- Anonymous

Hey roomie! I still remember our first chat when you were trying to convince me that this is indeed your real name 😊 I got to learn a lot of health facts from you. Your weird ringtones would irritate and make me laugh at the same time. Dagabaaz and gandi baat kaun lagata h yaar alarmtone mein 😊 I remember how before going to sleep you would play all the weird songs and choose the most irritable one - hoping it would wake you up 😊
All the very best for all your future goals 😊

- Khushboo Gupta

Aishwarya, I will always cherish those talks, laughs we used to have, those dances at bday celebration. I will also miss your 'Dagabaaz' alarm tone. All the best for your future 😊

- Aastha Tripathi

It was interesting reading your blogs - following your journey from sharing your reflections and imagination to advocating the Devil 😊 Keep on expressing your views and engaging in the ensuing conversation. Have a great life.

- Tushar Marda

Kuch nashe empty hote hein, aur kuch nashe fulfilling. 😊 Cheers to an year full of decadence and reckless thrills.

Oye CS khele... 😅 😊 aur daddu aka "ALIEN". Bhai tu maan ya na maan par kuchh to pakka ajeeb hai tere saath. Apne planet ke Wikipedia pe dekh liyo 😊 Saale ko kahi bhi ghumne jaane ka bata do Aadhi raat ko bhi ready ho jaayega. Koi bhi sports ho daddu pakka gir ke hi rahega. Uske bina usko lagta nahi hai ki usne kuchh khela 🤪 Aur mana ke nakra ne dhoka diya hai. Par yaar koi na, ab to aashram bhi hai tere paas. Waise us din ki photos bhi padi hai mere paas 😊 Saale dhyaan de de college mein thoda final year aa gaya ab to tera. Chhod de aashram ki moh maya 😊 Aur bhai gadar hi taadta hai tu nakra ko..lol.. lage raho. Kabhi na kabhi to mil hi jaayega 😊 Baaki yaar abhi tak wo train se girne wali mystery solve nahi hui hai. Bas hum log tarah tarah ke scenarios banake maze lete hai. Kabhi yaad aa jaaye to bata diyo 😊
Rangeele insaan All the best yar ! 😊

- Zala Ronak Prakash

Daddu, your smile is energising for everyone. Don't lose it.

- Ishaan Batta

Yo daddu.. You are a weird guy with weird thinking and weird physique 😊 I guess the things i'll miss the most are your "classy" statements while playing orbit 😊 They were so precious that we had to create a separate file to store

each of them. I need to find that file, that would work as a great mood refresher 😊 Apart from that, you irritate a lot as well with your "maun vrats". Also, you are great at sports courtesy your weird physique 😊. For some reason (i guess u know), i don't see much of comp sci in your future, but i know for sure that it will be very exciting. Machate Raho!!

- Chirag Agrawal

Yo daddu, We all know u r an alien but you didn't tell us about ur planet yet. Tere harkate arbit hoti he, kabhi arbit bato pe hasega, kabhi silent mode me chala jayega(very irritating for others except me), kabhi achanak ashram chala jayega, kabhi ghar nikal jayega, kabhi bhi movie dekhne nikal jayega(& wo bhi akele), kabhi Indian aunty ban jayega('sasural simar ka' type kuch dekh lega), kabhi 6 bje subah jag jayega, kabhi dinbhar sota rhega, etc. Har bat me tera enthu dikha par assignments, exams k time pe mamla thoda gol ho jata he. 4th year me daddu rangeela ban gya. Ashram ki 2 bandiya, good one daddu lge rho. Wo bf wali k liye my words- "There is always a goalkeeper but this does not mean you can't score goals". So,lge rho. Yes we know, Nakra ne tujhe dokha diya he, tumhara love ab adha rah gya he, but now its ur turn.

Vese banda shi he tu, har chij tu bahut fast sikhta he. You have an extra amount of energy for everything. Best of luck for your future.

- Prerit Kumar Patidar

Bhai tu kis duniya se aya hai?? yaha ka to hai nahi... kahi k bhi catch pakad lega, kahi se bhi throw mar dega... baddy me bhi kahi se bhi kud k mar dega... daddu ab to bta dio itna bhaktimay kaise hua k ashram k liye nakra ko chhod dia 😊

bhai wo mast tha jb nakra k room me upar se chhad gya tha 😊 .. and wo nakra ka description, abe ek bal sahi nahi hai dobara bal banate hain 😊 ... no one could describe it better than you!!

- Shivam Verma

As someone already said , u are the jack of all trades , U always have a solution to any problem. U do not belong to this planet with the kind of body u have. Sometimes u r super excited and sometimes u remain silent and just say (darwaja band kr dena). Weird .. huhh ! Saale tjhse kabhi koi baat chupa nhi skte sab pata kr leta h tu aur fir ek ek ko btaega aur. Kuch bhi ho but u r the best buddy here, Dhanya ho daddu . kya hua tha yr train mein kab btaega tu??

- Saurabh Nakra

I have never met a guy with so many weird qualities. You are my brother from another mother but I am quite sure that you are not from this planet .

You will be remembered by us for your highly expandable belly able to digest all flesh and bones. Beside this you are among those rare people whom someone can trust for anything 😊.

The typical adarshwadi Indian guy. Non-veg khane ka jo enthu ha tera, shayad hi kisi aur ka ho. You are such a hardworking person and someday thats gonna really pay off for you. Shaadi me milenge phir sab teri.

- Swapnil Palash

Yo my bank buddy! Bhai bank me tune mujhe loan dilwaya, fir fee-reimbursement karwaya, fir farzi bill pe loan lena bhi tune hi sikhaya, subsidy form bhi tune hi bharwaya. Thanks a lot for that.

Tujhe finally bank me mam bhi bolne lgi, har hafte jute kharidte ho kya. I remember, ADA asa ham dono ka copy me pakda gaya tha, jo question withdraw kiye the unko chhod k sare match huye the.

Yes u r nice guy. I always have fun with you, best of luck for ur future.

- Prerit Kumar Patidar

Chicken buddy! I still remember how you would bring your baviskar mix (or whatever) is mess. We have seen so many thrilling cricket matches on your laptop. I can imagine the pain that rockstar laptop goes through when you watch your soaps..! With your eating habits, TV show preferences and those long phone calls, you are easily the weirdest guy in the gang. Will miss you.

- Kunal Singhal

Please stop watching those shows(or whatever they are). Recently your room has become the one for watching cricket. Hope you keep my enthusiasm high even when other cricket fans are gone and we have much better time next year.

Akshay Suresh Bhat

Akshay Suresh Ramesh Naresh Bhat ! I'm gonna miss your laugh. We did scrape through some awful courses and assignments together. You are smart , funny and a great thinker - I have heard some of the most ridiculous philosophies from you and your attempts to justify those. You have a crazy streak in you. But better keep it in control. You have an amazing future ahead of you - just stay away from the pot.

- Ashutosh

Yo Akshay, you are one of the most chilled out guys in our college. I have known you from +1, easily you are one of the smartest guys, yet your laziness beats it. Most of the things we aim in life are a match only how we achieve them might be a little different. Hope you'll teach me the little tricks you learnt this semester 😊. I am happy that we have one more semester together...😊.

- Varakantham Bhargav Reddy

Sometimes people just come to know each other through many connections. Obviously same dep, we also knew each other from hostel and we have known each other via Siddarth. I was there when the first time you had your beer and what not 😊 , and it took some convincing from me to "bring you back to hostel and stop you from going along with others to Chandigarh at midnight". 😊 😊
It has been great knowing you. Best of luck. 😊

- Abhinav Deep Singh

You're the one to walk, and think, off the beaten track. Which doesn't always turn out right, but certainly makes for memorable events. Your colloquium presentation was the stuff of legends! Your fundae range from the hilarious to the insightful to the utterly bizarre, and always lead to interesting conversations. You certainly have what it takes to make it, with a little bit of focus. Good luck mate!

- Kaushal Hooda

Yo bhat! Man it was fun discussing, critiquing, arguing over everything and anything except coursework ofcourse 😊 Dude you were the only one during the initial years in our hostel (CS people) who actually used to treat me as equal intellectually and "academically", it really helped me at those times; after that I stopped caring about academics 😊 Thanks for that. You have a curious conscious mind, and even more bizarre and bright inner subconscious (I have seen you web history 😊). Now that I think, all the discussion I had with people on non CS stuff has been really handy for me, and I had quite a lot with you. I know you will make a good career for yourself. So have fun, never stop dabbling in new and interesting stuff (I hope you get what I mean), and I wish we will always be able to have such frank and youthful talk even when we meet after long long time and randomly!

- Shubham Solanki

Akshu bro, you are a really smart, intelligent and funny guy. I will always remember your impromptu Colloq presentations 😊, making definitions and explanations on the fly. You have always been careless. But you also have the ability to see right through people and think outside the box. I sincerely hope that you use your capabilities in a constructive manner and work hard to achieve your goals. All the best for your future. 😊

Jaffa !! Highly talented and equally lazy - Lazy elegance ! Most considerate and caring person ! You, puppy and me

were always partners in crime and I still remember all those times we laugh a lot when we are about to screw something or have already done.

Had you taken your acads seriously, you would have been in top 3 in our department easily. Anyways, you deserve the Redmond placement for all that potential you have and I hope you will use this opportunity to show how much you are capable of.

You have a great quality of caring for your friends which makes you one of the best friends to have for anyone. It took me half an hour to think about all those times we had together and to start writing this, its been a fantastic time and I will cherish these moments forever.

Will miss going to KFC, Subway, Eating biryani, and in night mess, Playing FIFA, Cricket, Watching movies, Football and Cricket, Supporting for UV, Sachin together and fighting for Barca and Madrid. Babu Maneesh, enti ra idhi... assalu manam idaram criticize cheskovadam tappa we never praised each other... and for the 1st time you are going to see the other side of me... 😊

Maneesh ante IPL student from chaitanya college... who wears an orange T-shirt and blue jeans.... owns a cycle to overcome his laziness... and eppudu chusina TV tho tirugutadu... this was my 1st opinion on you...

2nd sem lo when every one used to get marks in binary digits in data structures you used to make our group proud by getting the highest marks in class... and from that moment i started respecting you..

Assalu ni antha chill and intha thope candidate ni chudaledhu ra...okasari u, me and rahman formed a group in one of the courses... and me and rahman were really lazy to do the part we were assigned to do... then you came up as a hero, in great anger and said... arey chill kotandi miru inka... nen okadni cheskunta le... Then I thought arey enti ra veedu motham veede chestada... the level of confidence you have to do the complete project on your own was just awesome (kaani twist entante meme chesam le ma part and maake ekuva vachay ne kante 😊)...OH SHIT... no mocking kada i forgot...ni gurinchi positive ga matladatam kastam ga undi ra 😊

There are many more things to say about u but u cannot bear them for now... one thing for sure... without YOU and DEEPAK, my life at IIT wouldn't have been that easy when it comes to academics... You were always there for me when I needed help... I know u are meant for achieving something big and you did... I saw u as a fool when u were confident about your selection in Redmond without preparation and u didn't have a single clue about placements... but as always, you shocked me again... and I hope u will definitely achieve something bigger in future.

But please don't go for civil services... I am 100% sure that you will crack it but everyone knows you are not the right person as you will make people suffer because of your laziness 😊 ... arey chalu kada... intha pogadadam

I will really miss you ra maneesh... Cricket, Exams lo ni pakkana kurchovadam, assignments help..

Rishikesh trip(friend)... Manali trip(Good friend)... Nagtibba trip(Close friend)... Hope manam mali kalustaam anni...

I think the two of us are more alike than we appear on the outside. Maybe if you were more interested in CS, or if I stayed more time in the hostel, we could've been better friends. Needless to say, you are really smart, but what really strikes me is your humility and how unpretentious you are. I find your carefully considered carefree attitude to be a good middle way between unfettered hedonism and dronish existence. Good luck for the road ahead. I hope our paths cross again 😊

Anshul Bawa

Bawa, main tujhe kabhi samajh hi ni paya even though we have remained both close and far. But I know for sure that you are very different in how you view things in life, and that difference is the one visionaries and great people have. Keep walking the path please. 😊

- Ishaan Batta

If anyone wants to see a perfect balance of hard-working and fun person, you are the guy. The dedication of yours to make such neat and ordered notes is absolutely amazing. Aur Sarangi ki mimicry to tujhse better aur koi kar hi nhi sakta. I wonder why we don't meet more often. Maybe because it has been almost a year and I still can't find your room 😊 I remember you used to say that your room is in the G-spot of Girnar 😊 I know you will do great things in your life. I wish you all the very best for whatever you do 😊

- Bhavya Goyal

I never thought during my three year stay at IIT that I will be writing a testimonial for you. But the most unprecedent of the event happened, and you happened to flash across me at Hampi. That trip was one of the best I have had, partly because of the place and quite majorly because of the company. I have come across very few people who have such a insightful outlook of looking at things, and also the way you can follow discussions on art, literature, random things is quite uncanny. And equally uncanny is your critique of whatever paintings made by me, I have showed you; they very precisely match my intentions (you were the only one who could actually decipher the recent tribe painting). You are one among the bright ones, hence I need not wish you a good career. Instead I wish you get to follow your interests, have good relationships and never quit travelling, exploring. I don't know whether you see yourself as that or not, but your decision to visit Hampi marks you as quite an explorer in my eyes, more of an explorer of intellect 😊 Have a fulfilling life ahead!

- Shubham Solanki

Mr. MENSA - this is how I tell about you to people who do not know you. 😊

You're a very sensitive, hilarious, and intellectual guy, and you have a very cute smile. I love the way you speak in such a gentle and polished manner, and if there has to be an Indian version of British finesse, its gotta be you! I love having conversations with you, and you are one of the people who I feel have a very strong, GENUINE interest in science and philosophy and arts and what not.

My fondest memory of you would be accidentally bumping into you at Hampi, and cycling all through the evening on the roads, listening to music in the dusk by the lonely riverside, having some strange Israeli food together, and you educating me throughout the trip and being my tour guide for free. 😊 I hope you go ahead a long way in life, and find all the happiness which you seek.

- Aishwarya Rai

Phshk, where do I even begin? Do I begin on your "two cents of knowledge on free will and determinism"? Or do I

begin a year ago, when we got talking on the most accidental of things? (Sorav Bansal in Chandelier is still an unfinished project, BTW.) Do I write about how quick and easy it was to know you, inside out, right side up, wrong side down? Should I mention the grossly (and crossly) narcissistic mutual fanboying of that week in April? Or the deeper, entirely wondrous, and somewhat life-changing conversations that have followed ever since? How about the steep and beautiful trek of Tadiandamol, akin to the trek that has been our friendship? Should I talk of your habit of spending selfless affection on others, rather than spending some on your own self? Or your sheer nerd humour, wit and absolute genius? Do I begin talking of your infectious manic behaviour, irritating slap habits, and irresolute tell-tales? Perhaps the times you've been so comforting and understanding? Do I begin by saying how seriously thankful I am for this friendship we share?

Where do I even begin?

Maybe nowhere. Let's not call this as having begun, for then it would have someplace to end.

P.S. This is incomplete without a quote by Green, and here's what I've picked:

"We've been friends too long to pick, but if we could pick, I'd pick you."

- Sahil Loomba

The guy who beat complete Mech in ED 😊. Your neat notes have been saviour for many xD. Its been fun knowing you and dragging you to Aravali Mess with TJ. You're always there to help out, be it HUP or HPC xD. All the best for future !! P.S Agle saal yahin h, mauj karte hain xD.

- Ritesh Baldva

The mimicry guy. I am yet to see someone who can mimic someone so well like you. 😍

You don't miss even the tiny detail in anything. I remember doing the AI assignment with you. It was really fun.

I still wish you would join me in UPSC 😊 All the very best for your future! 😊

- Khushboo Gupta

My M&M buddy, pehli baar koi mila tha jisko merse zyada gaane aate the 😊 You are really nice, intelligent person. I have never known a person jisko har field me itna pata ho, koi bhi topic shuru kar lo and you can talk about. All the best for your future 😊

- Aastha Tripathi

You have a very good nature. You were initially not a big fan of hanging out with hostel guys since you had shifted your room on ground floor, but I appreciate how you had shifted it back with us. I remember how you often used to get crazy and it was really fun. I remember partnering with you in CSP and DB, and realized on both the occasions that you have as much habit of procrastinating as I do (okay maybe not as much). Best of luck for your future endeavors!

- Rohit Pruthi

Hi Anshul

I got to learn a lot from you from our interactions during our exchange program. Your knowledge of things, places and events is unbelievable. Your notes gave competition to the notes of French students and it was amazing how quickly you learnt French. Best of Luck for all future endeavors !!

- Vansh Pahwa

One of the longest and most meaningful friendships of my life has been with you! 😍 What's amazing is how we survived despite the ups and downs! I can never forget the description, 'Tainu ni pata, Anshul Bawa apne varga nahi.. Ohda dimaag computer di tarah chalda hai' 😊 I hope the future has many more moments for us to cherish together.. Miss you buddy 😊

- Tajveer Singh Sandhu

I had a great time getting to know you. I think we worked only twice together as a team. DB project and Last sem.

😊 Both was awesome.

So many awesome memories in India and France. You ate so many times in Aravali Mess, that Mess Workers used

to think you are from same hostel. 😊

Best of luck for all your future endeavours. 😊

Thanks for reminding - Jeele Jeele Spock! 😊

Best thing you learn from here ?

Finishing stuff at the last moment

What Next ?

No clue. I guess, I'll never be old enough to confidently answer this!

Dude, having you as a friend has been of great value to me in terms of self-reflection on issues concerning the society. The way you think on them and the enthusiasm with which you work on them has been motivating for me to introduce these qualities in my own life. Thanks for that.

- Ishaan Batta

It amazes (and amuses) me how many things you can learn just out of sheer curiosity. It seems like every time I meet you you've picked up yet another thing I've been interested in for a long time. Equally impressive is your passion for the causes you believe in. I wish more people with so called PORs from our college were half as passionate as you when it comes to getting things done.

Best of luck for all that lies ahead. Keep exploring!

- Abhay Mitra

Arpit, you were one of the first people I started talking to, when I had a department change to CS. Just those early conversations in third semester, during Discrete Maths, and the CompArch assignment, helped me ease into the department. Thank you for that! I'm very glad to see that you feel quite strongly about some issues, and also aim to do something about them. I hope you find the right path towards them, and do some great stuff along the way. All the best for all that you do!

- Sahil Loomba

You're probably the most dedicated guy in the batch. I like your enthusiasm towards Stree, and respect you for it. It would never have been so active without you. You always manage to test my patience though with your poor jokes. And I still regret taking Financial Mathematics course. All the best for your future!

- Rohit Pruthi

Hello compilers ke buddy! Aakhiri moment pe assignment karne ki feel hi kuch aur thi tere saath.. You taught me how to make good reports even when there is nothing to show 😊 That's a very important skill to survive in IIT. All the best for future 😊

Best Memories in IITD ?

Vindy rooftop Bhat's bday
cs hand grenade triple kill
Late night discussions.
Mafia. Dota. Late night excursions.

Things you regret not doing ?

Perhaps could have pursued one particular thing all throughout four years. Still haven't learnt how to manage my time well.

Bigest Change Since First Year ?

Umm, basically what is inferred by my tagline. Yup, IIT gave me that thought. I have started to accept more things as normal.
And compu gave me this -> I wait a lot more before coming to conclusions. Try to see the pros and cons first.
Probably a form of checking for base cases.
I am today more ready to accept the fact that I may be wrong about things. Gives me the feeling I am more wise.
Where again I may be wrong.

Best thing you learn from here ?

The base case checking habit I mentioned above.

What Next ?

Job. And then? Not sure really. I guess I never liked spoilers.

Best Buddys ?

Even though we have done many assignments together, played quite a bit of DotA, went for many parties together, even spent a summer together at Routofy, the thing that I'll remember the most is the discussions we used to have. I like your habit of questioning social norms and forcing to think about things from a different perspective. I hope that we'll remain in touch in future too, perhaps in Bangalore. Mr. Bhur. Best buddy! Train ki picture toh tune bta hi di. My group partner in most of the assignments, vese coding hamesha tu hi karta tha, or finally asgn thuk hi jata tha. Yar tune mera sath kabhi ni chhoda, me kisi course me 5ji khata tha toh tu 4gi, me 4gi toh tu fukka. Isse jyada or kya chahiye yar. U r my real bro. Vese bhur, u r one of the coolest guy I have ever met. Kisi bat ka tension ni, asgn thuk rha he thukne do, exams thuk rhi he thukne do, bandi se katta ho gya hon do, and all that. Teri ghar k side wali bandi bhi kisi or k sath bhag gyi, koi na bhur or milegi koi. Moral down ni hona chahiye. chal abhi k liye itta hi, or han cloud k asgn me group banana he next sem. Be ready.

Is bande ki smile 24x7 on rehti hai! A happy and genuine soul who watches all kinds of bollywood crap and then appreciate them.

I am not sure what is more impressive, your bhojpuri dance moves or your (foolishly) aggressive AOE play style. Though I think I will probably miss your external hard disk and your portable speakers (that rocked all our parties) more than you!

- Kunal Singhal

Bhuriya !!...

The guy with HD movies....

Kitna khata hai yaar fir ar tu lekin phir bhi sab mujhe kehte ... tu mess me infinte kahta rehta

Summer me gym session yaad hai , roz subha uth ke daurne ka plan , gym ka plan kuch nhi hota ta .. koi nhi uthta tha

and tera room nhi hota to CS and AOE kaise khelte apan....

waise abhi apan to saath me hi 😊

- Mukesh Kumar

Going to your room just to knock and ask (once a day)'kya kar raha hai' has become a routine for me(even when I am totally sure you cannot do anything meaningful). After a quite slow start in first and second year you came out shining in your third and fourth year. Hope we will have a great time in our final year.

- Abhishek Goel

An extremely resourceful person. Your hard disk has been the main source of all the movies and TV series I've watched at IIT 😊 . Thanks for that. Do well in your final year, and all the best for future!

- Prateek Chaudhry

You are one of my closest friends at IIT. Night mess buddy, Train buddy. Tu na hota toh train ka safar bahut boring ho jata. Also, you are the guy I come to when I feel like doing any bakchodi. How can you watch so many random movies (Vastav, Rangeela, Padosan) and also call them 'Stud'?

Aur second time courses karne mein toh phoda hai tune yaar, sabme ek baar Fakka le liya kar!

We will definitely remain in touch after IIT.

Best of luck!!!

- Abhijeet Joshi

There are only 3 Degrees of comparision 1)Adjective 2)comparative 3)Superlative.. good-->better-->best,But I have to use Superlative of superlative, you are the Bestest friend,buddy,person. You were always there for me since we met...It would have been very difficult for me without you..Last sem jab hamari ladai hui, I was feeling that I am loosing something precious, usi din main soya tha to tu sapne me bhi aaya tha mere...You are genuine and honest person, you will definitely achieve your dreams..Have great life ahead..And keep smiling as you always doo!!

- Akash Kailas Baviskar

I do not know 1st year mein hum bilkul bhi baat kyu nhi krte the, may be u were a nerd then or i always wonder ki yeh San Andreas ka bnda Game ki dream life chod ke IIT mein kya kr rha hai (Game ka Hot Coffee Mod pasand nhi tha kya? 😊); I initially put you in my Non-Classical List with some uncertainties but Over the years we became good friends (Specially After PL course, Thanks PL ke boring assignment mein krne ke liye), I really like the way you put efforts in the Assignments and Minors, only bad thing about you is that you are not a good finisher (Remember MAL250 😊), yeh quality apni improve krle you are indeed going to be successful person in life for sure (All the Best for Intern AND Placements) and Congratulations you are finally in my Classical List.

I had no idea you were this funny! I really enjoyed the entire trip at Puducherry. You're sincere, content and sensitive that I could tell from the small time we had. I'm sorry if I got that wrong. I wish, we had spent more time together. It was nice knowing you man. 😊

All the best at VMock!! Have fun!

- B Deepak

Piddi, the man with the spark! The sports guy, even now I see you diving into a hole to dig out the elusive cricket ball. The most chill person I've ever met, always one step from disaster but you always make it in the end. Thanks for bearing with me and my lame jokes and random epiphanies for so many years, even during the intern 😊 You're always there to help someone out, always the mature one in our crazy group. I always enjoyed your enthusiasm in things big and small, from FIFA(which I'll never get) to chicken to all sorts of random stuff. Remember the time you went and bought tennis shoes in hype, never to use them! Only someone as chilled out as you could've stayed sane through a year with Deepankar. As they say, great things come in small packages! I'll miss you man.

- Kaushal Hooda

Piddi bhai, kab bada hogा? I often wonder what is it that makes you hooked to fifa almost all the times. 😊 We both were two great suckers at academics, in the same cycle and from the same hostel which apparently didn't help

much when it came to academics, set apart by the lowest marks in the first MAL110 minor among the whole cycle 1 (I fondly remember my marks- 0 😊). But you are damn smart when it comes to certain things, and really really content with things. Dude, how do you become happy in little things- a good meal, a sports match or FIFA! I have seen you give such fundaes at AINA, that I can think of no advice to give to you. 😊 I am really sorry to try to make you a fool in Bangalore, but I guess it would have been fun for you too, me offering lies after lies to you.

- Shubham Solanki

Ohh piddi! I didn't understand the sports obsession until I saw you. I had the most fun jerking around in group assignments with you. I will remember studying the days before exams veraciously with you. It was fun observing you and taunting you. You have some wild cardness in you. I wish you all the sucess.

- Akshay Suresh Bhat

Piddi. We have known each other since the JEE preparation days. Although we were in the same batch (of 16 people), we hardly ever talked. After JEE, we were both allotted IIT Delhi, and luckily we got in the same hostel, same wing. You have been my closest friend since then. We were roomies in 2nd - 3rd year, and even now we share a wall 😊. Your perception of life and your calm-composed way of handling any difficult situation has taught me a lot. The most amazing memories in college were with you (Delhi Darshan, WoW, Mathura trip, Goa trip and so many treats here and there). And we all know how smart and intelligent you are, as Hooda says, "Spark hai tujh mein!". You are the Fifa guy of our wing. You have always been there, even at the most difficult of times. You have been really supportive and helpful. I hope that you remain this way always. Your attitude towards life and your helping nature is inspirational. I can't find words to express how great a person you are. All the best for your future, yaar. Jaha jaana, macha dena. 😊

But i was completely wrong... the talent you possess(hats off)... oka class ki ravu... but exams lo matram you always stun me with your performance... Keep going man... And thanks bhe academics lo help chesinanduku... 😊

We never had a great bond till 2'2... Databases course really had given us more time to hang out in GCL, Night outs we had, early morning walks from BB after completion of the assignment... nijam bhe... those were the days I completely enjoyed when it comes to academics...

It was you with whom i used to share my secrets and ask how to proceed further... got the context??? 😊

And coming to the non-academics ... You have 2 kind of personalities... one when you are lazy to do things and one when you are in hyper active mode... Most of the people have seen your second version... but as a hostel mate I know how hard it is to take you to lunch, Play games and do anything... 😊 But you are really a sweet guy, never hurts anyone... the way you speak attracts ppl... and I guess you will be easily promoted to higher levels in your company based on the talent you have and the way you talk to please people(mana basha lo ayte soap eyadam antaar 😊)...

These last days are really awesome... The bond we have in the hostel... nijam bhe ilanti chill life mali eppudu vastadho... Every day, literally every day i enjoyed my best in our hostel with you, vamshi and akhil... If it weren't you guys, my hostel life would have been really boring... And as people say, NIL rocks... 😊 and finally you got a great job with great package... atleast ippudaina koncham money karchupetta ra please 😊

BYE BYE BYE... All the best mama 😊

Best Buddys ?

All my best buddies 😊

Waddup? Before I get started, I must warn you that I'm going deep here.

I've always enjoyed your company. You've so much talent lying dormant in you. The information you possess about everything, everyone and every event that has happened makes me go awe. Being with you, you always exercise my mind to keep up with you to understand the deep humor. The references and connections you make to crack jokes is just wonderful. Arey serious ga cheptunna, you possess heavy talent. Just make sure, you find your passion and the right direction to channel it. 😊

I still remember the first time we met, it wasn't in IIT Delhi as you'd pointed out at our first meeting at IIT Delhi. It was in IIT Madras 😊. First meet at IIT Delhi, I didn't recognize you at all but being you, you had recognized me in a flash and also remembered my friends as well. By names. Nobody does that. You've an inferiority complex developed, which makes you low on confidence, which makes you fear about grades, assignments. If you can lift up that confidence, overcome the fear, I'm sure you'll astound everyone with the results. The way you've managed last year, is a small evidence for that. 😊

I'll never forget the many jokes, moments we've shared. Starting from datastructures assignments to the HIGH moments, we've been together. I've shared myself with you for 4 years now and it's only because I've never felt more comfortable with anyone than you. I can't believe this is not going to happen anymore. You've always been a Nil bull for me. You don't judge, you're caring, sensitive and have always been nice to everyone.

I'll miss you bey Sai. I can't believe Nilgiri won't be there anymore, and you won't be coming to party hard every time. I will never forget the hangouts we used to have with Nitin. 😊

Best of Luck at PS TakeCare and I hope you discover you're true potential at it. I'm sure we'll be in touch.

Lastly,
I was wrong, #TeamCap.

Bro!

Gonna definitely miss ur instant comedy taglines.

Nt sure if u remember this, but u actually were the 1st one I met the day I entered IITD. Bt tht day I felt u were a weird person. Ofcourse u are weird. U have the ability to change the entire mood of a person just by talking to him fr a sec(obv nt something like an X-men mutant though).

U are an amazing person by nature and hope u stay the same forever.

I am definitely gonna miss our Satpura and Nil "moments"(If u noe what I mean)😊

Have a blast throughout and all the very best.

I'm obv not gonna keep saying - "gonna miss this, gonna definitely miss that" and all, because - I'm just a call away....

- Mohammad Hafeezul Rahman

According to me, you are coolest cucumber of the batch. Your jokes and catch phrases are something which stay with people forever. I remember an instance during our placement exams (I don't know if you do), I was so stressed out about the test and suddenly you cracked one of your jokes , for which I laughed for about 10 minutes non-stop in wind-t. The test didn't even come to my mind. There are many more incidents like this but to write all of them would take a day 😊 . So, thank you for all those memories and all the best for your future 😊

- Marugadi Sumanth Reddy

Tension Oddu Mama !! I still remember our colloq when you were so tensed that you made it funny unintentionally - For example, Let's take an example. And its so much fun in the way you talk itself - Twist entante .. Sarle kani. Be less harsh to yourself and make things chill for yourself. Hope you will have a great career ahead ! .. I can see the dialogue coming from you .. Mumbai ni poinchadaniki vacha 😊

- Kothinti Trivikrama Reddy

Saiii... A tension master, the first thing that comes to my mind when I think of you is the way you bowl(Mitchell Johnson Style)... ammay lekka...

Seriously mama, the gift that you have is u can make people laugh and it is the best quality in you... Assalu enni kotha words(light ga, bruh) marchipoyaa 😊 and deepak used be your descendant to carry out the work you started... I can always see that u r really concerned about ur frnds, u care for them and support them when they are in need... Arey mali ekirinchaku idhi chadivi...

I guess it was in 2nd year when our formal talk started turning into friendship... Do you remember the time when I used to stop you guys and beg you not to walk that fast... Nijanga bhe IIT lo aa chinna chinna moments are my best moments...

Acads lo ayte cheppalsina avasaram ledu... The way you started and they way you are now... completely opposite...

Assal chaala ante chaala develop ayyav eay last 2 years lo matram... but try to be chill mama... eppudu chusina tense avtaav even for small things... and i guess there is a reason for that(Bad Luck)...

One of the best things I am gonna miss from IIT is your jokes... Keep rocking mama, all the best... 😊

- M Samheeth Mathur Goud

Dude, tu dil pe kyu le leta har baat ko if i point you as the ulti Maggu i have ever seen in IIT it does not mean tu classes jaana hi chod dega woh bhi RDL ki jisme i am completely dependent on you, ab Cricket khelna chod and thursday ko lab jaake donne ki report submit kr, fail kra diya na toh trust mein Kiran ke pass Bombay toh nhi jaane de rha 😊 ; I think our friendship is the best example of The fact that life is not static all the time, it changes rapidly, despite sharing same cycle it took us almost three year to share a single word but see now we share every single bit of happenings with each other. I still remember the moment when you and Deepak were so happy and gave me lipton treat when two girls sent you friend request, and my creepy smile let you guess the whole thing 😊 it was really a funny night i have ever had in IIT. Best of Luck for your company (whatever it is 😊 😊) ab childish behaviour mt show krne lg jaaiyo 😊, i know it is PSTakeCare;

Best Memories in IITD ?

The Counter Strike tournament in our first year. The look on the seniors' faces when we beat them was priceless.

Things you regret not doing ?

Not taking a more active role in music and debate club. I would have liked to know what I was capable of.

Bigest Change Since First Year ?

I've come to learn that taking more risks keeps things more exciting and vibrant, rather than just taking the path most frequently followed. So this certainly the biggest change I see in myself.

Best thing you learn from here ?

IIT Delhi has made me realise that dreams are achievable. You have to both believe and work hard on your goals.

What Next ?

Off to Bangalore. See what awaits me. 😊

Best Buddys ?

Mohit "Moti" Agarwal

Moy drug! Ah, that Russian phase! But I'm glad we moved onto Spanish (but have we gotten over Spanish as well?). I still remember how we made bunk beds and I was able to sleep on the lower one. Oh and Chris! When it got lost I was sad for you but so so happy inside! Damn that cat. Countless hours spent in GCL doing nothing was so fun. I'm sure we have lots to look forward to!

- Saket Mehta

Ban/BML, It was nice knowing you and interacting with you the many times we have met. We had some good laughs. You do good mimicry for Mohit, and his eccentric behaviour, which always made me laugh. 😊 Best of luck for your future endeavours.

- Abhinav Deep Singh

We got closer during the later half of the graduation but still spent enough time to make lasting memories. All those discussions on football and whatever topic we got in mind are priceless. All the best for your career and I hope you make it to that world poker championship someday 😊. Lets have some fun in Bangalore and Hyderabad as well.

- Kothinti Trivikrama Reddy

I even wonder if we met personally before we got our intern but it was intern year which brought us so close, thank god we struggled so much for intern that year (rejected in some same set of companies, discussing over it for hours on fb), I was really sure we gonna have a fun in Bangalore but i never thought it would be such as wonderful experience (Back in Bangalore i do not know if we had a single evening after office which we spent in PG, Thanks for indulging me in bad habits like Poker, Drinking 😊); You are not only a sincere, mature, nice guy but a true all-rounder who can manage Academics, Projects, Adda52, 2 girl friends 😊 at the same time so efficiently. And see who is saying that he do not have patience (tolerating my immature behavior, filling water for me from that scary floor 😊, help me Crossing that Scary road, graveyards for whole intern without patience is like impossible 😊). Best of Luck for future (OLA, IIMs, MS) and Let us start from the same finishing line and have the same fun once we are back in Bangalore; and please do not speak khasi (so violent language 😊) in front of me 😊, learn HINDI instead waise bhi tum HINDI itni innocently bolta 😊

- Vijender

4 years of IITD with you, man, has been a good ride. 😊 Hands down, you are the person that I have learned most from in this time. I can't find words to describe last 4 years, because it was so much fun where we did so many funny and impulsive things 😊 that I can't even keep count of the awesome moments. Also there is this thing where I feel that "this is not the end". Just a phase which is over for us. A change of scene. To keep it simple I am looking forward to our life in Bangalore. 😊

The only other guy from Bombay that I know of, you probably had a similar experience coming here as I did. Had many interesting experiences with you throughout our time here, not all of them necessarily being fun but I regret (almost) nothing. By looking at your profile i suddenly realize your (non-)involvement in this whole yearbook thing and the fear of the possibility that I wrote this for nothing sends chills down my spine 😊.

- Kshitij Morodia

I remember how I was always jealous of you since you always managed to get a single room. We've had a lot of discussions which I'll always remember. And I have learnt a lot from you, more than you'd imagine I have. I loved all the occasions when we used to hang out, be it Jia Sarai, or even LSR 😊. I like it how we can be so honest with each other. I never understood why you had such a strong desire for privacy though. I hope you'll keep informing me whenever you change your phone number in the future. All the best for the life ahead!

Bro.... You are a good guy. Well you deserve a lot in your life. Those GPL's in first year, when Kunal was going to be banged and you tried to save, well that was friendship but tu b pit jata is chakkar mein.... Nd teri enthu for other's GPL used to be too high man. You always used to call me for doing the GPL. Sabki kyun maarna chahta tha tu itna.

- Anand Agrawal

The most sincere person I know. Aise to hamesha als, but if it's something you are passionate about, to bhai dum laga ke haisha. Wo tere room pe aakar ghar ki matri khana will always be a precious memory. And then our shared love for all things strictly veg especially the burgers (McD or Swiggy or BurgerKing). Have a fabulous year ahead here, phir to mulakat hoti rahegi. Keep Smiling 😊

- Swapnil Palash

Yo Bhavesh! 3 saal ke padosi! A very good friend. Thanks for the delicious khakharas and mathhis. Having those

snacks at your room was always a joy. And how selflessly you shared them!!

Anyways, all the best for your remaining IIT life. Work hard and ace the placements. Hopefully, we'll stay in touch

- Prateek Chaudhry

yo bhavesh !!...

You are the guy who could sleep anywhere , anytime , in any state haha

You have always tried to help me . You have always tried to cool me down whenever i got angry tune kafi fight roki hai bro And Ofcourse no doubt are the best CS player and also many other games (always above avg. in every game).

Had fun together while playing , while watching movies , going lecture having each others back in proxy.... and abhi to story baki hai mere dost

Thanks Bro!!...

- Mukesh Kumar

Hey roomie! I always admire how enthusiastically you watch dance competitions but almost never dance yourself! Our time together is surely to be remembered. I distinctly remember how we would lazily pass things without moving an inch, how we would argue about whose turn it is to fetch water and how you carried me to hospital the night I couldn't walk. But I hate how you keep a poker face and don't share yourself. I hated how you encoded your feelings in your proxy passwords but never shared with me. And beyond all I hate that I was not around much this last year, the one which was the most crucial. By the way, even though you never explicitly lectured me, but you were a moral compass for me.

I have one final favor to ask,

Keep your head high and keep smiling. And yes, milte rahio!

- Kunal Singhal

I think you are the most caring, helpful person we have in the whole IIT; kitni baar tune mujhe smjaaya hoooga ki kisi se faltu pange na le 😊, mein har baar teri sunta tha, bas fun mein apne aap rok nhi paata tha; Thanks for your trimmer (pehle 3 year ussi se nikle h IIT mein) and Hope apna ek din Box Cricket mein khelna ka sapna pura ho jaaye 😊, koi serial mein chota mota role dundle donne ke liye. Please accept the fact that i am better cricket than you, bs meine itna exploit nhi kiya is field mein IIT aake. I am really gonna miss our Criket bets (ptha nhi ab kider disappear ho gyi), passout hone se pehle 1-2 series ho jaaye.

PS : Best of Luck for the Placement, apni sis ki trh tu bhi macha diyo;

- Vijender

You are a silent, trustworthy guy. I may not be your best friend but I still feel that you will definitely be there when I need you the most and thats what sets you apart. Hope we have great time in future.

- Abhishek Goel

The laziest guy in our hostel and the one who can sleep anytime. Your reply to most to the things is just 'Chodd yaar!!!'. Also, the best CS player amongst us.

I still remember your inter-hostel debut where you single handedly won the match for us and your 'f*** off' incident in the same match. Best bowler of Satpura in our time.

All the best for your future!!!

- Abhijeet Joshi

Babesh,chill guy.You are the one who is always there to help in need.Chhutti se aane ke baad tere room pe namkeen khane jarur aana padta tha! One best thing about you is you are very kind, helpfull and honest hearted person...Best luck for your future bro..

- Akash Kailas Baviskar

You are the most caring guy i have met. You always try to keep everyone calm and stop our silly fights. and yet the

Best Memories in IITD ?

Each and every moment of IIT is worth remembering but there are a few which are unforgettable. Awesome birthday treats with neel gang and long random bakaiti after that. Late night birthday parties at FX. And How can I forget those GPLs. Ever lasting counter strike sessions in hostel with Gangwar. The day I got my internship. Enjoying long discussions on cricket with civil junta (Ohhh they turn very intense sometimes) and countless other memories that I will cherish for life.

Things you regret not doing ?

I should have spent more time with friends and should have had even more fun. I could have been a little less concerned for grades and tried out new things perhaps in sports

Biggest Change Since First Year ?

I turned from an introvert nerd from a small town to more confident fun loving guy who is now bold enough to make tough decisions.

Best thing you learn from here ?

No doubt I learned a lot in Computer Science, but the best things that I learned from IIT life are the ones that are apart from academics like time management, communication skills, ability to work long hours, managing multiple deadlines etc.

What Next ?

Samsung Korea for now. Haven't decided on anything in the long term

Best Buddys ?

Veeru, Divyansh, Abhishek Verma, Shivam, Prateek, Ritesh, Abhinav, Tajveer, Anshul, Neel Kamal, Gangwar and a lot more

Kutteyaan, you never forget your wingies. Boht machai hai apan ne hostel mein, woh gappein aur arbit logon pe nishane lagana, Ek dusre ki udana. Ye sab yaadgar lamhe hain jo hamesha humare saath rahenge.

- Ishaan Batta

Hey Bhavya, 'Tumara To Phir Bhi Thik Hain' - I think probably, I am the first one to hear these wise words(after 2 days coming to IITD) 😊.

Jokes aside, I think you are a great person to work with. You are always willing to go an extra step. Thank You for helping me in numerous assignments and homework. I will always remember those late night gaming sessions with

you and Gangwar.

Best of luck for Samsung Korea. Don't worry we will be in touch, thanks to your FB page (Bhavna ko Samjo) 😊

- Divyansh Singh

Hey there, it was great having you by my side through these years. I have really enjoyed your company , especially those pretentious 'thmhara toh fir v tik h' mannerisms 😊 . Have a great journey ahead. Keep in touch 😊

P.S.- MTL me chaugi panji ki tension mat le. Bhai, tu mal ka STUDDH h. And yep, try ketchup with jam sometime 😊

- Neel Kamal

Bhavya! Tum na hote to for the department by the department jokes almost non existent hi hote. It's surprising how you can snatch dassis in the toughest of courses yet draw the most absurd of logical conclusions. You are like a mini reverse Sherlock in that aspect 😊

Working with you together on assignments and CSP was fun. Discrete Math ki assignments mein to mehfil hi jama dete the tum 😊 I still remember how happy you were when you were selected for the Samsung internship. Do ghoonth madira mein hi talli ho gaye the tum 😊 I hope aage bhi aise hi high on life raho tum. Have fun in Korea!

- Abhay Mitra

Oye chote! Tune to bahut hi foda hai 4 saal. Even before the allotment of AML100, tujhe uski tension thi. This is an epitome of how much of a 'moagoda' you are. But surprising, you are fun too. I really appreciate how well you took all the leg pulling and finally ended up in Korea. Now you will finally get your CG frozen forever, no more tension (regarding that at least). Wish you good luck for your world domination plan. Cheers!

- Parul Jain

I feel fortunate to spend so much time with you working on assignments and hanging out. You always took all the jokes we made on you in stride and laughed along with us. I really admire you for this. 😊 You are an extremely focused and a chill person at the same time. All my wishes are with you, more so as you are going to a dangerous country. 😊

- Abhishek Verma

"Tumhaara to fir bhi theek h abhi intern nahi lagi, kam se kam coding preparation kar sakte ho..meri to pehli company mein hi intern lag gyi ab to mein practice hi nahi kar paunga "

Aise kaun bolta h yaar 😊 tun waise kuch jyada hi bhola h but marks bhadwaane mein bahut tez h 😊

And I was envious of your friendship with Dilip Ganguly 😊

Keep your page updated 😊 and All the very best for Korea! 😊

Bhavana studaap se humari mulaakaat 5th sem mein hui thi, but felt like as if we were childhood friends. You've always been there, whether I needed to talk to someone or having fun. Sir, aapka magodpana to famous hai hi, but still you've been humble, helping out people. Akele movie dekh ke aana toh koi aapse sikhe. Aapke kisse humesha famous rahenge through the Bhavana page!

I will miss you surely or maybe your 'JOCKING' accent 😊 ! All the best to you in your future endeavors and KOREA ko dominate kar ke aana.

- Ritesh Baldva

Bhavya, tumhari baatein to yaar hamesha hi yaad rahegi, 'Tumhara to fir bhi theek h...'. You are such a nice person, frank, helpful. It was awesome doing assignments with you. All the best for your life at Samsung Korea, khub maze karna.

- Aastha Tripathi

Bhavna, tere dialogues ki to baat hi alag h. Tumahara to phir bhi theek h ...tumahre to 16 number h.. last exams se 1 mark ka improvement to hua, mere to 18 ke 18 hi h Koi progress nhi h 😊 😊 . I have watched my first horror movie in theater with you....awesome experience it was. I will always remember time spent with u.

- Veerendra Singh

Masti ke time pe masti aur kaam ke time pe kaam.. You always heed to my fundae sooner or later 😊 .. Yaar tere (page ke) liye maine poem likhi thi.. Korea jaa ke sab ko padhana (I know that you secretly publicised your page there).. I hope you achieve your target of 'World Domination' 😊

- Tajveer Singh Sandhu

You are one of my closest friends in IIT. We teamed up for the first time in Graphics and you were always concerned about the quality of assignment of Baldva and a M.Tech guy. I liked your spirit to give your best . We did together , I would term the most important project , the internship project and it was fun doing it with you. The fun we did in Korea, going clubs, beaches, everland and what not ,were awesome. Your company has always been enjoyable. You have always been the person who could be relied upon. Abhi toh bahut bacha hai machane ko, milte hain Korea mein.

- Shivam Garg

Someone who is very easy to talk to. The way you take the jokes fired on you is incredible. The way you get tensed up for grades, even in the 8th semester, and the way you fight for that extra half mark, is astonishing.
You are a very nice person. Hope you have an amazing career ahead!

- Prateek Chaudhry

Respected Bade-Log/Bhavana,
It has been great knowing you. The memories mostly consists of the innumerable times we have "Jawke" around.
Best of luck for future.
See you in "Kawrea" 😊 .

- Abhinav Deep Singh

I was really stunned by the way you fight for marks. My God, I've never seen anyone fight and bargain like that.
Thanks for making me feel fortunate that I'm not a TA of any course of yours 😊 Jokes aside: Thanks for teaching me many tricks in terminal, git, etc. during AI assignment. I even enjoyed many of our random chats!

Yo satti. You were very shy in your first year but now you are shameless. Guess IIT will change people 😊. You are the one of the few people I could really count on. You are a great friend. I hope you achieve your dreams and rock the world 😊. You are smart and you think differently making people think you are mad. The speed at which you jump from one topic to another makes people wonder that you have no connections in your brain and everything is unrelated. You are definitely very creative. Great Friend. Did so many assignments with you (as partners and accomplices) that it became a primed reaction.

Best Memories in IITD ?

--

Devd, the proxy squisher of the whole wing. You are very dedicated to studies. Itna mat mago. Enjoy your life. I wish i have your motivation to do work.

- Rayala Bharadwaj

You were amongst my earliest friends. You are brilliant, always inquisitive and have an awesome knack for solving problems. We have teamed up in many different occasions and you have always led the way. We got off the wrong foot in first year and i feel sorry about it (knowing how i was in first year 😊). Anyway that aside, i always thought that you were a big maggu, but lately realized that its not so much of a case 😊. Wish you all the best for your future and hope you rock at Microsoft 😊

- Nishant Kumar

You were my first friend in Jwala. I always respected your enthusiasm to learn new things. You are always inquisitive. I had good time doing CSP with you. Thanks a lot for your help during the HWs of ADA. Have a great life at Microsoft.

- Shubhankar Suman Singh

You have been one of the earliest friends I made in IIT maybe since first semester.I have always admired your thirst for learning and excelling at the task provided to you. It has been a wonderful experience teaming up with you in various coding competitions and course work. Good Luck for Microsoft.

- Shivam Garg

You are amongst the smartest persons at IIT! How quickly you became stud at coding baffled everyone. Surely, you have a great future ahead.

Walking towards hostel with you, stopping by the juice corner to have juice, doing the compiler's project and the CSP projects, discussing coding problems, team coding with you and Shivam are some of the many memories which will last forever.

All the best!

- Prateek Chaudhry

A bit shy, but very nice person. It has been great knowing you. Best of Luck for future. 😊

- Abhinav Deep Singh

A very enthusiastic person who always wants to learn new things. I hope you retain this enthusiasm for the rest of your life.

We were room-mates for 2 years during which you were very helpful to me in courses as well as other daily life things. You have a good understanding of me and so do I.

Wishing you a great life ahead.

- Abhishek

Hey Farji Admi,

I should start talking with respect, to a great inventor. The Inventor of word "Farji"
you should know, that i m very big fan of your invention. 10% of the words, i speak, are "Farji"

Everyday, I am forced to carry about twice the water I need in lab because I know that you'll always be there to finish it. Of course, I could never refuse water to you because you were such a good friend of mine. I really enjoyed our conversations (especially the wonderful mathematical paradoxes). I'll miss you "bubble boy". Have a great time at Microsoft!

Dadda :(

Best Memories in IITD ?

Oh! Where to start there are many.

Pulling an awesome RJ Naved prank on Rajat Pachauri

Late night discussions with my hostel buddies

the day I got my job offer

college trips

Things you regret not doing ?

First of all, not having a girlfriend. 😊

I regret not participating much in extra-curricular and sports activities in IIT Delhi. At IITD, I only participated only in Robotics club and eDC. Now I look back and think, I should have given more time in participating different clubs and sports.

Bigest Change Since First Year ?

Less of an introvert, More optimistic

Best thing you learn from here ?

How to clear exams just by studying one day.

How to give demos when you didn't do anything

But the best thing I learnt after coming to IITD is "Nothing is impossible", if you put your heart and soul than anything can be achieved.

What Next ?

Microsoft for Now, No long term plans.

Best Buddys ?

Veerendra, Bhavya, Abhishek, Rajat, Sumit, Abhay, Sarvesh, Shikhar

Dadda! Yaar I really miss your "sharp" U-turns when you would leave the rest of us so far behind that you had to turn around and come back 😊. Your soulful bashing of almost everyone under the sun is great fun as well. I just hope you don't do that to me very often 😊

Jokes apart, I really admire your can do attitude and your ability to learn quickly. Not many here can put their ego aside and ask people for advice or feedback. I think that makes you a great person to work with. It's surprising how

efficiently we were able to do our CSP project together. I've seen you mature considerably over the years, and you are now a calmer and a more thoughtful person than four years ago. All the best for the future bro. Let's stay in touch. (I'm eager to see how well you fare as a real dadda 😊)

- Abhay Mitra

You are a fun loving person. I really enjoyed my job semester with you. I am really going to miss all the fun that we make of TAs, profs, things, situations, in short everything. Hope that you make all the right decisions for yourself in life.

- Abhishek Verma

Dadda(Best Roommate), you were my permanent roommate😊 and my permanent teammate in every project throughout the 4 years. Assignments and projects ki kabhi tension hi nhi li....apne aap hi complete ho jate the 😋. Sarkari naukri and private naukari ke saare discussions yaad rahenge ..😊 . I will cherish all the memories with you throughout my life.

- Veerendra Singh

Divyansh (aka Dadda), It's been so long since we have been calling you 'Dadda', I don't even remember how you got that name. I'll always remember those long hours we used to spend in nilgiri for assignments and projects and gaming sessions after that along with Veeru. I admire your great sense of humor, particularly in insult comedy 😊. One can never feel down with you pulling legs all the time. Hope you have a great time at Microsoft. Stay in touch.

Durgesh

Yo Durgesh,

Remember the way you and Atul scared me during the first year by doing Tic Tac Toe and Sudoku when I was facing difficulties doing the assignments given. You're the best coder I've ever seen. More than being best coder, helping us coding makes you the best person. The way you love coding, the way you lied that you didn't GSoC even though you got it (don't know why you lied). When you lied you didn't get GSoC, I was thinking Google is not lucky enough to have you. Hope Notice have more users and you contribute more to open-source community. ALL THE BEST

- Budumuru Satya Kishore

i have huge respect for ur passion ,dedication and that never ending urge to do something different. Yess !! u r antique piece among us.

Tu boht help krta hai hm sbki , wo bhi bina irriate huye , its something i like abt u. Ur simplicity n groundness always amazes me.

Teri kitni bhi bja lo..tu hnsta rhta hai 😊 jo mujhe or inspire krta hai teri lene me 😊 ... Bs terse 1 request/advice hai..coding ke alawa life me kuch or bhi try kar... tujhe lgta hai ki tu kam nahi krega to it is time wastage, but esa nahi hai. U will xplore ur self, u will create memories to rembr lifelong and have relations to cherish lifetime.

- Rajat Thakur

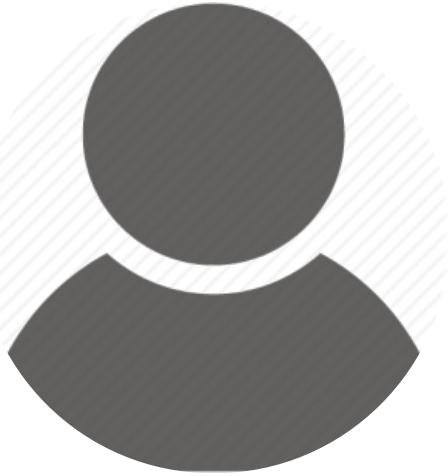

My first roomie!! Nothing has changed between us since day one although you and me have changed a lot. All your arrogance and slang comes bundled with innocence and honesty which makes it palatable and want more. You are the stud debugger of our batch and I have learned some effective debugging ideas from you. Best of luck for your startup, future and keep your enthu up for open source contribution.

- Atul Shree

Doctor, jab mjhe kisi assignment hone ki ummeed nahi lagti I always search for you. First year me kitni help ki yr tune hum assignment to tera copy krte hi the upr se demo k 1 ghante phle bhi tujhse puch ne aate the kya Likha he code me. Tu kitni bhi galiyaan dele but you are very innocent and honest person. I really wish k tu apne hukke k chakraview se free hojaoe.

Edubilli Avinash

Edubulli Avinash. There is passion when you play chess. The hours you spend playing!! No one can do that. You and Satti are the best roomies I've ever seen. I wish you will able to channel that tremendous passion and drive into the right directions. The logic behind your arguments makes sense, but I don't want to hear it. Again, a satti trait. 😊

All the very best with everything you try out. Be crazy as always.

- B Deepak

Addiction to Alcohol is okay. Addiction to Weed is okay. But Addiction to Chess is your thing and probably you're the first to get addicted to chess. The change happened during our 2nd year and guilt I feel when I think I should have made you go to classes during 2nd year etc., Roomie bro. Hope you'll be a very very good position that you deserve for your talent. 😊 All the Best Roomie bro.

- Budumuru Satya Kishore

Extremely passionate. I have seen your passion for VR1, chess, carrom and now poker! I love how you try to internalize the science behind everything. You don't care if you win or lose. I know how stupidly you got your degree extended. I know why you did it. It's still stupid. But I also know that you don't regret it one bit. Sometimes you let your pride come in your way but your pursuit of essence is very inspiring. Keep surprising us with your crazy stories. It's been an honor to have known you. Truly.

- Kunal Singhal

The Guy with his own funde which only he can understand. I wonder what he will be like when he is drunk already behaves like a drunk guy.... anyway bro had fun with you being around . the online fund ordering buddy 😊

....

You are the talented person , all you need is to serious

Keep the smile buddy !!...

- Mukesh Kumar

This guy is always high. You can never have a debate with this guy as he will give so many random arguements to support his claim. A BaddyCourt cricket star, Chess champion and Poker crazy. I love the way you chill out even more during the exams. I will never forget the tale where you withdrew from PL because you were getting only a 6, and you did it next year and got a 4.

Teri kuch baate toh kabhi bhul nhi sakte

- Akash Kailas Baviskar

You have touched almost everything one can do at IIT. You are one of the highly talented guys I have met. But, focus your talents on your passion and don't get deviated too much from it. We had lots of fun during our first two years playing all kinds of sports. All the best for your future mama !! Keep in touch and never hesitate to ask for any kind of help.

- Kothinti Trivikrama Reddy

Hey Avinash, the only one guy who took care of me when I needed the most... After first semester my mind was completely filled with questions like Is CS correct for me?? Why did I choose CS?? Its because of your motivation dude I continued to be in CS... You used to make sure that I completed my assignments, get involved in the course... Thanks mama 😊

I believe you are highly talented but you use it completely to become a PRO in chess... koncham courses paina kuda concentrate chey ra... All the best for your future buddy... 😊

- M Samheeth Mathur Goud

Ed you are only one of your kind, you are a different species man. Koi jhel nahi sakta tujhe. But one thing that is cool in you is koi bhi chiz kitni bhi haggi ho but if you love to do it you will do it. you have an explanation for everything you do. All the best for your future! and also wo 'bat' wale din I knew k tujhe nahi lagegi bas tjhe darane k liye pheka tha 😊.

GOT character - Ramsay bolton, The way you torture vijender 😊. All the best for your future Ed!

I don't know how you do that. Your internship with me and the HUGE amount of work you did 😊 is something which I will always remember.

- Arpit Singh

I got to know you better only in summers after second year, and that's when I realized how good a coder you are, probably the best in batch after Kunal. I remember doing Programming Languages assignments with you and giving internship tests. You're a hardworking guy and fun to hang around with. All the best for UPSC!

- Rohit Pruthi

Among all the persons at IIT I enjoyed talking to you the most. You have the best sense of humour of all the persons I have met at IIT.

I have had many good moments with you where we shared our views regarding various things around us. You gave me the best advice regarding competitive coding.

Thank you for that and best of luck for your UPSC preparation. I hope and wish that you succeed.

- Abhishek

Hey "Gang War",

I guess, you are the second person, i started talking with(without fighting), toward the end of 1st semester, other than my mentor.

I used to tell you about my hostel story, that everybody hate me in hostel. once, when I was victim of kambal pitai. I never realize, how did everything changed so rapidly. people around started becoming friend. & as of now there is nobody in my hostel, who hates me.

ATB for your future, I'm waiting to see you as IAS 😊

- Mohit

You have the most awesome sense of humor i have ever seen. You can make even the most tensed and frustrating situations turn around into a joke, which makes working with you so difficult at times 😊. Wish you all the best for your career ahead 😊

I have a love-hate relationship with you. You have always amazed with cool stuff from internet - showing me jaw-dropping game trailers and useful sites. Your love for books is unbelievable - I wish I had that. Your literary skills are great too - Top Writer on Quora, book review blog. Oh and your obsession for gaming - I don't envy that . How do you play so much DOTA! And why did you have to disturb the global peace by hooking the wing people on DOTA! But still you introduced me to some great games - Far Cry, Batman- so I guess that's fine . Sometimes , I would be baffled by your laziness. I wish you went out with us more often. I will fondly remember our chats about football/DOTA/books where one of us did not have any idea about it but still super-interested. A huge(literally and figuratively) advocate of Python, chill, scarily intelligent and funny - I liked your spontaneous lame jokes. Thanks for always being around.

- Ashutosh

Well Hooda, I guess I should thank you for coining my nickname "Deep" here at IITD. 😊 I admire that you are very straight-forward and direct. It is quite a great quality. Everytime I enter your room, I only see you playing some or the other game. That's some dedication in chilling out. 😊

Anyways, best of luck for your future!

- Abhinav Deep Singh

Honey, it was fun spending the four years near your vicinity. You were peculiar to me as I was to you. I have never seen a person more contented and more clear in his mind. I really wish you make something interesting out of your hobby.

- Akshay Suresh Bhat

Hooda.. Honestly, you are the laziest person I know. But also you are really persistent and achieve your goals once you set your mind to it. I wonder how many games you completed in these years at college. I remember you once completed a 100 hour game in just one week. Bhai kaise koi itna khel sakta hai!! Now you are the DOTA guy, and you have "created" so many DOTA addicts in our wing 😊. You have read so much. And you write like a pro. (Quora Top-writer _/_). When it comes to acads and coding, you are very efficient (marks/mehnat maximization 😊). But it's quite difficult to push you to do these things. Teaming up with you for an assignment/project was always fun. We did so much "jugaad" to complete whatever we did together. One semester, when I was sick, and we were doing EEP, you went to the lab and completed all the experiments in one day 😃. And remember BTP? How we managed to pass that course! I will miss your little treats and ways of celebrating. Your "life ke fundae" are so smart and clear and I have learnt so much from you. You are also our creative genius, coming up with silly-funny ideas every now and then, giving witty replies to any question. You are a big introvert (for people who don't know you). I wonder how you are going to socialize at Flipkart. But I know things are gonna work out just fine because you are so awesome, smart, intelligent, funny, helpful,

You will be great at whatever you do. All the very best for your future buddy. 😊

Best Memories in IITD ?

Mid-night walks in the campus, GCL - Assignments kum bakaiti , WindT meetings after birthdays,assignments , Long breaks at nesC while exams preparation, Sudden plans of eating at different places, Pizza parties, Watching horror movies with Aastha, and many more such memories that are gonna last with me forever. Thank you IITD for all these beautiful memories.

Things you regret not doing ?

Not taking a trip (to anywhere) with college friends.

Bigest Change Since First Year ?

From an introvert, serious, less-friendly girl to much more friendly, fun and adventure loving girl - It was a beautiful journey.

Best thing you learn from here ?

Everyday at IITD was a test. Somedays you pass and somedays you learn. The best thing it has taught is how to tackle new challenges.

What Next ?

UPSC maybe 😊

Best Buddys ?

Aastha, Rohit and my GCL buddies Abhishek Verma, Ishaan, Bhavya, Shivam, Abhay, Bawa, Abhinav, Tajveer, Ritesh and many more... 😊

I was very impressed by your work ethic the first (and the last?) time we paired for AI assignment. Seeing how reserved you were (and I was 😊) in the first year (we connected on facebook only at the end of first year) I couldn't have known that you'd become fun to hang out with. The first interaction I remember was the time when I was post-facto added to the Voldemort group (and still don't have a clue as to who the true Voldemort is, after having seen that horrible video dozens of times) and when we hung out in the summer of 2014 watching movies in GCL.

Wish you all the best for UPSC! (Kabhi Afsar Bitiya dekha hai? 😊) I wonder what will happen of your gossip self after that.

"Successful people are do not rely on their gifts. They just work hard, and then succeed on purpose."

Gupta, knowing an intense person like you was a unique part of my IIT life, which I had never encountered before. The intensity with which you work on things will carry you a lot forward. Hope the best for you.

- Ishaan Batta

My first interaction with you was very comical indeed - remember that incident in the second semester when you guys were playing mafia at WindT? 😊 Khushboo, you are a very sweet and hard-working person. I am sure your UPSC aspirations will come through, and that you will do some great stuff for everybody around you. All the very best for this, and for everything else that comes your way!

- Sahil Loomba

U r a responsible person. I wish I had grouped with u in some assignment or project but you were always occupied, It was nice to discuss with u things when we did our labs and tuts and mel workshops together, fight bhut machati h tu , chill raha kar thoda. Best of luck for ur future.

- Saurabh Nakra

Jitni gupshup karani ho karalo madam se 😊 !! Graphics mein mile the, and then all the gcl discussions, even finding out a Prof's marriage candidates, its been a joy ride knowing you. Finally next sem ASL karunga, tumse inspire hoke 😊 !! All the best for your future !!

- Ritesh Baldva

We have been course partners on so many occasions - EEL lab, CSP, Code Fun Do (not exactly a course but anyway), DBMS project, Cloud, Independent Study and now MTP too, and despite the fact that I hate working in morning and hate to travel to institute area, you will still always be my first preference for any course partner. Somehow you always manage to bring out the best in me. You are very sincere and hardworking girl, and at the same time a really fun girl to hang around with. I really appreciate your patience and often wonder how you're able to tolerate me so much. I will always remember attending both Informals and House Day in first year, even remember that stupid moment when I was too shy to ask you for a pass that I messaged you on Facebook even though we were sitting in the same lab, working on CSP project late night, the electrical lab with such awesome vivas, and working on the project together this semester and often eating outside on several occasions with you and Aastha. You'll have to do a lot of hard work for UPSC and I know you will. I might even do most of the MTP work once you start your UPSC preparations. Even though you'll be a really busy person in the future, do stay in touch. All the best for your future!

- Rohit Pruthi

You are a really genuine person. All the episodes were epic with you- remember the Shakya episode 😊, rdl episodes and our favourite- the "Khuspus" episode 😊 😊 😊. On a serious note all the best for your future.

- Abhishek Verma

Khushboo, you are my bestest friend. Tere saath har moment yaadgaar h, wo naya naya khana try karna, ghumne jana, movies dekhna, minors majors ke liye padhna, khub gappe marna, discussion karna, long walk pe jana, Oh god har cheez me itna maza kiya h na maine I cant tell you. You made everything so easy chahe wo SURA ho ya koi assignment ya aur kuch bhi, you are the best groupmate. Apne khud ki placement ki bhi zyada chinta ni hoti thi, pata tha tu h na karne ke liye 😊. Not only fun, maine bahut kuch seekha h tere se, you are so hardworking, giving always your best to everything, motivated, determined, words kam pad jayenge.

It was so much fun with you here, I am really gonna miss all that. Itni aadat lag gayi h teri, pata ni ab kaise manage hogta. I wish you all the very best for UPSC, mujhe pata h tu usme bhi phodegi, fir apan party karenge, kahin nai jagah khane chalenge 😊

At last, gaana to banta h 😊
Chote chote kuch palon ka

Yun hi tham se jaaye

Tu hai toh, I'll be alright.
Jo rote rote de hassa
Tu hi hai wahin
Jaane kyun dil jantha hai
Tu hai toh, I'll be alright

- Aastha Tripathi

Everyone knows that you are very hardworking and you put your 100% to anything that you do. I envy the friendship you have with Aastha. I remember you were more worried about her placements than she was. I am telling you, such cases of true friendship are hard to find. I hope you do really well in UPSC like you always do in every other area 😊

You've always been a Buddha like personality to me. The way you handle everyone is just awesome. First year lone, you managed Satti and that's not something everyone can do. I will always value your Calmness, helpfulness, passion towards Games (both coding and playing).

I remember the first time, we'd met in Satti's room. You told me that you've Assassin's Creed III, and I'd borrowed it from you. Satpura, in a whole is very close to me bey. I loved the Satpura House day video. Dengii, dance chestaru gaa andaru!! I will never forget our DIA partnership. We managed to sail it through, fairly good. The drive you've towards coding can be seen when you take up assignments. 😊

All the best for your bright future! Satti ni konchem chusko bey. I know you will. Bye dude. 😊

- B Deepak

Your room has always been our favorite place for time-pass. Happy Birthday BTW. 😊

Infinite patience, infinite love for food, sleep and GODofML, MLinSML and so on. Always high, but not because of substances. Not a farewell yet. One summer at Philips and at least 1 more year of annoyance 😊 .

- Budumuru Satya Kishore

Yo Sai, When are we starting 'Shitty Designs'? 😊

Before the intern, I barely knew you. But I could guess that you were a guy with a high sanctity and you did turn out to be one. You know what, when I get to be with someone like you, I simply wish that I could also have had such a calm lifestyle full of sanctified values.

- Ishaan Batta

Bayya!

Ur room has always been my fav place for time-pass and fr a few others like Hobbit and Core.

U actually taught me very subtle and important things in life(Not really sure if u know this fr urself).

The moment ur name comes to my mind, I can actually just associate these two things: Ur infinite love for food and sleep.

Keep smiling forever and all the very best for ur future, Mr. Coder!

Well, u already noe this: I'm always just a call away.....

- Mohammad Hafeezul Rahman

The guy with an advice for anything. Life would have very difficult without him. Thanks for being there for me all the time. Wouldn't trade your friendship for anything.

One more thing, he is naturally high, to make true sense of his words, you should get high too.

And dont worry, there is a girl for you who will make all your dreams come true... 😊

Best Memories in IITD ?

Football, Cricket, FIFA, One night Assignments ... All of these with FRIENDS.

Things you regret not doing ?

One of the things is NOT reading many books during these 4 years.

Bigest Change Since First Year ?

Have gained some weight 😊

Best thing you learn from here ?

Nothing is impossible, Just start doing it !

What Next ?

Startup - iBgroup

Best Buddys ?

It will be a big list. To make it 5 - Maneesh, Puppy, Bharadwaj, Saket, Ban. I have spent lots of time with these guys.

From VR1 to iBGroup, there's passion. The passion and determination you have, OMG. Oh, I forgot courage. The courage to reject a PPO amounting up to a crore, to pursue your passion. The courage to start an assignment after the deadline and still manage to score big. #THUG. Dude, how do you manage to concentrate and code so fast? Without bugs?

Looking at you, I'm always inspired. You're way more matured, and I knew this the first day I met you as Akhil's friend. 😊

Hope, IBGroup's a huge success. I'm glad I have a friend like you. Keep in touch, bruh!! 😊

- B Deepak

Trivikram Reddy, TV, ThugVii....

How can you manage to do assignments in 1 hr? The decision you took leaving Samsung to start a Startup. Hope one day your startup will be bigger than Samsung. Hopefully your startup will be the biggest startup coded in less than One Hour.

- Budumuru Satya Kishore

Trivikrama Reddy.. for a guy like me who can't pronounce his R's, your name is a huge challenge. You are my sharma ji ka beta (as we are from the same town) . You are one of the few people who achieves so much and doesn't even show it and also you are someone who laughs every time I crack a joke(be it good or bad). Even if we don't stay in touch for days, we easily get-along every time we meet . You are pursuing what you are interested in and that's something in you I will always look up to. I like the feeling of finding it difficult to say goodbye to someone because it only means that I have found a friend . Farewell, Brother!! 😊 .

- Marugadi Sumanth Reddy

We never really talked in first year even though we were in the same cycle. It is just super fun to geek out with you! And the endless hours we have spent playing FIFA! It takes some guts to reject a PPO worth close to a crore, especially to joining a startup instead. Everybody says don't chase after money, but you actually didn't and for that I respect you immensely. Even though you'll be in Hyderabad, I hope we'll keep seeing each other. And FIFA is always there!

- Saket Mehta

You are the one of the most amazing and distinct people i have met. An amazing problem solving skill (will always cherish the MSR problem only you were able to solve and that also in under 5 min and the fact that our whole btp hangs around an idea you came up with 😊), an awesome calm attitude and taking on life as it comes - these qualities truly set you apart. Although we had very close rooms in our first 3 years, but we didn't interact much and that is something i will regret. I got to know you more closely during our project together. Your positive and optimistic attitude inspires me a lot. I remember you describing so many great ideas on how you live life during our visit to the slum colony as part of hukka project. I was amazed to hear how positively you lived life. We have been through a lot in this project together and you being there gave me a sense that someone is there to save the day if i screw up, which i did so many times. Thanks for all the help. You are a very difficult person to win an argument over and this totally frustrated me at times 😊 But that aside, i have learned a lot of things from you. Your decision of chasing your dream and joining your startup is worth applauding. I hope we remain close for a long time to come. Keep in touch and all the best for your future and hope you make it big at iBGroup 😊

- Nishant Kumar

There are 3 kinds of CS students : 1) The Ones who start an assignment way before the deadline 2) Ones who start just before the deadline (a day or two) 3) And then there is TV.. the one who starts after the deadline 😊 (Remember last semester's paper reviews in advanced networks right ?) #thuglife #200percentnigga

Damn it feels good to be a gangsta !!

I will definitely miss our lame humor filled conversations !! High time you started a YouTube channel of your own featuring your THUG LIFE videos 😊

I have to say I'm privileged to have a friend like you !! All the best TV boy !! Stay in touch...

- B Sai Deep

The STUDGUY, dude you are only one i fear in telling if i do something crazy(As per the definitions of our people)... arey TV gadu em anukuntadoo... But seriously I respect the decisions you make... the level of maturity you have... When I came to know you rejected the PPO I was completely shocked... Hatsoff mama... The bond we have remained constant from the start of IIT till the end nothing more nothing less... You were always been my formal friend 😊

I always see you as a sincere, self motivated and confident guy who don't require anyone help in doing anything... and I really get impressed on seeing such traits... and I hope you will take the startup to the next level on some day and I can proudly show to my colleagues that you were one of my classmates... 😊

All the best mama... Keep calm as you always did and rock as you always did... 😊

- M Samheeth Mathur Goud

I am happy that you chose some startup over Samsung,SK. I think our ideas, minds match a lot. Had great time with you.

Not our farewell. Not so soon.

- Rayala Bharadwaj

You are an awesome person. Its fun hanging out with you. One gets to know a lot of things about lot of things from you. Your passion for the work and the things you like is also inspiring. Seeing you gobble down a bucket of chicken is funny in its own way. 😊 Man, life has a lot of good things for you upahead. 😊

- Mohit Agarwal

Its always fun hanging out with you because I always feel I learn something new everyday. 😊 We are always constantly discussing possibilities of the countless events and when we're not, that's when we are worried about exams or deadlines 😱 But i'm so glad that you're someone I could always call to go have some non vegetarian food with. I don't know what else I would have done. 😊

- Banmanlang Warr Lyndem

My roomie for two years and thanks for bearing my level of dirtiness - though its mutual 😊

One of the most difficult ones to win arguing over 😊

I'm happy for you for following your heart with the startup and sincerely hope you make it huge.

I hope we'll continue our little hate talks on Dhoni 😊

I'll miss our Barca - Real rivalry in the TV room, our Fifa matches and also hope there'll be some Yuvi fan for company for us 😊

- Akula Maneesh Satya Prakash

Football, FIFA and startup work- these 3 literally took up 90% of your time in the last year. (the other 10% are the BTP meetings by Nishant, of course 😊)

Have fun and Good luck with the start up.

- Valavalaasish Venkata Shyam Nikhil

Its been nice knowing you. Korea was a great experience with you. Still remember the Turkish restaurant we went to in Korea, COEX Mall, (and the waitress gave us the bill before the food) like it was last year. 😊 Best of luck for yours, and Cyber Eye's future. 😊

And Remember to take Vicks, whenever you have cough. 😊

Things you regret not doing ?

Not spending enough time with a lot of people.

Biggest Change Since First Year ?

Let's see I am still single, still the weird dressing style, the same sense of humor. My accent perhaps?

Best thing you learn from here ?

There are so many people in the world. They are all unique, cool and weird. One worthy pursuit is to try and know them all.

What Next ?

Atomicles! It's going to be huge! Sorry for the cheap publicity but checkout: www.atomicles.com

Best Buddys ?

This is a tough one. Bhavesh, Abhishek, Swapnil, Vijender, the SKBL gang, Abhay, Satwant, Baldva, Jindal.

Although we have not spent a lot of time together, but the time that we did spend was the best it could ever be. I hope you still remember the fun that we had in between the skyscrapers of New York. Keep on energising everyone around you with your cheerful face.

- Ishaan Batta

The most talented guy of our batch. I wonder what we would have done in written assignments if you were not to be there. You are one hell of a crazy person for not taking your FB job for continuing your startup. All the best in your future bro... 😊 😊

- Anand Agrawal

The humble extraordinaire. Your list of achievements never end just like the list of all the pending parties. You could be so lazy and enthusiastic at the same time. The one who is always ready to tag along with any plan ever made in the entire history of the universe itself. Over the years, I have learnt a lot of things from you and its been fun to be in all those random talks that started out of thin air, but made sense eventually. We shall hereby take a "broath" to

surely meet once a year. Make the next big thing happen with Atomicles. Peace out

- Swapnil Palash

Yo Rommie, you are the most genius guy i have ever met and i don't think in future also i'll meet someone as genius. you are also so much helpful that you never say no if somebody come to you for any help. MAL courses me tu nhi hota to pata nhi kya hota . you were always there for me (even in the exam halls). yaar aur meine tujhse jyada baar pani laya tha tu har baar mujhe mana leta tha (nice convincing). Aur vo LPs bhi akele nhi ho pate mujhse. Really I had a great time with you and couldn't have asked for more. All the Best with Atomicles and surely milta rahunga 😊

- Bhavesh Chouhan

While others here have exalted your extraordinary genius, I believe I'm one of the few people who have witnessed the limits of that genius. That in itself is of course not very interesting, but what most people don't know is how well you take feedback and criticism despite the baggage of all those awards and certificates. You might conjure shaky theories out of thin air on just about everything, but when it comes to discussions about things that matter, you are as professional in dealing with them as they come. Your ability to remain calm under the most stressful situations is something I aspire to someday learn.

The two of us are probably a pretty unlikely combination. We have different life philosophies, different principles and different opinions on how imminent an apocalyptic civil war is 😊 Just the fact that you don't like pizza and I've practically survived on it for a semester is enough to cause grave suspicion. Yet, I believe it's just this, along with our ability to resist our evangelical urge to convert the other, which makes us such great project partners, co-founders and friends. Finding people who think like you is hard, but I believe it is even harder to find someone who can disagree with you and still respect you. In my book, that's the quickest way to grow as a person (and you have a long way to go 😊).

I'm glad to have you as a friend and a co-founder, and I hope I don't have to stop saying that for a long time 😊

- Abhay Mitra

The person, jisko dekhkr mene code krna start kiya...

Extremely Stud guy!

- Mohit

Bro !!!

you are the most versatile person i have ever met . You have been active in every activity in college apart from studies. There is a lot of things that can be learnt from you . You are the most kindest person , always ready to help . Thanks for giving me funde , that helped a lot. I hope you continue giving me your ur helpful fundas. 😊
All the best for Atomicles!

Stay connected , i have to learn many things from you.

- Mukesh Kumar

Your brilliance, talents and dedication are quite unparalleled. What I think is even more remarkable, is that you aren't comfortable in that skin alone, and keep doing things which break standard boxes of what is "expected" of you, in all senses. A sort of pragmatic existentialist, if I may dare say that. And oh, your POVs in the TOTA class are always cool and extraordinary. All the best for all that you do, Kunal!

- Sahil Loomba

Hey! Your ability to pull fundas out of thin air is interesting but your logic behind doing it is what amazes me (I doubt you remember the explanation you gave me). I am among those few who actually got a chance to know you. You have always been there for me, no matter what. I am grateful for all the support you gave and all the trust you had in me. Thanks to my episodic memory, I remember all our talks and even though you would prefer I chuck most of it, I doubt if I can, or rather if I want to. I can imagine the long discussion that will follow this testimonial but for once, try not to question each and every point just because it happens to contradict your 'image'. I wish you good luck with Atomicles but more than that, I wish we can stay friends for life. 😊

- Parul Jain

I can tell you one thing for sure that I am going to miss you. I dont know why but the fact that you live in Delhi makes me believe that you will remain accessible somehow. We always found something to do together whether it was doing some random competitions or playing AOE, DOTA, blah blah. You have been one of the integral part of my life in IIT and the good thing is you also realize that. I think last semester is the one where we spent least time together(thanks to those mouse), maybe it was for the best.

- Abhishek Goel

Yo!!! You are definitely the most intelligent guy I have ever met. It seems as if you know everything, even without going to any classes. And still doing as much bakchodi as we do.

It takes a lot of courage to work for your start-up instead of going to Facebook, but you are the only one I know who has that courage and the ability to make it work.

First guy to come to if you need any fundae. Mostly they help, but sometimes they are simply arbitrary.

Waise tera "Yo" bahut bekar lagta tha mujhe, par ab aadat ho chuki hai.

Best of luck with Atomicles!

- Abhijeet Joshi

Bro you set a new level of studapa..you are truly genius..most important you are very nice hearted guy..always ready to help to your closed ones, this too sets you apart from others....Best luck for your future...

- Akash Kailas Baviskar

You looked like the most spoilt guy possible, but, later I realized that you're actually a nice guy at heart. Thanks a lot for all the advice you gave me! I still remember how you made a huge confusion in my mind by encouraging me to take AI & ML in my 6th semester. This course registration was the toughest I had. But, taking these courses helped me to decide my area, get my joint BTP and PhD admit from CMU! Thanks a lot!

I know that I have told this many times, but, I'll surely write an atomicle once I find time!

- Ritesh Noothigattu

Yo, genius guy of the Batch. I can still recall placement ke time you were the one who was most caring for me, Thanks for the Help in the Vedantu Assignment, agr tu uss din 6 bje na utta tha toh pkka 9 ke 9 interview miss kr dene the meine. I do not know if your decision of not accepting Facebook is right or not, But I think it is really a Brave decision and just show your dedication for Atomicles. I wish reunion tak it will be above Flipkart in ranking, funding or whatever 😊. Passout se pehle Poker mein kuch toofani krte h.

- Vijender

Easily the most intelligent guy of the batch. I had started hearing about you even before I appeared for JEE, and was kinda curious to know what kind of person you'd be. I remember constantly trying to push you for working for coding club, and doing CVL together (I still can't believe we got a satti in that course 😊). I'm actually glad that you declined the PPO of Facebook and didn't sit for placements for Atomicles. Who knows, maybe you'll be able to convince me to work for you from next semester. All the best for Atomicles!

- Rohit Pruthi

YO!, Aap purush hi nahi.. aap mahapurush ho. Aisa lagta he bachpan me mummy loriyan ki jagah naye algorithms sunati hongi tjhe. even then you are ready for all the crazy stuff. Jab b party k liye kisiko convince karwana ho we always search for you. All the best for atomicles! and one thing i am copying from Prateek's testimonial is that you will become the first Kunal Singhal.

GOT character - Robert Baratheon, if you remember his quote "I'm not trying to honor you. I'm trying to get you to run my kingdom while I eat, drink, and whore my way to an early grave". Smart Worker 😊

- Arvind Bhuriya

I have known you since FIITJEE times and have always been awestruck by the ease by which you learn stuff. I am damn sure, I would pointing at you one day, and proudly saying "You see that guy over there. I shared the classroom with him". It has always been great hearing your fundaes. Best of luck with Atomicles. 😊

- Vansh Pahwa

The guy with the funny accent, third sem mein itna hi pata tha xD. A truly brilliant guy, could hardly meet you during class, since you were never there. Coding , being CEO xD, Macking on chicks , laziness , DOTA , TV Series ke fundae dene ke liye humesha taiyaar xD. All the best for WF !! Surely miss you in the next sem 😊

- Ritesh Baldva

Yo! Kunal, you are the smartest guy I have met in IIT. I was always awestruck by your grasping capabilities. Your fundaes always gave me some food for thought , though sometimes I found them to be silly. Best of luck for atomicles.

- Shivam Garg

Yo Koonal! The laziest person who is also a good coder 😊 Machau level - PRO - Not attending a single class and getting highest marks.. This man knows his shit 😊

- Tajveer Singh Sandhu

Easily my most genius friend. Don't know how you developed this super power of learning anything so quickly, and in such great depths, that you make everyone else look like fools. Your most inspiring quality is the passion you have. Be it Maths, Computer Science in general, AoE, dota, startup, everything you ever do, the intensity in your pursuit is striking.

All the best for atomicles! May you become the next Mark Zuckerberg, or the next Jimmy Wales. Although I think you will become the first Kunal Singhal.

Dude!

Never have I seen a fellow enjoy life to the extent that u do. I consider myself really lucky to have found a friend like you here, at IITD. You were definitely very very helpful with a lot of my coding assignments and thnx a lot fr tht.

Hope u keep smiling the way u always do and we stay as besties forever.

All the very best for your future endeavors - Samsung and whatever next u have in mind after this.

Just remember this: I am always just a call away....

- Mohammad Hafeezul Rahman

You are one guy who never misses an opportunity to get clicked , exactly like me. Believe it or not, I have folder in my system named 'Sumanth and Samheeth Selfies' . I still remember those walks from insti to hostel we used to take everyday after class, chattering about one thing or the other. But as the semesters went by , our common classes got reduced and we drifted apart a bit. I learnt a whole new vocabulary and spellings from your messages on fb. You are the guy I come to during uncomfortable social situations and you also do the same (ardam kakapothe vadiley 😊). There are many things to say but I will leave it here. May you reach great heights in life 😊

- Marugadi Sumanth Reddy

Uhh, need to write a testimonial for u too? A roast would've been much better.

For the first two years the pictures that came to my mind of you are the 'same-shit'y leg side hits of yours.

But the day, Praveen went away I saw your true side. I've never thought there'd been an other one like me, who'd get so emotionally attached to people.

And then came the Birthday post on my wall, my opinion has completely changed. I've been lucky to have an awesome friend like you, where we fight from the outside which only bound us stronger.

Wanted to post something similar on your birthday, but hello idey chaala ekkua.

Believe me, want to write a lot more- we used to fight on this, You're right that I don't have the talent to write shit 😊
(But my presentations we lot better than yours 😊)

I don't think I'll have a mem of your good deeds, as I'm sure we'll not lose touch.

Now atleast buy some shirts other than the blue and black ones 😊

- Akula Maneesh Satya Prakash

Sam ! You're a true scumbag who can't even walk a few metres but rather prefer a rickshaw or bus (And you call yourself a fitness freak !!) So I wasn't at all surprised during the Nag Tibba Trek. Ila aithe lyt bro jeevitham 😊

BTW thanks a lot for integrating me into the Nil family and treating me like one of your own 😊 It really feels great from the inside to know that you're the one who enjoys my jokes the most. In fact, I have always been surprised by the fact that you never get offended how much ever I roast you. Will never forget our sittings @ Nil, be it for academics, Biryani Buzz or other reasons(You know what I mean). You gotta put your fetish for Biryani in check bro, or else you're gonna have a really bad time ahead 😊

Lucky you.. didn't have to face even one interview during your entire 4 years @ IITD, be it for internship or placement. Enjoy with ur gf in Bangalore and forget that I ever existed ... okay ??? 😊

- B Sai Deep

We can never forget those baseball shots you play in cricket !! We were in the same groups for all our classes from the first year and I regret not getting closer with you in all these years. Those lengthy testimonials you are writing shows how much you value your friendships. You are one of the organized guys among us. The first impression I had on you was that you were a reserved rich kid - may be because of that big Note 2 you were having and you were always busy with that. It has all changed after these four years and lets hope we can get more time to hangout during coming years. All the best for your career ahead and keep in touch !!

- Budumuru Satya Kishore

Hi first roomie!! I was skeptical about how life would be sharing a room with some stranger, but your friendly and carefree nature eased the transition. Also, you stayed out more often than not. A big thanks for that 😊 😋 I remember meeting you on your first birthday during orientation, when you gave Raghu and me a treat at FX. Hope, our paths cross again (waiting for the second treat 😊). Good luck and stay in touch...

- Neel Kamal

You are the greatest liar I have ever met. Your stories and the BS you create on the go are so convincing, people will never suspect you until they know the real you. You are very smart and people don't realize they are being convinced and manipulated unless they doubt you. You are the biggest conman of the batch. You have a charming personality which makes everyone like you (all the girls like you 😊). Your room is like the central perk of IITD. Once a guy steps into your room, he cannot leave until you show him some cool videos on your laptop , or until you have fed him some BS.I will really miss you. You are a girl trapped inside a man's body. You are a great friend. You are one of the few guys whom no one can hate. I always felt you are very lucky, but now I realize I was lucky being friends with you. All the best for your future, Pandi !!

- Tarun Kota

The guy who is mostly surrounded by girls whenever I have seen him (Vanya, Priyanka, Sowmya, Sucharita... who else? 😊) You are a super lazy and super bakchod guy - always looking out to crack funny jokes or sleep or watch movies. I didn't get to talk to you much through the years, but whenever I have, I have always been grinning about the jokes and one-liners you crack. Now it makes sense why people like your company. 😊 We are so much same in many regards - always trying to evade coding, and seeking some fun and adventure in everything. Keep up your good, shaitaan spirit.

- Aishwarya Rai

Rey Pandi .. Youngest of us all and its so easy to see that. I still remember when we were coming to IIT for the first time in train and you have not changed much from then, or at least in my perspective. All those selfies you take may add up to a TB soon 😊. You have lots of talent and just have faith in yourself. You will have a great career ahead !!

Best Memories in IITD ?

Night outs with buddies, Random gossips(about almost everything under the sun) with roomies.

Things you regret not doing ?

I cannot think of anything right now 😊

Bigest Change Since First Year ?

Learnt a lot from people around, showed me a different perspective of looking at life.

Best Buddys ?

Samheeth, Hobbit(Satya), Vignan, Core(Bhargav), Maneesh and actually many more....

What a guy! I'm seriously proud to have friend like you. From Sharma to Harvard, it has always been great how you've both shocked and inspired me at the same time. I've realized I'll never be able to figure out the secret sauce you put into your assignments, each of them. I'll never forget the moments from my first sutta feel to goram aina bhand, all of them possible because of you. Our combined moments with Satti will never be forgotten. You just love harassing him, don't you? 😊

The first I saw you was at IIT Madras, 8th class. The feeling I had was that of seeing a celebrity, 😊 I guess every Hyderabadi preparing for IIT will feel the same. You'll always be the first friend I'd approach for any guidance I'd need. You're funny, insightful, and always full of knowledge and fundas and the most important of all you do care for everyone around you. But, you like scolding and getting hot-headed at the first chance you get. Konchem taggichko bey, bayem estadi. 😊

You've always been a pro at everything for me. The bromance between you and satti is worth watching! I can never forget those petty fights. 😊

I'm pretty confident, next PhD at Stanford nuvv anii. Aina, best of luck bruh. Konchem gurtu petko ra mamalni.

- B Deepak

On one day in 6th sem, you said you got a intern in Max Planks

On one day in 8th sem, you said you got a intern in Harvard

Hoping to listen the words "Phd at MIT / Stanford(you-know-why 😊)" in 10th sem.

One should learn from you how to balance perfectly between acads, extra circular activities and social life. You owe

us infinite parties which we know will never get. 😊 All the best for your future.

- Budumuru Satya Kishore

Orey bandodaa... Seriously dude I really wonder how can one be so mature at this age... Assalu 1st sem lo rahman ante oka telugu vaadu ani telidu naku... you might not remember this, 2nd semester starting lo 1st time nen nitro bayatiki vacha... I guess Southern corner... Some one told me you are 10 pointer... I really felt so inferior to walk next to you on that day... And aa sem lone we had a EEL101 course where I used to get more marks than you and it is when you started talking to me 😊 and appat nundi really we had a great bond... assignments were the main reason that made us hang out a lot... Karol bhag lo biryani, GCL lo assignments, Night outs in BB, Chakki tho dinners, Wind T lo chill outs... there is also other kind of stuff we do... 😊

There are so many things to learn from you... but one thing nen chala impress ayindi enti ante... you never give up till the last minute... I used to wonder this guy never codes 😊 , he asks me most part of the assignment and i used to be very confident that I will be getting more marks in this assignment for sure... but BAM you got full out of full... How is this possible ?????

I don't know what is going on in your mind about your future.... but please if you become a professor don't torture the students... 😊 you might become one of the greatest persons achieving what ever you want... And I really hope our friendship gonna last like this forever... Thanks ra mottey for all the memories... 😊

Arey idhi chadivi endi veedu intha raasadu anukoku.... These things came to my mind with in a fraction of seconds when I thought of you... 😊

- M Samheeth Mathur Goud

Hate this guy. He is a camouflage expert in hiding his smartness. Beware of this guy , if you trust him you would end up in no man's land. The reason is he doesnt care. But if he does he will be the best of your friends. The guy with epic work and fun life balance. The only guy who got his shit together as far as I know.

Best Memories in IITD ?

How rapidly everybody in hostel & department changed to good people, within 4 year. They actually started loving me.

Things you regret not doing ?

Study on time...

Biggest Change Since First Year ?

Can dream impossibilities 😊

Best thing you learn from here ?

1. Loving People, not their qualities.

What Next ?

Never Decided !

Best Buddys ?

Best buddy: Me;

2nd best: Nitin, Nikhil, Rahul Patidar, Abhishek Arora, Rohan, Jyoti, Muskan, Rases;

Best Teacher: Raghuvansh;

Piddi, your energy and commitment level was at the peak when you were a fresher (and not an adult 😊) and it has only increased since then. Let me predict, you are going to do something great in life not just for others but also in terms of your own self-development.

- Ishaan Batta

I know that anything I write you will just deem it as another funda 😊 and start debating on it... So, my only wish for you is that you muster enough spirit in your innocent heart to convey your feelings to the love of your life ...

- Nitin Agarwal

Hello, Mohit

The one, i have attached with most in our batch, very hard working and helping guy. Alway listen to me very carefully and understood me when i were in depression and gave me funde.

"kriya kiya kya??group sadhna me kyu nahi aaya"

yr neend nahi khuli kl se pakka....

your dedication inspire me always. thanks for all your support and best wishes for your bright future.

- Ratanlal

Sweet, emotional, dedicated, passionate, fool. You keep astonishing me with your feats. Your frameworks, hacks, pranks! You are not afraid to cross limits when it comes to self exploration or sticking to your principles. I remember how you were wary of taking medicines even when you were down with dengue. Chill maar thoda aur. Take life one step at a time (no infinities 😊).

- Kunal Singhal

I know how difficult were the early days for you, but I also know that you were ready to deal with the problems. You have an amazing ability of dealing with any situation. Also, you are so helping. You will take anyone's problem as yours and try to solve it. These qualities have earned you so much respect and love. I would call you "mini Karna" 😊, "Karna" because of those epic qualities and "mini" you know why 😊.

Having said that all I think you should be more flexible when it comes to work in a team or any system. I am afraid the way you have screwed your degree. I hope things work well. Anyway, I know you will deal with whatever happens. All the best 😊

- Himanshu Gangwar

Mohit, filling this yearbook was such a great experience only because of you. I have never seen a guy more hard-working and helping. The way you learn things is truly inspiring. All the very best for your future 😊

- Khushboo Gupta

Chhota packet, bada dhamaaka.

The tiny elf-boy with his evergreen smile and quick footsteps, you are very helpful and kind, someone who has gone to many lengths to help me always. I will miss your "sharaafat ki advices", and I hope someday, the girl of your dreams finally sees how madly you are in love with her. 😊 I have needed you many a times, and you have never failed me buddy. Tere mood swings bhi bahot dekhe hein maine. And you are the one guy who makes me the most angry because of your extremely righteous and virtuous fundae in life. 😊 thodi chaalaki seekh ja, warna log tera fayda uthate rahenge. I hope you become a big man in future, with your startup and you garner courage to confess your love for your girl. 😊

- Aishwarya Rai

Man! I respect you. You are the most hardworking and dedicated guy I have ever met. Since the first semester you worked to get things sorted in your life and eventually, you did. Though you might have reached a certain level of satisfaction but I know, there are higher grounds waiting for you. Keep your spirits up! Good luck 😊

- Parul Jain

Haha, the youngest in our batch apparently !! You never give up !! From the computer that you built in MEL to all the sites you built, you never stopped working hard. Don't give up on these qualities. All the best for your future buddy !

- Ritesh Baldva

You are the live and the best example of "With hardwork and dedication one can achieve anything".

Thanks a lot for helping me in my financial crisis.

Explore the other aspects of life. You have exploited GCL more than enough (just kidding).

Tune bhut smjhaya ki pd le pd le but mene dhyan ni diya and here I am suffering now.

Any way keep doing what u do best - coding and helping guys like me 😊

Best wishes for ur brighter life ahead.

Keep Smiling

You are the most inspiring person Mohit. Sahi me, itna hard work to maine kahin ni dekha. Saari cheeze tune khud seekhi and har mushkil ko itne ache se handle kiya na. Chahe jitna kaam ho, tune kabhi kisi ko help ke liye na ni kaha. You are really very best. I wish you huge success in all your efforts 😊

- Aastha Tripathi

You have the highest efficiency when it comes to work output.. You have a unique perspective of looking at things.. It reminds me of the quote - 'Successful people don't do different things, they do things differently'.. Keep surprising people with your amazing skills.. JGD 😊

- Tajveer Singh Sandhu

Bhai, kaise karta hai itna. I wonder what will you miss more - hostel or GCL? Actually, I am pretty certain it will be GCL. Never seen someone like you in my life. You have the capacity to do anything you want, and more. Never lose your enthusiasm, and live life to its fullest. 😊

- Tushar Marda

Youngest of us all, If there is one person who has transformed for the better the most in these 4 years, it is you. I really admire your dedication and never ending passion. Never lose these qualities. Best of luck for your future. 😊

- Abhinav Deep Singh

You are one of the uniqueness person I've seen. You don't care about the IIT system whatsoever and do whatever work you like. You are really talented. I would just give you one advise: Please take your BTech degree from IIT before you leave!

- Ritesh Noothigattu

Of all the persons I know personally, you have the most unconventional but at the same time the strongest personality. I think you are a person who can cope up with any situation whatsoever.

Although whenever I talk to you, you irritate me with your non-sense logics, yet I have respect for you internally. May God fulfill all the unique dreams you have.

We first met to do graphics assignment and that established a lot between us 😊 . Happy to have a real friend in my life. When I first ate Litti Chokha together I came to knew that I'm not alone in campus who badly needs Litti for survival. Stop underestimating your intelligence and abilities because you have suffered many times because of this. Keep chilling out and have fun in life 😊 , sometime I will be there with you and sometime not.

PS: Sorry for W***It, I should had said no in first instance.

- Atul Shree

Moti bhauuuuu! Startup kholte h yaar... I have no idea how many times we have said that to each other without ever doing a single thing about it! And dude, I can't even fathom the amount of fun we have at your expense. Yet there's always something new just around the corner. Milte rahenge. Oh and btw, can't wait to dive into the DOTA world with you.

- Saket Mehta

I really laughed hard when Saket told me that your nickname is Moti. Have had some great time regarding that, all this time, even upto recently when I face-swapped you with a pomerian. 😊 😊 You are everyone's best friend. 😊 Do keep spreading joy. Best of luck for all your future endeavours dude.

Yo Moti ! You are amazingly talented person, but one who has not realized his own full potential 😊 . Jokes aside, i think you are capable of doing so much more, but never put in your 100%. We were roommates for a single year and during that time i got to know you more closely. I still remember the night before ADA major, when you were watching anime till i went to sleep and then pulled an all nighter (as far as i remember) for the exam. Your attitude of projecting yourself so confidently made me stumble so many times, thinking how can Moti have done this. Sometimes i thought, well why can't it be possible, maybe he has changed after all, but then soon after i realized that you are the same old person, fooling around me 😊 . Man, sometimes i thought how can someone live in isolation like you do - you can go in full isolation for days on with anime and night-mess and instant noodles 😊 . I hope you change yourself and leave this shell of yours, which you do cover yourself with at times. And do please do gain weight 😊 Wish you all the best for AppDynamics and hope you rock there 😊

- Nishant Kumar

Yo man !! Its always fun when you are around. I hope you didn't take many of those things people say to you seriously. But, just imagine who else would have taken all that 😊 . I hope you and Ban have lots of fun in Bangalore. Now that you will be out of IIT, just make sure you will never get into that cocoon of yours again. All the best man, for everything ahead in your life !!

- Kothinti Trivikrama Reddy

Since I'm going to be moving in with you in the fall, i think its best not to get too sentimental and risk the awkwardness that could entail us after. lol who am i kidding?? I just don't want you to have anything over me basically 😊

I do want to say this though. I can safely say the luckiest thing that happened to me during my time here was that you were the first person i encountered on campus and well the rest as they say is history. We always somehow managed to make things work semester after semester and i suppose we will still doing until the very end 😊 I assure you one more thing, that this isn't the end and there's plenty more to come from us. 😊

- Banmanlang Warr Lyndem

I have met you this sem only, par itni baatein ki h na. You are too chill person, and the person jiske saath mujhe arguement karne aur chidhane me bada maza aata h. I'll always remember your 'Kahani h yaar ...'. Instead of all this chill attitude, you are so much caring about your family, nice to know that. Aise hi rehna, and all the best for Appdynamics. Aur haan, khana wana kha liya kar yr 😊

Even though we have not been close friends, you were surely a great roommate of mine! We never had any issues or fights and you never complained regarding anything I did (even though I rarely stayed in room 😊). All the best for your future!

- Ritesh Noothigattu

Life at IIT started with 2 incredible roommates, i.e. you and Ritesh. We three had an incredible understanding with each other. Had a nice time listening to your stories of your basketball skills, your school life and all your adventures. Hope you lose your habit of getting angry at little things which don't matter.

All the best for your remaining life at IIT. Asha hai ki tumhari startup bahut badi bane. All the best!

My first roommate in IITD. I sincerely think that you are the one who kept me grounded in my first year when I got hit by countless freedom. Thank you for that and sorry for the fight 😊.

Biggest Change Since First Year ?

Oh, i don't even know where to start. I have changed so much in these 4 years, even i find it hard to believe. Maybe this will sum it up : from a chubby (yeah, if you think like that about me now, you didn't see me 4 years ago), little, reticent boy from a small place to a less introvert, more confident adult

Best thing you learn from here ?

Managing between multiple deadlines and expectations, Being more open, working hard, respect, knowledge. Everyone has a bad day once in a while. Learn to move on.

You are so hardworking and putting all the efforts in everything is something I admire the most in you. I still remember how we did those "farzi" compiler assignments (well I also contributed in the assignments 😊). I don't know if u remember but it was in the PHP110 lab we met for the first time and there only I got what an actual dedication means 😊. Also it looks like you are a little confused of what you should do in the future, so I hope things work well. Best of luck 😊

- Kothinti Trivikrama Reddy

Why always so serious, buddy? Don't worry, the way you work hard is inspiring. Anyways, I know you'll rock at MS !!

- Ritesh Baldva

I never expected that you would be a competitor of mine for "Maggu of the batch", but, you even won the competition. Congratulations ! I was even shocked to know that there is someone who could be as confused as me in making decisions 😊

But, I would give you just one advice: There is no benefit of being stressed and tensed. Worrying does not help anyone. Just happily give your best in each of your endeavor. You anyways cannot do better than your best! (Last statement can be proven by contradiction 😊)

- Ritesh Noothigattu

Maggu of the batch, there is more to life than sleep-study cycle 😊. I donot understand how people can be so hardworking and dedicated. Mere se na hopayega. Sorry to be the one to break it, but WWE is not real dude. Wake up.

- Rayala Bharadwaj

Bhai tere se jyada IIT mein maine kisi ko ghiste hue nahi dekha hai. Ek sal roomate reh ke pata chala tu kitna hardworking banda hai. Sare compu ke courses mein to tere se hi help milti thi 3rd year tak. 😊 Ab bas Microsoft mein ja ke bhi aise hi macha de jaise tune char sal idhar machai hai. 😊

- Mohit Agarwal

You are very persistent, what is the source of your motivation?. Mene kisi ko itni devoted nahi dekha IITD mein. You are brilliant, HARD working, consistent . I have been with you more than anyone in our department. Same cycle, same hostel, same wing always. You have accompanied me in many project and team based things. You are a nice partner who always pushes to do more. With time your image in my mind has changed to a very "mehanti Insaan". Now You are one of my few friends in JWALA. You a very confused person as well. Hope you will resolve your doubts about your career(research or Job) soon.

Wish you all the best for your future and hope you rock at MS .

- Devansh Dalal

I have never seen a hard-working person like you. You always give your best irrespective of any situation. Jyada tension mat le, I assure that you will have a great life ahead. Agar MSR milta hai to accept kar lena. Have fun at Microsoft.

- Shubhankar Suman Singh

You are so hardworking.. You may get tired but I think you never lose hope.. Lekin bhai tu hamesha itna serious aur tension mein kyu rehta hai.. Stay happy 😊 Good luck for future!

- Tajveer Singh Sandhu

At first I thought that you are the greatest maggu. Later I realized that I was totally correct 😊
Jokes apart, you are an inspiring individual. I think it is you who motivated me to work hard, and perhaps not the other way round. I am just realizing that we have never teamed up to do any assignment/project together. I wish that was that not the case, and at sometime, we should have teamed up.

May your eternal confusion regarding PhD be cleared up soon 😊 . May you taste success in whatever path you choose. All the best.

- Prateek Chaudhry

Awesome hardworking person. Have had pleasure to work with you in DB Project. It was great. 😊 You have had many funny incidents in IIT that always make me laugh (most of them revolve around a single prof. 😊 😊). Best

of luck for your future. 😊

- Abhinav Deep Singh

A very consistent person who doesn't give up easily. Also you are the most transparent person I have met at IIT. You are the same from both inside and outside, atleast for me. That is why I don't hesitate to share my views with you. You have helped me at many points in many courses.

Thank you for all this help and best of luck for your future at Microsoft.

Best Memories in IITD ?

It would have been easy if there was just one. I like to reach out to people, make friends and make memories. IIT gave me numerous opportunities to do that.

Things you regret not doing ?

Thankfully, none.

Bigest Change Since First Year ?

In the way I perceive the world, my thought process have changed. I think I am more mature than I was. But the biggest change would have to be my hairstyle.

Best thing you learn from here ?

Its a bad world out there.

What Next ?

I plan to apply for a PhD next fall in the field of computational neuroscience.

Best Buddys ?

Sadly, they are not from CS. But in my batch, I am closest to Kunal, Rohit, Tajveer, Abhinav and Aishwarya.

StudDD ! 😊 Accha lagta hai be tere saath bakaiti karne mein. Kya nikala tha apan logo ne CSP ! Maza aa gaya tha 😊 Bas aise hi studappa karti rehna. All the best 😊

- Zala Ronak Prakash

Arre Anushka Sharma, Arre nahi, PJ. I used to believe that infinity is a mathematical myth, and then I saw your energy. With such diverse talents, engagements in various activities, you manage to stay in touch with a large number of people. Awesome skills you have, I must say.

- Ishaan Batta

You look like a cute little packet full of joy. Easily the most networked person I know. But sometimes I find your beliefs and actions a little strange. Actually quite strange. Anyways, good luck with whatever there is to come and stay in touch.

- Kunal Singhal

It was Kailash House Day when we met for the first time and then it was Khushboo's B'day when we talked for the first time. First year was an awesome experience and you are a big part of it 😊. I would always remember every bit of what all we did. You are an amazing person and its fun to talk to you. All the best for your future 😊.

- Himanshu Gangwar

Ahem Ahem! We have this strange love-hate sort of a relationship since forever, and I never could find the cause for either. The pro girl of our batch, who paints and dances and laughs and jumps and frolics all the time. I find myself insufficiently exposed to you to comment anything about you - but you truly are such a complicated person. 😊 I used to envy your life because it has always been so adventurous and roller-coaster-ish. I admire you for your no-nonsense and gutsy attitude to the world.

- Aishwarya Rai

Parul! My common-OC-buddy in compu. My co-enthusiast in the coolness that is Biology. And of course, my BTP partner for a year now. Hey, we've done what, 3 projects together? It's been a very interesting journey to know you, really. You are not at all a typical person. Your habits are so interesting, someone should do a study on you: ranging from your unhealthy obsession with anime characters, to an unhealthier obsession with chai. You always have funny stories to tell, which are a great relief during our intense and hysterical night-outs. I will never forget that time when we hadn't slept for a single minute before our systems project, prepared a damn awesome presentation right till the last minute, which got cancelled, to celebrate/mourn for which we went to CCD, and lost all our senses to a fit of laughter for a full 30 minutes :) I am honestly very glad to have known and worked with you. I hope you get to a great place where you can truly realise your passion. Given that our interests are so intertwined, I'm sure we'll meet again after IIT, sooner or later. Thanks for the homemade biscuits, the HPMC treats, and for bearing with my manic work style. All the best for all that you do and want and need, Paul J.

- Sahil Loomba

We have had a lot of discussions about a lot of things throughout the four years. You've been of the greatest help to make me less introvert. I remember discussing about your dates (and rarely mine too), and how I used to root for certain people 😊. And I was glad to be mentors together. "Hamare pyaare pyaare fachche" 😊. All the best for your future and remember that you can ping me whenever you want to!

- Rohit Pruthi

Parul I will always remember the Pizza parties we had. Hamara fanta and unka Coke 😊 You are very multi-talented and I know tun bahut machayegi aage bhi, all the very best for all your future endeavours. 😊

- Khushboo Gupta

We have known each other before coming to IIT. You are really a great multitasker. Yahan pe aane ke baad, you were so good in managing studies with other activities. It was fun participating with you at different events, bridge to yaad hi rahega kya gadar telepathy thi apni. Late night talks, teri nonstop baatein and gossip, sahi thi. All the best for your future, I know you will do great in your life 😊

- Aastha Tripathi

I will never forget apni 'juice pe charcha' in cafeteria.. One of the most networked people in the insti.. Koi hai jisse tu nahi jaanti? 😊 .. Aur SBL ki report banana would have been impossible without you! It's interesting when you are in insti but still grab a bite to eat and chat with someone and then go to the class 10 min late.. 😊

- Tajveer Singh Sandhu

Had awesome time with you. The Winter Project (with you and Shivam, was my first project under a prof.) , Cafeteria Lunches, and WindT meets with the whole group, will really stay along for long. Have a great future 😊

Best Memories in IITD ?

The best things are abstruse and infinite in nature. Wonder if they get limited when we word them as "memories".

Things you regret not doing ?

The grass is always greener on the other side.

Biggest Change Since First Year ?

Wonder what I would feel when I read this in the future and realize that the change I called the biggest has already become so small.

Best thing you learn from here ?

What really matters is invisible to eyes.

As you go through life, you've got to see the valleys as well as the peaks.

What Next ?

Disproving self-set limitations,
Starting to think of the plot for the new chapter,
Table Tennis, Shooting, Fine arts, Craft,
Job,
Higher studies.

I've had the pleasure of engaging in some interesting and deep conversations with you, and one of them I remember quite clearly, where we discussed about the actual importance of achieving anything. And oh, we were almost-BTP partners too 😊 Poojan, you are a very hard-working guy, who I'm sure will wander through and find his calling in life, very soon. All the very best for everything that you do!

- Sahil Loomba

Its good to know that things are better between us. All your hard work over the years finally paid off and things are changing for good 😊. You have matured and I am glad that you have a clearer outlook on life. I wish you all the best for your future ahead.

- Parul Jain

I had a nice time with you during our varied discussions. Too bad we couldn't work as a team in any of the courses. I hope that you will be my junior in CMU sometime soon 😊 Best of luck for your future!

- Ritesh Noothigattu

I have always adored your work and how you make it 100% perfect. Your game was the best in the whole batch. Though we did not talk much before last semester, but you are a fun person to hangout with because of all the leg pulling we can do 😊

I always imagined you as someone going for higher studies and I know you will soon. All the very best for that 😊

- Khushboo Gupta

Very focused and Talented. You need to write more often. 😊 Apart from all this, you are a good hearted person. It was nice working with you in Last semester at IIT. Best of luck for all your future endeavours. 😊

- Abhinav Deep Singh

It was an exciting experience to work with you. I wish I had seen your friendly side much earlier. Sometimes I'm envious of the lovely company you have around you 😊 Good luck for the future!

Best Memories in IITD ?

- Team coding with Shivam and Devansh
- Working with the highly organized Ritesh N
- The transformation of Ritesh N into a 'timepass loving' guy
- The few gaming sessions in hostel in which I played
- The long random chats with Shivam, Abhishek and sometimes other hostel friends
- Receiving fundae from Kunal
- Finishing DB assignment within 1 minute of deadline
- Playing Hill Climb Racing one day before PHL110 major and many many more

Things you regret not doing ?

I wish I had been more aggressive in my approach.
Should have had a bit more fun, and should have kept a little lesser time for assignments.
Should have read more books, both regarding CS and other general stuff.
But overall, not much to regret. Had very nice 4 years.

Biggest Change Since First Year ?

Increased self belief and confidence

Best thing you learn from here ?

Computer Science

What Next ?

Right now, Software Engineer at Samsung

Best Buddys ?

Shivam Garg, Devansh Dalal, Ritesh Noothigattu, Bhavya Goyal, Nishant Kumar, Abhishek Goel, Kunal Singhal, and the whole Satpura gang

Prateek, you are a role model for me on how to maintain the momentum throughout situation and keep the hard work on. The way you calmly sail through situations has a match nowhere.

- Ishaan Batta

The almost stereotypical IITian. Your sincerity, perseverance and integrity almost intimidate me. Thanks for all the

study sessions and being so patient with us on all those stupid queries and assignment doubts. Only thing for you "Jahapahan Tussi Great Ho, Tohfa Kabul Karo".

- Swapnil Palash

At Vidyamandir, I had just seen you but not known you. After interacting with you at IIT, I have come to know that you are a very helpful person who remains calm and composed in every situation, speaks as much as is required. A very sincere and hard-working person and due to that one of the few here who have both an outstanding CGPA and an excellent job. Continue to be like this in your future and best of luck for your life in Korea.

- Abhishek

I don't think you ever said no to any favor I asked. Always ready to help anyone but hesitant to ask for help! I often what this pursuit of knowledge you are on that keeps you working so hard for almost every course. I don't know all your principles but I know that you always stick by them. Your calm and selflessness is surely inspiring. Good luck for life ahead and enjoy your time in Korea!

- Kunal Singhal

Bro aap nhi hote to shayad dual degree bhi extend ho jati 😊. kitne help ki hai humari assignments karne me, minors ki prep me.

GOT character: Samwell tarly, As you are intelligent, insightful and have vast knowledge of everything

- Arvind Bhuriya

You have been solution to many of my problems. I have preferred you more than google(you will do it anyway). Thank you for being a nice guy and a good friend. I want you to read this line sometime later but you will read it right now anyway:'Try to be less passionate sometime, its fun'(totally original may not be true).

PS: I hate it when these testimonials are public.

- Abhishek Goel

Hey ! buddy First roomie, first Clg friend...thanks for helping me out in first year specially when i had dengue I regret not listening to about playing basketball and yeah rubik cube is what we achieved together.

Was fun with you all the best ki jarurat nhi tmko !!....

Stay connected

- Mukesh Kumar

You are the most helpful and peaceful person I met at IIT. Agar tum na hote, toh pta nhi kitne courses mein Fakke lag jate. Aur assignments toh start bhi nhi ho pate. Thank you for all the last minute help during the exams, Prof. Prateek. Also, I have no idea how you managed to stay so calm explaining so many idiotic doubts of mine. All the best at Samsung.

- Abhijeet Joshi

Thanks, Grofers partner for all your help in my Job preparation (Itna meine IIT ke profs se nhi seekha hooga, jitne i learnt from you) and always making me believe that i can crack a good company interviews. May be you do not remember, it was only you jiski wajah se i was able to do my all DS assignments and from there only a whole new life of Coding began for me. Indeed gonna miss your valuable fundas in Flipkart (Korea chod ke Bangalore aa ja 😊), Joke apart you are really amazing, sincere, innocent, caring and unique guy who can achieve any height of success in life. Best of Luck for SAMSUNG Job.

- Vijender

yaar, Tera bhalla ho ki tu cycle 1 mein tha. Cycle 1 Farziyo se bhara tha lekin tere jaise log balance bana ke rakhte the. Thank you many times you accompanied many time in home trips, assignments and online problem solving. You seem like a very cold person who doesn't give a damn about anything not concerning you. No random talking, wasting time, etc. I always aspired to learn these things from you. But you are not actually very cold. Dude you are

truly a very intelligent, punctual and sincere person.

Best of luck. Fooodu 😊

- Devansh Dalal

A simple, quiet, sincere, intelligent and extremely knowledgeable and inspiring individual. Your words have always had the maximum "Information Gain". Best of luck at Samsung Korea 😊 Enjoy to the fullest 😊

- Vansh Pahwa

Log kehte hain I don't speak much.. But mujhse zyada to tu chup rehta hai.. 😊 Still, jitni bhi conversation we've had, it was nice knowing you! All the best for future 😊

- Tajveer Singh Sandhu

During the early days before I met you, I used to hear your appraisal from cycle 1 folks. And they were true indeed. You can be compared to Chacha Chaudhary, a wise man who used to remain calm even in the most tensed situation. No doubt, an exciting and rewarding career awaits you. We will have a lot of fun in Korea 😊

- Bhavya Goyal

You are one of my closest and earliest(perhaps first) friend at IIT Delhi. We have teamed up in a lot of course work that now batchmates presume that we both would work together in any upcoming course work. We were roommates for two years and understood each other closely. I was amazed by the hardwork you put in the course assignments and make them perfect which used to keep me going to better my assignment. You always said study for knowledge and I think you followed it in true spirit.

I realise I talk a lot, was pointed that in the first sem itself by Mukesh and you , but I can't help with that, just snatch your time from me 😊.

Best of luck for Samsung and lets continue to enjoy our friendship in Korea. 😊

- Shivam Garg

Peaceful Person. Never seen you angry or frustated. Don't know how you manage it. Awesome experience with you in Korea. Hope to have many more incredible memories in future. I hope that I step into your shoes and learn. On second thought, I think I already do that a lot, when we walk. 😊 😊

- Abhinav Deep Singh

One of the nicest people i have met in my life ! You are always so humble, helpful and generous. I always looked up to you for motivation, inspiration and willingness to do hard work. We shared all our courses till our 5th semester. I remember you once remarking that i always chose the same courses as you do, and perhaps that was one of the reasons i explored other courses in my 6th semester, which i feel was a good decision now. Wish you a great and prosperous career ahead at Samsung !

- Nishant Kumar

I became friends with you as you were roomie of Ritesh. I have never seen a peaceful and calm guy like you. Main din bhar Ritesh ke room mein rahta tha, but you never complained. Best of luck for your life in Korea.

- Shubhankar Suman Singh

You are one of the nicest guys I've met at IIT. Whenever I have a doubt in academics or any other issue (be it related to hostel, laptop, Delhi, Swapnil's wifi password 😊,...), I come straight to you for help. Thanks for always being there for me! I really enjoyed the time we spent together and I'll really miss our timepass conversations. Have a great time at Samsung!

Penning down a testimonial for u was difficult, roz toh lagbhag pure time jo mann bakwas krte rhte hain hm sab, yahan alag kya likhna. But since u forbade me, so here it is 😊

First year se zaada change to nhi aya h, except for your genius has been bested by your own humbleness and sincerity.

Princeton me v gandi macha dena. Looking forward to some breakthrough in CS 😊

- Neel Kamal

Raghu baba, u r really smart. I really enjoy when u and some others answer the questions that our profs asked so easily and you have been also very friendly to me in the not so big interaction that we had here. U r quite precise about what u think and I should have learned those things from u. Best of luck man for your future, sky is the limit.

- Saurabh Nakra

I remember how I used to call you The Golden ratio guy because you used this word in the first semester when no one of us had any idea what it was. You are a hell of a genius guy and I am proud of making you a fool on april fool's day 😊 Remember first year and Raghavi Saxena 😊 I still can't imagine you bought that 😊

You will do something very great in research and All the best for Princeton! 😊

Some of the toughest courses I have done at IIT were with you.. Thank you for that! 😊 Although most of our conversations have been in the context of academics, it was always interesting.. I hope you solve the million dollar question we discussed 😊

- Tajveer Singh Sandhu

You are the most intelligent person I have ever interacted with.

I will always remember many moments spent with you like moments in GCL, our NSO races and sessions, eating with you in Girnar mess etc. It always seems to me that you have a genuine goodwill for me and it is the same this side.

Best of luck for your PhD and keep the good work up.

I guess, you are the only one, who ever understood "what do i want ?"
who has a deterministic algorithm to predict, "What i am gonna do next", which is extremely random for rest of the world (including me 😊)
I never knew that there exists another person, other then me, who also believe in my dreams.

We've always maintained our bond at the exact same level, right from SCO to now. I seriously have no idea, how you used to top charts at SCO and even now. The passion, calmness, determination and respect you give to others are outstanding. 😊

You've always been 'Sharmaji ka beta', and thank you for being so patient and respectful, every-time Dad used to call. Thanks bey.

All the best exploring your full potential! Both of us have Satti, so I guess no good byes then.

My younger brother, always helps me when needed. Thought me a lot things from doing electrolysis (in Jugad way) in +2 to making cool stuff with routers etc., All the best for your future. Hope the favorite belief of yours becomes true. (I AM LEGEND)

- Budumuru Satya Kishore

You are a very very helpful person, you are willing to help in situations where most of us would deny to offer help. I still remember how you installed Ubuntu on my laptop. Also, you are a very peaceful person who doesn't lose composure even in extremely adverse conditions. You just maintain peace, follow your heart and come out with something good and fruitful. Keep it up at Microsoft.

- Abhishek

Batte .. As everyone I too got the same picture .. Sleep, DOTA, Eat, Sleep ..

But I think I was the first one here that came to know of the real you.

Remember our DS assignment? Not even the slightest of frustrations. That was some real character dude. I've learnt a bit of friendship from you that day.

You lucky pithre, going to have Biryani daily?! Spare me some, when I come 😊

All the best mama.

One of the fluently hindi speaking Telugu guys of my batch, you are very fun to be with, always with your quintessential, mischievous smile. The gamer guy who scored a PPO all the while playing and lazing around at MS. I thank you, for you always take out time to read my writings and tell me your insights on them. Sometimes, through our conversations, I come to know of my own faultlines and work on them. 😊

- Aishwarya Rai

We were the only two people of the CS batch doing DIA in that wretched semester, through which I got a good chance to know you. You are a very sweet, honest and cheerful person! All the best at Microsoft and beyond, for all that you do, Bharadwaj!

- Sahil Loomba

You are as lazy as I am and yeah our thoughts and ideas match a lot. Had great fun with all those discussions we have on various things. You are one of the guys with very strong values. I saw you getting to the depth of whatever you learn in many things. Keep going with these wonderful qualities you have. I hope we can squeeze some time to hangout in Hyderabad. Hope you have a fantastic career ahead ! and yeah - Not our farewell. Not so soon.

- Kothinti Trivikrama Reddy

Hey Jaafffaa

You are very cool person, Gamer, logical thinker, sometimes our ideologies collide. Same cycle, same hostel, same wing, NCC buddies. Someone who resolves my technical difficulties(remember EFI, owncloud etc recent). Chill person. Someone whose room is used as a public place. STUDD

have a good future and career .

- Devansh Dalal

Ah, i don't know where to start.

One of the most lazy and at the same time brilliant people i have ever met ! Your ability to sleep at stretch for 12 or more hours and change sleep cycle as you want, amazes me. You were my first friend in IIT. I remember annoying you on so many numerous occasions in our first year, but never did you turn your back on me. You always helped me and i am so thankful about that. Hopefully now i annoy you a little less 😊. I feel simply awestruck with your attitude of remaining calm and concentrated even in the most pressured and adversarial moments. I remember me panicking in our architecture demo and then you coming to rescue, taking over control of the situation and fetching us full marks 😊. You are one of most trustworthy, genuine and honest people i have been fortunate enough to meet and you have always listened to my problems, helping me in situations even when i would deny anyone help. I cannot express how indebted i am for your help and suggestions. You also have an amazing sense of humor. You are one of those few people i would trust with anything in my life. I have learned so many fundas about life from you. It is because of you perhaps, that i have become more open kind of person now. I feel fortunate to have stayed close to you in these four years and hopefully will remain so for a long time to come. Wish you a prosperous career ahead at Microsoft and hopefully you will procrastinate less in future times 😊

Baldu, I am amazed to see that how you have been able to maintain the level of hard-work and regularity in the past 4 years. I personally have learnt a lot from you and there's more.

- Ishaan Batta

A humble artist (I wonder how many artists can claim that adjective). Always on the front lines of the 'let me help you' squad. Keep up the awesome sketching and that 'talking in between laughs' talent of yours 😊

- Kunal Singhal

Baldva! Ever so spontaneous, ever so curious. You really do enjoy the small things in life. Love your quirky humour and your art talent. I have very strongly associated you with this emoji -> xD. Cheers to a year of being the outcasts of college. xD

First time I got to know you was in Graphics Class. Prof. sirf tujhe hi padhata tha 😊 Akela banda jo ek side p beth k doubts poochta tha , baaki sab phone p lage hote the 😊

Hum assignment shuru bhi nahi karte the and tun complete karke beth jaata tha 😊

I remember the discussion we had in GCL about jobs, research, career.. bahut sahi fundae h yaar tere.. All the very best for all your future endeavours 😊

- Khushboo Gupta

We first talked in our 5th sem, jab graphics kiya tha. You are very curious and hard working, har cheez ko depth me pata karna. It was nice having those chats with you. Best of luck for your future 😊

- Aastha Tripathi

Hey buddy, met you first time in 5th sem Graphics. Liked the quality of questions you used to ask Pf. Kalra. Me and Bhavya always compared our graphics' assignment with yours. Will remember the chats when coming back to hostels from insti ranging from acads to random bakchodi. Best of luck for your future.

- Shivam Garg

Master artist _/_ .. Origami, sketching aur pata nahi kya kya.. I will always remember our encounters with certain people.. 😊 It's surprising how you have managed to be the subject of my and Abhinav's jokes.. Btw, let's sit down some day and complete Asphalt again! 😊 Good luck for future, dear friend! 😊

Aapke naam ka matlab hi "Lord of Truth" (Troll 😊) hai!

Awesome in C++, Sketching, Piano, and what not (maybe Exaggeration 😊). Have had great time working with you in projects and assignments. Almost Daily Night-Mess Trips are enjoyable with you.

Best of luck for your future. 😊

- Abhinav Deep Singh

The most selfless guy who always puts his friends before himself. We have only known each other since around 5th sem but I wish I had known you before. What I really admire about you is your generous nature which made me realize the true value of friendship. I remember me going home till last day of the ADA assignment and you doing almost all of the assignment for us by yourself. There are very few people I feel like I can really count on and you are one of those. I wish all of your dreams come true soon, be it, PHD, a nice job or a good looking girl 😊

Behaving more geeky, Being much more friendly, Doing more timepass

Best thing you learn from here ?

Computer Science fundamentals, Strong basics in various maths topics, Coding skills, Coping with lots of deadlines, Doing Research

What Next ?

PhD at Carnegie Mellon University !

Best Buddys ?

Prateek Chaudhry, Shivam Garg, Devansh Dalal, Shubhankar Singh

You are the most dedicated person I have met at IIT.

I used to be awestruck when you slept at 9:30 and wake up at 4:30. And you maintained that schedule well into your journey at IIT (Lately this has changed. I guess you've started adjusting your body clock slightly to suit US time zone 😊).

The go-to man for clearing any doubt in any subject! You have helped me and Shivam (and perhaps indirectly the whole of Satpura CS 😊) on numerous occasions. Even before the exam day, when we used to ask you doubts for hours, you always cleared them, giving all your time, without showing a tiny bit of frustration!

In the past two years, as you have become more open, I have discovered other facets of you. It was great associate words like 'timepass' with you.

All the best for your PhD and beyond! Always keep that 1000 Watt smile on your face 😊

- Prateek Chaudhry

This will be long kyunki mujhse jyada Ritesh ko koi nahi jaanta.

Best friend of mine. We were together since +2. I have very great memories with him. Jab class ki topics hamaare

sir ke upar se jaa rahi hoti thi (eg: EEI201) to ek Ritesh ko hi sab samajh me aa raha hota tha. Aisa lagta tha ki prof sirf Ritesh ko hi padha raha hai. He is very intelligent, hard-working, truthful and humble person. He has never cheated in any assignment nor kept a proxy in attendance. He is ready to clear doubts of anyone or give his notes for xerox. Bas isko directions ki bahut confusion hai. MEL110 mein, 6LT1 ke jagah par 6LT2 main puri class laga di thi isne 😊. Aur, isko decisions lene mein bahut problem hoti hai. Hazar batein consider karke final decision leta hai. Finally, iska decision hamesha sahi hota hai. Very good luck for your PhD. Always be the good person you are and keep smiling.

- Shubhankar Suman Singh

My first impression about you was that you are an extremely hardworking person who just studies a lot (and does nothing else). I still remember the day of first sem when i told you that the CSL102 assignment has come and you picked up the bicycle, rushed to GCL to find out that I was joking. I was surprised by your reaction to this prank when you said that i broke your heart and you won't trust me anymore, I guess that this image of my still persists in your mind.

Everything apart you are a very helpful person who has helped in my academics a lot be it clearing doubts, solving tut questions or help in doing assignments. The best thing i found about you was your smile. I never found you sad, annoyed, depressed. Your smile inspired me to remain happy in many situations.

Also you remain a lot confused even for small things. During registration phase, you used to ask many people about the course, and have a cart with 8-9 courses. Also I love the change in you that you have started interacting with people.

I wish you good luck for your Phd at CMU. Keep smiling always.

- Shivam Garg

Always Smiling. It is a good quality because whoever sees you, smiles back at you. You have a perfect Facebook DP that embodies your everlasting cheerful spirit. Never loose that. (It would be awesome when you become a prof., and you would smile to a big classroom. 😊)

Best of luck for your future. 😊

- Abhinav Deep Singh

The best thing about you is that you are always cheerful and you always keep on smiling. I did one assignment with you and I remember me getting late by an hour or so and you almost finishing that assign by yourself within that hour. Your punctuality and dedication to work is amazing. I know that you will do great things in life. All the best for your future, do good research and have a great time at CMU!

- Bhavya Goyal

You are a very dedicated and hard-working student, the best role model for all the students.

I respect you internally and I will remember the good times spent with you in GCL and during walking back to hostels. Sometimes, I make negative comments on you because I like to see your aggressive reaction to them.

Best of luck for your PhD at CMU and keep the smile on your face forever.

- Abhishek

First of all I thank you for being friend with me. You are a really down to earth guy despite your achievements(zero ego), a very rule respecting guy, always have drinking water, help anybody [especially in acads], early riser (but not in last sem.). Dude you have got a lot of free time and so you chat a lot with anyone.

All the best in your phd . Mr Ritesh.N.

- Devansh Dalal

Yay Gattu! 😊 It surprises me how you manage to keep smiling in all situations.. You are indeed the most cheerful guy of our batch.. Recently you've become much more social, and it's been soooo much fun having random conversations with you! 😊 You are very honest and straight-forward.. I wish you all the best for your future 😊 And don't forget, look at the big picture 😊

- Tajveer Singh Sandhu

The most dedicated and hard-working person i have seen. I always looked up to you for inspiration. I still feel surprised at how much you have changed in your last semester, becoming as other people have rightly called you "timepass loving" guy. Wish you a great career ahead at CMU and always keep smiling 😊

- Nishant Kumar

The person nodding to the professor in the front of the class !! You were always such a delight, with a smile and always, ready to explain the smallest of details to someone (well, me xD) in doubt. I always admired way you relentlessly worked hard in a course, even got to see that when we did the AI assignment. And the transformation you've had in the last semester !! Haha !! All the best for your PhD at CMU !!

- Ritesh Baldva

I am glad that most of the interactions I had with you were in your final sem (the time when you were in coolest avatar) and I always loved hearing your "haloo". Before that I always saw you as the sincere hardworking guy who laughs sitting at the front desk in class. It is always great to know how you can laugh and enjoy so much from the small chats and events happening around you . Best of luck with your PhD 😊

- Vansh Pahwa

Efficiency man. God level. CYP100. Couldn't have asked for a better lab partner. Makkhan ki tarah nikli labs.

- Arpit Singh

Your level of dedication and hardwork.. Hatsoff. All the best for your future endeavours 😊 .

- Marugadi Sumanth Reddy

Hi Ritesh !.

we have been in room together for 3 years ... but still we dont have much memories but had a great bonding with each other never had any problems with anything been a great roomie . I remember , i would have missed my exam last yearthanks for waking me up that day ..

and you have always helped me with studies , motivated , took care with other stuff while i was not well Please do continue to help me in future .

Your are the unique person i have ever met. We don't have a pic together even after 3 years in same room . lets take a snap when we meet.

Thanks you !!...

All the best

Stay connected.

- Mukesh Kumar

I remember how reserved you were that you even refused to tell me your date of birth in first year (to avoid a party or GPL I believe). So many people have I told the story of the guy next door from Visakhapatnam who wakes up at 4 AM. Now I shall tell the story of the guy who is going to do research at Carnegie Mellon University. Even though you did not spend much time with us Satpurarites, the wing is incomplete without you. Keep up that eternal smile of yours.

- Kunal Singhal

Ritesh, you stay ever cheerful and follow a disciplined life which may otherwise seem very harsh to others, but I am sure that you enjoy it since otherwise you would not be having a permanent smile on your face.

- Ishaan Batta

Hey Ritesh

I discovered that there is some bug in the "stereotype" system describe by anonymous. I have a counter example to prove that.

I am a person with CGPA 6.3, you also know that i never finish assignments on time, havn't done any project with you, was never your project partner.

About my CV: I don't even have a CV & I hope that i will never make 😊

but still you help me very sweetly, help for anything I ask, invest so much of your valuable time.

You irritate me as well by your time-pass actions & stupidity, but my utility gain by your help is much more than cost of irritation 😊
so overall you increase my utility.

- Mohit

Ritesh, one from Vishakapatnam and yet don't speak telugu was the first opinion. But now, the opinion has now changed to helping, smart and so on. Remember the first CS intro day when said you love studying. I thought the love of yours for studying is created one (during JEE coaching). But now, after seeing the way your love studying hasn't changed, I learned it not a created one and hope it will never change. Whenever I see you studying, I always get the Amir Khan's dialogue from 3 idiots into mind (I am good at studies because I'm passionate about what I am studying). All the Best.

Best Memories in IITD ?

Late night hangouts with friends (especially after birthday parties); playing antakshari, truth and dare or even gossiping, playing DotA, having long philosophical discussions at hostel, roaming around the campus with some special friends, attending LSR fests 😊

Things you regret not doing ?

I wish I hadn't missed a few opportunities because of my habit of procrastination.

Biggest Change Since First Year ?

I have started thinking about things from a very different (broader) perspective, and have also started appreciating and having an interest in various other things.

Best thing you learn from here ?

Learning to learn

What Next ?

Guess I'll be the IT guy. Might consider other career options after few years though.

Best Buddys ?

Arpit Singh, Kshitij, Abhay, Kunal, Khushboo, Parul

First memory? That guy with the Arjun Kapoor profile pic who phished my facebook password weeks before I even stepped into IIT. Easily the most approachable guy in our batch. All your amusing eccentricities aside, you're very nonjudgemental when it comes to people. What motivates you to work has been surprisingly hard to understand. The batch is very grateful for your work at ACES-ACM and all the thousand little-big things you've done and continue to do for us. Thanks for trying to convince me to not switch hostels when I had nearly been convinced that nobody cares anyhow.

Our chasing-deadlines paradigm seems to have affected you particularly badly and almost pathologically. Wish you some well-timed motivations on that front. Maybe a relationship that keeps you motivated. 😊

"My mother told me that life isn't always about pleasing yourself and that sometimes you have to do things for the sole benefit of another human being. I completely agreed with her, but reminded her that that was what blow jobs were for."

— Chelsea Handler

- Anshul Bawa

I still remember our first group was in EEL lab. You and I had a pact to do 3 reports each and Guess what ? You were absent on the days when it was your turn to make the report and I ended up making 5. At that time I realized, you are a very very lazy person. 😊

But then we made our group again in DBMS project and you did the whole work (well almost!) and you did not even had a problem with that. You never blamed us for not working as equally as you. It was then I realized you are a selfless guy.

Each of my encounter with you has made me realize you are a very generous, caring (Surprised? 😱), intelligent and a fun guy to hangout with. Well, a little bit lazy too 😋

I would be dumbstruck when I would see you in lab for our IS work before me 😊 Yeah sometimes I worked hard to get you up 😊 But in all you are the best groupmate anyone can have.

And your love for all the gossip came out as a shock for me 😋

And I really learnt a lot from you.. Remember you saying, "They can never steal the best moments from you.." I could not imagine you were saying those words.

NUTANIX would be very lucky to have you and I know ppo to leke hi aaoge. Next semester poora time MTP ko dena fir 😊

All the very best for your future 😊

- Khushboo Gupta

Naya naya hostel aya to I thought kaun hai ye rohit pruthi, ajeeb si harkate karta hai, ajeeb si baatein. But kaafi chill nikla tu. I remember above most our routofy days, phir uske baad apne assignment groups jismein ro ro kar kaam kiya humne. And of course Dota. Slark se practice kar leta tu, omniknight to nahi ho pata tujhse.

Found an unlikely philosopher in you. But fundae mere sahi the us din

- Arpit Singh

Frooti! Kya insan ho tum aaj tak samajh nahi aaya. How can someone be so utterly lazy and still be the first person that comes to mind whenever there is something to be done? You're fun to hangout with, although I can't really say why 😊. Probably the echoes of all the jokes we made about you at ACM 😂 Best of luck for the future. I usually hold back on predictions, but I'm quite sure you'll do great.

- Abhay Mitra

I hope you understand how much effort I put into this 😊. The entertaining and fun neighbor in hostel since first year. Always the person to go to when I am bored. Of all the fun I have had here most of it was with you.

- Kshitij Morodia

You are a lazy guy who works a lot. I was shocked when you decided to build a new website to host coding club contests. It's amazing how you keep working for the department with little reward. Also I remember that course where you used to sit with your friend instead of your friends 😊

A few peculiar things about you would be a funny walk, a funny face and a kind soul.

And yes, I bet I can defeat you in DOTA 2.

- Kunal Singhal

We (ShitMo, Kota, you, me, and cycle 4) enjoyed during CYP. We used the lab apparatus to do everything except the experiment Amul Parties during the lab hours. And so on... Lets rock the same way next year.

- Budumuru Satya Kishore

Pruthi tu Aam Kaise khata hai? ek baat maan fook le life aur bhi chill hojayega 😊

- Ashish Kumar

Do you remember how we suddenly decided to do SURA together 😊. Although the SURA didn't workout the way we expected but those days were fun. We would do some random things in the Graphics lab, sometimes watch FIFA world cup or hang together. There is no doubt that you are an extremely talented and skillful person. I am sure that

you will achieve great heights in your life. All the best 😊

- Himanshu Gangwar

Pruthi, I had some great memories with you and the group. It is good to know you. You seem to be very candid, and easily approachable. Continue with great work at ACES-ACM. Best of luck for all your future endeavours 😊

- Abhinav Deep Singh

Yr tujhe pehle dekha tha tb lagta tha bada hi studd banda hai.. ab bhi studd to hai pr bakchod bhi... hukke me bhi alag hi enthu ane laga tujhe... abe ye bta k actually kya dekha tha us din yes plus wale bande ne 😊

- Shivam Verma

Bhai tu nahi sudhrega!

- Ishaan Batta

Hey bro! You are an introvert who is cool and friendly, but finds it difficult to convey. You are very helpful (our fachchaas k vouch for that) and a good listener. I am happy that I got a chance to know you and understand you. Remember, if you need my advice ever (you know on what), you know how to reach me. All the best for your future endeavours 😊

- Parul Jain

Most weird guy i have ever met. You can be crazy, smart and lazy at the same time. I can't even remember you and patidar were ever roommates. You know hacks and tricks to every problem. Ek badaa fotcut hota hai aur ek chhota fotcut and you only know chhota fotcut 😊 .Had a nice time in bangalore with you.

- Aashish Nagpal

You are nice, caring, funny and a gossip too. We have done two projects together and it was fun working with you, and thanks for the freeride too in cloud 😊 And haan itna agree koi kaise kar sakta h yr, you are like 'haan thik h' chahe kahin jana ho, kuch khana ho 😊, waise it was nice 😊 And the awesome part was having those chats with you and khushboo. All the best for your future 😊

- Aastha Tripathi

Sorry for eating your ladus and filling the box with your underwears. You are the _____ of shivalik . Remember we tried to hack each others accounts. I always feel that you deserve more than what you get. I regard you as one of the smartest guys I know.

Best Memories in IITD ?

Most of my memory snapshots are conversations with people: some deep ones, some fun, some melancholic, while some spent simply silently

Things you regret not doing ?

Getting over my inertia to know people from my department better

Biggest Change Since First Year ?

So supposedly, IIT has made me much smarter than before

Best thing you learn from here ?

Putting my life on a dead line

What Next ?

Hopefully: wracking my brains to figure itself out better, through a research career in computation, cognition and biology (a.k.a. I-am-not-sure-but-we-will-see)

Best Buddys ?

best buddies = {if from department: Anshul; else: Abhishek, Anshul, Atabak, Deepli, Harsh, Nehali, Rama, Shuchi, Vidisha;}

You are one of the most humble and intense guys I have seen. Always working with full dedication and involvement in whatever you do, you sway across situations in life. I am very confident that these qualities would take you a far higher in life, both in eyes of the people and you.

- Ishaan Batta

Your commitment to your pursuits is commendable. Be it Datum, your research interests, writing or sitting through the TOTA class. And yes, I still have to read The Faceless Saldirgan (if only I were a quick reader). Best of luck with what's next to come.

- Kunal Singhal

Hello! I remember our first btp presentation where you decided to split 10 minutes as 4-3-3 which later turned to 7-1-7, and that was just the start 😊. You are a very talented and diligent individual. However, you take a lot of stress

which is something that I find intimidating in you. I hope you find yourself more relaxed as time goes by. Your persistence is what has resulted in the success of our project. I knew you as the guy who published a book but there a lot more to you. We never discussed it but I have come to know you as a very deep and philosophical person, who understands human emotions very well. You have a great future ahead but I hope that before we part, I could have a long discussion with you where the topic is not our btp 😊. Good luck!

- Parul Jain

Genuinely talented person. For all the interactions we have had, it was great knowing you . I believe you are one of the few untainted people who have not heard (/endured) my jokes yet. 😊 Will soon change that. 😊 Best of luck for all your future endeavours.

- Abhinav Deep Singh

"Hey! When is your book coming out?"

"Soon."

Our friendship had some very funny and awkward beginnings. I almost did not talk to you for a year due to the sheer awe you inspire in those who have heard of you. And the next thing I know, we are chatting about Call-Me-Maybe-meets-Pink-Lips (Penn Masala much?) napkins and inappropriate French movies at school. Glad you used the words 'mutual fanboying' for the way we procrastinated on the OS major, instead of what you know I'd call it 😊.

We've come a long way since then, and I am insanely grateful for our friendship. Every bit of it. From the times we've bonded and binged on nerdy meta humour and insane anagrams and song lyrics and quotes, the times you've believed in me more than I did myself, the times you've inspired me by example to be my best self, the times I've marvelled at your deep and genuine concern for your friends, the times we've had each other's back and heard out each other's aspirations and reservations and gile-shiqwe. I cherish it all. Honestly, the only thing I regret is gloriously failing at getting you more connected with the rest of the batch.

You're meant for great things wherever you go. I'm proud of the way you deal with what life throws at you. You've been, in many ways, miles ahead of your peers and the times. Don't let the mediocrity around you bog you down. Some unsolicited advice in Bruce Lee's words - "Don't fear failure. – Not failure, but low aim, is the crime. In great attempts it is glorious even to fail."

Summarising us with another quote?

"When we honestly ask ourselves which person in our lives mean the most to us, we often find that it is those who, instead of giving advice, solutions, or cures, have chosen rather to share our pain and touch our wounds with a warm and tender hand. The friend who can be silent with us in a moment of despair or confusion, who can stay with us in an hour of grief and bereavement, who can tolerate not knowing, not curing, not healing and face with us the reality of our powerlessness, that is a friend who cares."

– Henri J.M. Nouwen

- Anshul Bawa

You are one of the few people at IIT Delhi I don't have to mellow down my inner nerd with. The world needs more people who share your joy of learning and can discuss any issue as objectively as you do.

- Abhay Mitra

How to go through courses doing minimal things has to be learned from you. Playing late night poker in Ara all through 2nd year was great. Lets hope for good things in Bangalore for us. 😊

Besides trying to help each other in always finding the easiest way out of getting work done, I don't think i could have found a better person to share the passion I have for poker with than you 😊 That one weekend away to Goa has made a certainly made me see things differently but that is a good change. Can't wait for the next time we go back there and this time we are not coming back just breaking even. 😊 We will catch up once we settle properly in the new city 😊

- Banmanlang Warr Lyndem

You have been very chilled out ever since I have known you. You get things very easily and are a lot of fun to do assignments at the last moment with. It was great working on the CSP project and Advanced Arch. assignment with you 😊 I see you everyday (when I wake up reasonably early 😊) taking countless rounds of the hostel corridor in the morning and it reminds me of our CSP project. Man ! Nobody can be as lazy as you - Look, you dint even start writing testimonials. Please don't take that as a compliment 😊. We both have a similar fascination for latest technologies and We had a great time discussing all that stuff. Have a great career ahead ! As you say, all these college routines doesn't suit you much. Have fun time working. I am disappointed that you got placed in Delhi - too far man !! and there is one thing which can keep us close -- lets play FIFA online !!

- Kothinti Trivikrama Reddy

Yo Saket Bhau aka 'The King of Procrastination'!! 😊

Bhai tere 4 sal mein itne phases aye hai hur gaye hai ki ab count bhi rakhna mushkil hai. Kabhi Russian to kabhi Spanish. 😊 Kabhi Borderlands to Kabhi DOTA. Kabhi bhi jao tere room pe tu ya to Fifa khel raha hota tha ya so raha. But yar tere se jyada chill banda nahi dekha aj tak. Apan VEL700 so karke seekhte hain ki apan ko kaise jina chahiye, but tu ek living example hai us purre course ki learning ka. 😊 If someone asks me who is the most stud guy you consider in IITD, you are right up there on top of the list. The random discussions we had about music, movies , TV series or any thing were so much fun. 😊 You crying about my choice of music is too damn funny. 😊

At times I have felt like you were like my personal IT guy. 😊

To end this, dude, I have learned a lot from you, enjoyed a lot with you. Thanks man for all the good times. All i can say is that you are going places in life. 😊

- Mohit Agarwal

I suppose there's too much to say, isn't there? 😅 or maybe i'm just speaking for myself 😊

let me try to break it down though. we often bond over the silliest of things, be it AOE or FIFA or some TV show or youtube channel or even that ridiculous Russian phase that you had but they always seem to take up all of our time and I enjoyed every moment of it. 😊 and lets not forget that semester of us trying to be adults and raising Chris. i'm still sorry for putting you through that turmoil 😊 but i think the one thing i'll always take with me about you is how you are can always remain cool regardless of the situation. It has been an honour fighting the battle alongside you my comrade 😊

- Banmanlang Warr Lyndem

Lazy as hell. Totally Chilled out. Awesome guy. It has been 5 years since I have known you, (Though it might be 4 since you might have been known me as you have terribly short and long term memory loss 😊) , and have had amzing moments with you and Kota Gang.

Cheerios, and best of luck for future 😊

Things you regret not doing ?

Biggest Change Since First Year ?

I became lazier and smarter.

Best thing you learn from here ?

I learned that I can do anything.

What Next ?

initially Job, then I will see (perhaps some business)

Best Buddys ?

Ajay(Daddu) , Chirag(Pandey,Saand) ,Prerit(Pati,Party) ,Aashish(Nagu , ... tere to rehne de), Shivam (Verma,...Lal),Ronak(Zala,Zola) , waise aur bhi log h but Michaels are the best.

Saale tera pura din hi ulta chalta hai 😊 . Saari raat jagega aur fir subah sota rahega. Fir bina nahaye dhoye ya brush kiye nikal lega ek copy liye haath mein. Aur bhai daddu ke saath itna bada dhoka, aakhir kya bigada that tera daddu ne.... Bichara aashram ke bharose zinda hai abhi. Abhi bhi late nahi hua hai, pakad le daddu ka haat 😊 😋
Aur saale Jabze ham logo ne Abe Abe karke udana start kiya. Tune to Abe.... Bolna band hi kar diya. Pata nhi kitna time ho gaya.... Aur haan wo bahar jaane se pehle apna wo ek baal banana mat bhuliyo, kya ho gaya agar daddu ne dekh liya to ... 😊

- Zala Ronak Prakash

Dude, you are the guy who does things step by step without jumping ahead. This art is rare among people in IIT where we try finishing off things as quickly and easily as possible.

- Ishaan Batta

You were the first person with whom i interacted in IIT. At that time you seemed a guy who would be highly serious towards acads, i guess i was wrong 😊 You are the most unpredictable guy i have ever met. Even after staying for

four years with you, i cant say anything about whats going on in your head. You have a very interesting style of working, you can easily neglect things that aren't interesting (remember OS 😊) and work extremely hard for others. On a separate note, bhai phir kabhi peena mat, bahut fighter ho gaya tha tuje sambhalna 😊. You have been a great friends and we have some very exciting memories together. All the best for your future buddy. I know it would be great.

- Chirag Agrawal

Yo Mr. Nakra. Most enthusiastic guy among all Michaels or actually among all batchmates. Itna enthu kidhar se late ho. But 1 bar tera over-enthu thoda fighter pad gya tha, holi k tym pe sardar ki T-shirt phadte waqt. Bhai us din tu sardar k hatho pitne se bach gya.

You have a special talent of converting days into nights. Minor-P me meko bhi rat rat jagata he tu, vese karta tu hi he. Tu jab tak kam kre tab tak ham time pass bhi ni kar sakte. It's not fair. Yar vese tune ham sab Michaels k saath accha ni kiya(specially daddu k sath), most of the time hostel se gayab rahta he. Bandi ban gyi toh ese karoge.

Vese I learned a lot from you. Jab tak kam pura na ho pure enthu se karta hi rhega. ADA bhi shi padata he tu, bas ab minor-p or softy-app tujhe hi banani he. Just prepare urself. &

Overall, u r a nice guy. Best of luck 4 ur future.

- Prerit Kumar Patidar

My first interaction with you was in the MEL lab. But I remember you as the guy who did the mimicry of Prof. VK Tripathi so well that I turned to see if the Prof. was really there 😊

I know we did not get a chance to be group partners in any of the courses, but there is still a year to go. 😊

I wish you all the very best for your future 😊

- Khushboo Gupta

hostel mein street play se interaction hua tha... pehle mereko lagta tha ki banda jaldi senti ho jata hai, fight le leta hai .. aur shayad sach bhi ho kisi time par.. par change to kaafi aya hai.. best of luck aage ke liye

- Arpit Singh

"The one with the Girl-Friend". The only Michael who has an IITian-girlfriend.

You are truly a "SWADES" guy who has watched the movie indefinitely times and yet always ready to watch again.

No offence but kabhi-kabhi tu itna seni(hyper) ho jaata hei ki tujhase baat karne mein bhee darr lagta h 😊

But still, Your are an awesome person with lots of +ve energy. All the best for the future (May be Family Future 😊).

- Ajay Kumar

yr tu bada hi different banda hai.... kabhi kabhi to bahoooooot hi fight marta hai kuch chijo k liye... adha mark bhi nhi chhhodta 😊 jb chill hota hai to gadar hi chill hota hai (remember OS). do kindle rakh k kya karega, ek de de mujhe 😊 ... hostel me you are one of the persons who I can count upon agr kabhi jarurat pade to... thanks for the bag 😊

P.S. bhai room me bhi reh lia kar kabhi, rat me 😊

- Shivam Verma

Yo man !!! I will really miss the fun we used to had in labs esp. that electrical ones... One thing I have noticed and love about you is that you never shy away from taking tough challenges/situations... You like to face things head on and give it a try... This spirit will surely bring you success in the upcoming future.

- Nitin Agarwal

Yo roomie!! You have the perfect balance between working and enjoying. Remember our legacy of wd10. We rocked 😊. Our robot made from cardboard made it to the second round when everyone else made theirs with aluminium. I still remember our 1st year like it was yesterday. We watched movies in our rooms in speakers. We ate pruthi's ladus. I will miss you 😊

It's strange that we've been together for so long and I really got to know you after that run we recently had. I am sure you will do amazing things in life. You are smarter than you probably think you are. Bas tension kam lia kar, "all iz well!"

- Kunal Singhal

I always chose you as second solution to my problem after prateek because to understand you one needs some background, jo most of the time nahi hota tha. I just realised we were neighbours for 3 years. Thanks for being a good friend. A piece of advice though:'Try to do something that is not meaningful'.

- Abhishek Goel

Updater Sahab xD !! Your sheer eagerness to start and finish the assignments, amazed me. Its amazing to me how many friends I made with the graphics course. I'm really glad that I did that and met you. Your fundae and talks with you about future aspects were always enlightening for me. All the best for Korea and all your future endeavours !!

- Ritesh Baldva

Sab log bolte hai ki Shivam bahut bolta hai. This is true indeed. Actually You need just a bunch of peoples discussing about anything. You are very fast learner and among a few most intelligent peoples of IITD CS. You can understand any hard concept very easily. An all-rounder in academics. good in maths, very bad hand writing(i always regretted when I took your notes) , best is Computer Science. You always solved all my technical problems(remember you installed my first Ubuntu) Thanks for that.

Have a good life and sorry for troubles I caused you . Mr. Shivam G.

- Devansh Dalal

Hi !! You are surely one guy well versed with the Linux kernel. An inspiring individual. It's always fun to meet you in the GCL and discuss any arbit topic with you. Best of Luck at Samsung Korea 😊

- Vansh Pahwa

Discussions (academic or otherwise) with you are always a good experience. There have been so many times when I went to GCL to work but ended up talking to you for hours 😅 I don't know if you remember this.. But the first time we talked was in MEL110 lab. I asked you something, and you said something like 'Yaar abhi bahut bacha hai, baad mein pooch lena' 😊 From that moment I knew that you are a very serious guy! Anyways, zyada tension mat liya kar nahi to baal udd jayenge 😊 Good luck for future buddy! 😊

- Tajveer Singh Sandhu

"Assignment Start Kiya Kya?" This has become our catchphrase since 2nd year, (Mostly spoken by me 😊). Thank you for uncountable times, you have helped me in my assignments, and the numerous times you have advised me regarding my lifestyle. 😊

Great Friend, have had so many memories with you, and plan to have many more. 😊

Bas Tension thoda kam liya kar. 😅 😊

- Abhinav Deep Singh

I don't even remember how many many times I have teamed up with you in IIT. You are one of the smartest person I know in IIT who is always keen to learn new things. Man, you have rescued me so many times, be it assignments, course projects or internship project. You are the first guy I used to reach whenever I had any doubt because I knew you will know how to solve it. And our journey together doesn't end here buddy. See you in Korea 😊

- Bhavya Goyal

Amongst my earliest friends at IIT, and with whom I have teamed up on a lot of occasions for assignments and for competitive coding.

A very intelligent person, who critically analyzes everything. I envy the clarity of thought that you have.

A person who talks a lot!! Have you ever noticed that whenever we talk, you are talking for greater than 80% of the time!!

You have been amongst the closest friends I have ever made. All the best for your future at Samsung and beyond.

- Prateek Chaudhry

As I said you sure know how to give fundaes, become a manager and life is all set for you 😊 Have a cool life ahead.

Hello Mrs. Verma, How is your....? 1 question 4 u--> Teri life me hamesha fight kyo machi rahti he. Chill rha kar be. Yes we know, tere sath bachpan se lekar aaj tak atyachar hote aye he, tera bachpan andhere me hi gujra he but ab tujhe tension lene ki koi jarurat nhi he. Ham sab Michaels he tere sath. Just chillax.

Best Memories in IITD ?

It seems fair to not tell any than choose very few among them; mostly contain pulling each others leg in hostel, in mountains, at obscure tombs in night, and so on

Things you regret not doing ?

Playing music, dancing and swimming

Biggest Change Since First Year ?

I quit CS 😊 Oh and I fell in love with a person, a career and a way of life!

Best thing you learn from here ?

Learning never ends and isn't necessarily always academic

What Next ?

To resist any narrow definition whatsoever

Best Buddys ?

Aishwarya, Akshay, Bhargava, Ashutosh, Aakash, Kaushal,.....

Yo Bham ! You were our contact with outside world - the main source of homeworks and assignments. You are a creative genius - awesome paintings, writings. I could never understand what "deep meaning" some of your paintings had but they looked awesome ! You have that "wanderlust" bug in you- I wish I had been on one of the trips with you .You have an impressive and different approach to various things in life. You wish to pursue "The Road Not Taken" and it takes a lot of courage to do that and I admire that. Hope you find success in it.

- Ashutosh

Yo Shubham. Never seen anyone with that clearcut philosophy on life. Our little talks on lit. and stuff had more influence on me than I can imagine. Most of my inspiration on literature is drawn from you. I know for a fact that you would not quit on your interests. Man, you should write more often. Cannot believe our college time together is over already, if only we had been from the same hostel.

Don't aim for happiness, aim for euphoria 😊

- Varakantham Bhargav Reddy

Our fundae and hobbies might not always align, but I respect that you have the courage to pursue your own path to fulfillment. It was great doing those hukka courses with you! Here's hoping you find what you seek.

- Kaushal Hooda

Some things are better left unsaid, because the moment you put words to it, you LIMIT what it means.

I have come across many people, but not someone who is as liberal-minded, as feminist and as artistic as you are. More than love, I profoundly respect you. You brought my dormant sense of adventure to life, and made me so fearless, so independent, so empowered - that whenever I look back at life, 50 years from now, I shall always remember meeting you as the most crucial point of my life.

I will terribly, terribly miss our travelling trips, spontaneous dangerous plans to visit obscure forts in the midnight, dancing and head-banging with friends, riding at full speed (and in a state of delirium) on the Pondicherry roads, our intellectual and philosophical sessions with Mary Jane and Lucy 😊, synth playing attempts, water colors paintings, truck riding from Kasol to Delhi, weekend escapades, countless visits to art galleries, trekking with friends, beholding the ocean by the moonlight, wandering above a sea of fog - and when I say this, all of it looks like from a story book, but hasn't our own life been more unreal than a fairy tale? 😊

I don't think I will come across someone who believes, and actually PRACTICES feminism and liberality more than you do. Let's just promise that we will meet someday, somewhere, and repeat this fairy tale again.

"In the old times when we were rich, with no money, but plenty of time,
Instead of flowers and gifts, we wooed each other with sketches and rhymes.
If art was a human, it would be embodied like you.
But only less beautiful, less meaningful and less true."

- Aishwarya Rai

I had a fun and an easy time whenever I joined hands with you during any assignments or projects. It was fun critiquing and looking at things differently, in fact thinking about different things altogether. It is interesting to watch you take up your career in a whole new direction. You have the caliber for success in it and I wish to see you make something great out of it.

A truly wonderful person! Though we met in the 4th sem, we have done so many courses together! The day you explained the OS assignment to the four of us in Aravali during CSP!! Haha, your first night out with us during CSP. And even now, you're the person to go to when in doubt. I admire your cheerful and hard working attitude!! Its always been a wonderful and enlightening experience working with you. All the best for your future and PhD !!

- Ritesh Baldva

One of THE most sincere and hard working person. I remember In first sem no one except me knew that you are in JWALA because you used to wake up at 4 AM and sleep early. You have helped me and a lot of other people in numerous assignments and exams and i am very thankful for that. Remember everyone implemented your(& ritesh's) karatsuba multiplication method in Architecture which was somewhat farzi. No extra chit-chat, close buddy of ritesh, secretive kind of guy. 1st bencher.

All the best for your Phd. Mr. S.S.S.

Hi ! You are one of the most sincere guys I have seen in the batch.

I really respect you for completing the DB Assignment 3 even after you had dropped the course, just because you had partnered with someone . Best of luck at ADOBE 😊

- Vansh Pahwa

One of THE most sincere and hard working person. I always thought you were a big maggu, but lately realized how

wrong (or rather correct ? 😊) i am. I feel so amazed at the balance you strike between playing, chatting, gossiping and studying. Your will power to stick to your routine and wake everyday in the morning, is an eternal guiding light for me 😊 . You have helped me and a lot of other people in numerous assignments and exams and i am very thankful for that. All the best for your Phd and may you make us all proud by completing your phd in 2 years, which as far as i know would be record 😊

One of the sincerest guys of the batch.. It's amazing how you come up with solutions to any problem so quickly.. You are smart and humble at the same time 😊 I hope CSP karte-karte humne bigaad nahi diya 😊 All the best for PhD.. Bhar-bhar ke paper chaapna Sarangi ke saath! 😊

We have been friends since first semester, and have had been in so many group projects. 😊 Any problem in any concept, you are the person that helps us all. I still remember the day when you came to Aravali to help me, Tajveer, Ritesh, and Aakash with OS Assignment, and in turn helped the whole Aravali hostel by proxy. 😊 So many beautiful memories, from EEL Projects to Braille Tutor Open House. Your sense of humor is awesome. Always be happy. Best of luck. 😊

- Divyansh Singh

Hey man, well its actually not my kind of greeting... but these are two words I often hear from you.... A highly talented, super lazy guy in our hostel... I still remember those days of our AI game project... I asked is it possible to do in python and get better results(we have already done in cpp) and in the next morning you really surprised me by doing the complete project in one night... Your coding skills are amazing man...

I don't know how we are able to manage our btp without exactly knowing what the output should be... I haven't seen you worrying, getting tensed or complaining about anyone and its one of the best quality in you... being your btp partner you never said me about your PPO result... and when I asked, you were stable as always... Hats off man... Hope you will have a great time in Korea.... and all the best for you future 😊

PS: I think you don't know about this... it was actually you, me and one more guy who were supposed to be roommates in the first year... But I came to campus very early and had a choice... I think we could have been more kind of informal friends if we had shared a same room... 😊

- M Samheeth Mathur Goud

Hey man ! We had an awesome time in Korea. You were as lazy and as chill as you can be there as well. Hope you will have a great time in coming years as well. There are many things that unites us and one among them is #HalaMadrid. Lets hope to go to a match together in coming years !!

The man of jugaads! We collaborated on so many assignments and projects. Some officially and some well you know.. The chillness and the dispassion you pulled them off with is frankly amazing. You wear this lazy personality but are always ready to help anyone. And it's so easy to just talk to you, I am glad we were roomies (till the mice drove us apart!).

There are so many plans and pacts we made that we never executed. Let's make another pact, pact to meet at least once a year!

- Kunal Singhal

Stud Bro !!...

You are the most active and full on enthu banda when it comes to plan a trip . We might have never gone for a trip if it was not you to initiate.

Remember our stay in mcleodganj hotel and not forgetting the quick learner you are DBMS ke demo me

kya sponty mare the wahi sikh ke wahi implement kiye the

You are also the guy who has helped others .

Best of Luck

Stay connected

- Mukesh Kumar

A big THANKS for all the help in last four years. Aap na hote toh humara kya hota(true to some extent). I dont know what I will be doing when you will not be around(hopefully some less gaming and more meaningful work).Out of last four year I have atleast spent two year with you(literally). I dont feel like writing anymore. I feel like we will remain this close forever; probably because I am not ready to accept that you are passing out.

PS: I changed last line 6 times to drain out sentiment from it and ended it making sarcastic.

- Abhishek Goel

You are a very smart person. I was shocked when you topped in CSL102 by just sitting in your room 😊 . And your enthusiasm towards everything (perhaps not for studying, or rather attending classes 🤪) is great. In many senses you were the complete opposite of me, but it was nice being with such a person. All the best for your future. Please don't bunk office at your job 😊 .

And thanks for the wifi !! 😊

- Prateek Chaudhry

You were one of my first few friends at IIT. The muti talented, the Trip organizer, the DOTA guy and most enthusiastic one in our hostel. Tere bina toh hum ek bhi trip par nhi ja pate yar. I think hume ek aur baar kahi chalna chahiye ghumne, tu apni list bna le phir planning karte hai.

Aur class jane ka toh system hi nhi tere andar, the guy with 0% attendence in all courses.

Best of luck at Codenation!!! Waha attendence maintain kar lio.

- Abhijeet Joshi

Stud bro...Your speed and confidence is exceptional..MAL250 ke major me 17 number laane the pass hone ke liye,it was just one night show for you.Tu hi hai jo prof se pehle moss lagata tha..hahaha..Best luck for your future...

- Akash Kailas Baviskar

tu roomie na hota 1st year mein toh IIT itni lovable place na hoti aaj hum donno ke liye, i do not know tune mujhe dekh class jaana choda ya meine tujhe dekh ke, but whatever see aaj hum donno IIT mein attendance mein saayad century bhi nhi kr paaye (seriously 2 credits for 1 class 😊); Technically we were only 2 sitting in placement from Satpura CS and the hours we spent at Southy together discussing Algorithms, companies priorities, trips was really amazing and unforgettable; I always knew ki tujhe Day 1 mil rha hai but tune toh ganda hi machaaya h (Without doubt you have the Best Placement in our CS), Tu jaldi Dubai jaake aa phr Bangalore mein Intern type hi machaate h 😊, and do not worry is baar tujhe Goa akele nhi jaana padega 😊 ;

- Vijender

You are always excited about something new. matlab itna enthu kaha se aata he, aur bakchodi k itne naye ideas kaha se laate ho jese raat ko 2-3 bajे insti ghumne jana matlab kyunki apne 4 saal me sahi se insti dekha nahi, yr din me chale jao koi class hi attendance bhi mil jaegi. You never cared about attendance policy. Attendance policy ka jab circular mail aata he tab M.R. ravi ko bol dena chahiye circular se swapnil palash naam hata do ise mail krne se koi fayda nahi 😊 . But all of these aside you are very kind hearted and an adventurous guy. Without you humari jaipur, udaipur, dharamshala, trunganath trips k ideas shayad hi execute ho pate. I wish you get what you want. GOT character - tyron lannister, you are intelligent, your fondness for dota is like drink in tyron's case and a kind man.

- Ishaan Batta

Nakli Sardaar. Such a jolly guy you are. I remember how you explained me the extensive process to get a fake medical certificate when I had to miss OS exam. You were caring enough to offer to go through with that for me (and as me 😊). I have two wishes, to grab some chicken and whiskey with you and to listen to some of your poetry. I hope to get at least one of them fulfilled!

- Kunal Singhal

22ji! I had to rewind so much in my head to 'show you how it all began'. From the formal and modest beginnings of our friendship in the coaching van, that stupid teasing me about Poonam in Mandarin, to you becoming my most stable, most laid-back friendship at IIT, at numerous times even my support system for when times got too rough -

the journey seems to have spanned a lifetime. I am so used to your casual presence around me that I am yet to wrap my head around the fact that you'll no longer be around. And yet I'm the least anxious about losing your friendship because I know without a shred of doubt that whenever we catch up, it will be just like the old times.

There's so much I've learnt from you! You made me feel so much at home in Aravali that I used to spend more time there than at my own hostel. You have tremendous patience with people, are incredibly accommodating. No wonder you have been a part of so many successful teams and collaborations. You manage to procrastinate so much and yet come out with flying colours (ahem ahem, merit award in jobsem, why did that never come up, Mr. Modest?). You've polished my humour so much, inadvertently, by being a constant critic of my lameness and an appreciator of my epiphanies. The number of times our conversations have converged to "Tune Friends/HIMYM nahi dekha? 😢" make me feel I'm missing out on so much in life. You're the Piglet to my Pooh, the Ted to my Barney and the Barney to my Ted 😊. Our long-drawn walks and conversations have been very therapeutic; they're the quintessential picture of "fursat ke raat din". We should pop out to the depths of our mental stacks more often - your reflective self is one of the wisest I've ever known. And it also churns out dil-ke-strings-ko-zing-karne-waali poetry.

Looking forward to where life takes our friendship next! Do something about your (utterly nonexistent) reading habit - you have hoarded enough books for a lifetime already. Cheers and wish you the very best. Call karte rehna! 😊

"I think if I've learned anything about friendship, it's to hang in, stay connected, fight for them, and let them fight for you. Don't walk away, don't be distracted, don't be too busy or tired, don't take them for granted. Friends are part of the glue that holds life and faith together. Powerful stuff."

— Jon Katz

- Anshul Bawa

Tajveer, I've heard so much about you *through* Anshul. The one thing I remember most clearly: the go-to guy for dating advice, hehe. I've come to know you as a very cheerful person, who writes some damn good poetry inspired by the what-nots of life. I'm very keen to read more of what you write in the future. All the very best for all that you do!

- Sahil Loomba

Hey! You are a really good listener. I regret we didn't get an opportunity to talk much 😢. You are fun loving, outspoken, and foodie. You are always smiling and kinda cute (I can totally imagine you blush). I hope we stay in touch so that I can read more of your poetry. Wish you all the best for your life ahead!

- Parul Jain

"Pen is mightier than the sword", these words suit you the best. I always admired your poetry and I'm sure lots of girls do too 😊 Haha, learning MAL in fourth sem with you was always a delight xD and the Asphalt sessions in mid sem break. Algorithms Stud !! You have always been there when I needed help and all those late night talks with you have been enlightening for me. I should at least say this: Thanks, buddy :3. All the best for your future buddy !! P.S I'll keep pestering you in the next year when you're at ROPOSO 😊.

- Ritesh Baldva

I had a great time having random chats with you in GCL. Don't worry, I'll always look at the big picture 😊 Best of luck for your future endeavors!

- Ritesh Noothigattu

Paajii.. yr tun naa true punjabi h 😊 tere aage mein apni saari punjabi bhool jaati hun 😊 All those GCL moments were a lot of fun with you. I still remember the Day 2 of placements with you. All that chaos even though you were already selected at Day 1 😊

All the very best for Roposo! 😊

- Khushboo Gupta

It was always nice having chats with you during assignments, placements, bday parties. You are very friendly and helping. All the best for future and have fun at Roposo 😊

I will always cherish the chats we have had .I like the way you put your point forward. We just teamed up for one assignment of AI, and it was fun working with you.Wish could have done more projects with you. Wish you luck for all your endeavours.

- Shivam Garg

Tajveer (aka Paaji) The guy who advises me to chill out during last sem but he himself mugs up so much that he gets the semester merit _/\. Thanx for the advice though 😊 The most unconventional punjabi (a vegetarian punjabi) guy I've ever seen. You are a very talented guy, my friend. A very exciting and prosperous career is ahead of you. Hope you have fun at Roposo! 😊

- Bhavya Goyal

You always complained that I never do any group projects with you. Well since last three semesters, I have been proving it wrong. 😅.

I wonder if you hadn't come to my room in first semester four years ago, if we would have been such awesome friends. You made a great decision that day my friend.

Best of luck for future, Paaji 😊

Tapas Jain

Tapas Jain was a name which I was used to seeing on the topper's list at VMC. After coming to IIT and having met you, I realised that your rare genius is accompanied by an even rarer, humble, and carefree attitude. Tapas, I am certain that you'll have tall achievements in life, which we'll all get to hear of. All the best for everything to come!

- Sahil Loomba

Kuch kaam nahi hota, kuch padhtha bhi nahi, phir bhi phodtha hain. Human calculator. Compilers don't warn Tapas Jain, Tapas Jain warns compilers.

- Rayala Bharadwaj

One of the earliest and one of the best friends in CS and IIT. You are a great human being and with 'no fucks' given attitude become even better. I am sure with the way we were proceeding in the BTP, if it wasn't for your CHILLAX attitude I would have tensed a lot. Best of luck !!

- Vansh Pahwa

Bhai.. Vicks ki goli lo, khich-khich door karo! 😊 Everyone who meets you for the first time thinks the same.. But jokes apart, you are one of the machau people.. Khud kam dikhta hai aur tere kisse zyada sunne ko milte hain.. 😛 Keep rocking always 😊

- Tajveer Singh Sandhu

You are the most brilliant person i have met ! No one dispute the fact that you are the fastest at understanding anything and at the same time too humble to show it. Your "not caring" attitude towards other people and things is awesome. I enjoyed working with you on the few projects we worked together. Too bad for me you didn't have further interest in the area 😊 . Wish you a great career ahead.

Everyone!! I love you all guys!

I've always known you as the weird friend of Satti's. But, you're passionate and are one hell of a coder. There's just no idea, how many projects you have worked on. 😊

I wish you all the best for your future.

Tarun Kota and he is not from Kota.

CYL labs, EEP lab, TOC, HUKKAs, charcoal painting tutorials and so on. Probably, the only one who thinks I'm not illogical. Infinite theories about how people think, happiness, borders, Chinese wok (we miss it now though), CSP301 and so on. One day you'll be famous and hope you'll fulfill the dream of creating a machine that passes Turing Test. I know I annoyed you a lot and hope that won't matter. You're a great friend.

One should learn from you the following things,

The way you crave for perfection (and don't submit assignments when they are not perfect !!)

The way you spend doing things which you want to do... (though you should be doing something else first !!)

The way you iterate your solution until the you learn your solution is perfect one !!

All the Best for your future and stay as funny as you're now.

- Nitin Agarwal

You are my wingmate for 4 yrs and my Chinese-chowk partner for as long as it existed (I realized I never went there without you). You are an example to what we call grades doesn't determine intellect. You finish creating games faster than I complete watching seasons. All those aside, I will always cherish all those night-outs we did just chattering about things, all the pizzas and biryanis we ate together, our visits to all the restaurants, your lousy but creative story-telling, me nagging you to complete assignments and many more. You slowly started to recognize my lies too (not all of them but a small percentage 😊) . All the best for all your future endeavours which you dont need because I know that you will be doing something great in life 😊 . Ippudu nuvvu raayi 😊

The prankster and mischief maker, also one of the most creative, of our hostel. I loved watching you cause all sorts of trouble in hostel except when I was the one who had to suffer them. Had many fun experiences with you till you left the hostel, imagine what all has happened in a parallel universe where you did not.

Puppy! It's just so much fun hanging around you, just like a puppy. You don't do anything, but smile and talk one liners. You're a STUD, not to be disguised by your name. Extreme coder, full metal gamer, voracious reader, helpful, caring, Maneesh's CS guide. There're just so many things you are! You can even lead a full team of amateurs, at both CS (Counter-Strike) and CS (Computer Science). 😊

Best of luck for Flipkart and your further endeavors. Keep in touch at Bangalore!! 😊

- B Deepak

Yo Puppy,

The only thing one has to do in a group project with you is to get you as a partner and that's it. You'll complete the project and let us know.

Coder. Gamer. The Innocent one...

ALL THE BEST for your future.

- Budumuru Satya Kishore

Puppy !! The bibliophile game ! A pet lover ! An amazing friend to have ! Had a great time with you all these 4 years. You are the one who took initiatives for all the assignments and academic works and pushed Maneesh and me to do them. We would have had troublesome years without you.

I am jealous of you for the number of books you have read in these years. Great habit which I always wanted to have. Keep going with it and I hope you will reach 250 by 2020. Take that as a challenge ! Also, keep playing all those games you love to play.

You have fantastic years ahead of you ! Get out in Bangalore, make many friends and explore many other things.

For all that you eat you should have gained some weight by now 😊. Anyways, try to make that happen in coming years. Will miss your company in all the things we have done.

- Kothinti Trivikrama Reddy

Puppy!!! what puppy??? My first reaction when some one said there is also one more guy from CS department named Puppy... And as I expected... you were quite a small guy at that time...

And now to suggest - Don't keep your excitement inside, enjoy hard without worrying about what others might think

Definitely there's a lot I'll miss
Who will suggest me the best english movies to see daily!
'Thop'est cs coder I've known
Finally the bestest soft-hearted friend.

Hello Vansh !! Your first impression on me was a guy who does well in academics and enjoys life to the fullest. I would regret that we had limited interaction apart from just random talks. But I would surely remember some of our talks in GCL and mess and your funda's about career and academics. At last remain in touch 😊.

- Shivam Garg

Vansh, I've known you longer than anybody else in the department! You were my first research buddy: I won't forget how you dozed off once during one of our EEG sessions. You have a great temperament in what I call learning by seeing, hehe 😊 Jokes apart, you are a very, very smart guy who is really, really chilled out. You want to do great things in life, and I am very sure you are going to get to them very soon. All the best Vansh!

I used to think that you are just a lazy guy who does not attend classes and just tape-ifies assignments close to deadlines. Yo bhargava, you have been one of the most social guy I have met in our department, especially among the Telugu guys. It was great that we used to talk (bakarchodi) a lot in the first month itself even though we were neither from the same hostel or state or anything, and ironically never about computer science. It was the different way to look at life I guess or maybe an urge to experiment different ways to look at life. And the summer in second year spend under the guidance of Anoop Chawla (.__) was really cool; I started playing squash because of you, and I am glad I did. You must never quit your interest in things which may not give you instant benefits (literature, music,....), it is what makes you really interesting. Have a "experiences" rich life ahead

Best Buddys ?

Divyansh, Bhavya, Sidharth , Abhishek

The level of clarity in things that you seek is mind boggling, it actually cleared many of my doubts. With your commitment level all my attempts to make you doubt it have failed miserably. 😊 It is fun being around you. Remain happy forever.

- Abhishek Verma

Yaar veeru tum na hote to pata nahi main kahan hota, best roommate, best friend. I wish every one has a friend like you. You consoled me on my bad days, and appreciated me on my good days.

How can you remain so calm, 4 saal beet gaye, kabhi gusse main nahi dekha.

Sarre late night discussions yaad rahenge, Veg and Non Veg food, Sarkari and Private naukari. Bas ek hi baat ka dukh tume Non-Veg na bana paya 😊.

- Divyansh Singh

Veerendra (aka Veeru) Yaar tujhse jyada phone pe baat karne wala koi banda maine aajtak nahi dekha. Call centre pe kaam karne wale log tujhse kam phone pe baat karte hain 😊

You are the guy who understands and shares my pain of hukka courses. We used to take all the hukka courses

together so that we don't get bored during lectures. I have so many nice memories with you that I'll cherish forever.
Best of luck for the future.

Things you regret not doing ?

I should have attended more classes; I could have been a little less concerned for others and should not have helped them blindly.

Biggest Change Since First Year ?

Very Rare visit to MS, LHC;
Infinite Distance from Studies;
Increased self belief (after placement) and confidence

Best thing you learn from here ?

Coding;
How to live uni-dimensional life in a 9*9*15 ft Box;
Learnt to distinguish between Classical and Non-Classical Things 😊

What Next ?

Flipkart for now (Rest is like a Black Box)

Best Buddys ?

We all thank god, that started doing the things which high package getter would ever do. Not a nerd and a chill guy playing, drinking n smoking stuffs all in open n teko.

Bass tu faltu se dhruvin n maddu ki gand mein ungli karta rehta hai.. !! #Complete nonsense guy.

- Anand Agrawal

The Connection wala launda.Tareef to karne ki jararat ha nahi coz wo tu khud hi kar leta ha jarurat se jyada. Haven't met a more crazy person ever. Pure semester kuch nahi karega, kahi na kahi gayab rahega, kisi na kisi faltu cheez ki fight marta rahega. Aur kuch karne ki sochega to 3 din tak bina soye laga rahega. I remember the Intern/Job wale din, kitni fight mari thi tune ,aur mujhse bhi kaafi karwa li thi! Thanks for that bro. Apna yaarana jaari rakhte ha Bangalore me.

- Swapnil Palash

Hacker of the batch! Shhh...

A hard working, lazy, pragmatic and careless guy. Weirdest of things happen to you. Sometimes your body fails you, sometimes it's your temper and sometimes your wits! No matter what, it always is a super fun story to listen to.

Keep rocking! And yes, tone down on poker a bit 😊

- Kunal Singhal

I may or may not miss you in general but assignments ke time jarur yaad aayegi teri. We have spent quite a lot of time together and it has always been fun. Finding you and swapnil always in the room sleeping intact, no matter what is the attendance policy gave me the strength to not go to class. Thanks man you truely are a good friend.

- Abhishek Goel

At first I thought you were an extremely careless guy. But the way you toiled last semester for placements, and came out with flying colours changed that image of yours. Hope you do well in future, and settle down your enmities. All the best.

- Prateek Chaudhry

Cycle 3 buddy, agar tu nhi hota toh sari labs boring ho jati. Remember the 'Jab tak hai Jaan' lab, pure sem mein wire katna nhi sikh paya.

Aur haan, Cricket mein challenge rkhna chodd de, jeet toh payega nhi kabhi.

Hope mein apna 'Non-classical' ka tag hta lunga.

You are the guy I have done most of my assignments with. 2-3 baar toh copying mein hi pakde gye hai. I think you were duly rewarded for your hard-work these 4 years when you got an offer from Flipkart.

Best of luck, "The Best"!!! Try to stay in touch.

- Abhijeet Joshi

Whaddup Nigga? BTW Thanks .. Someone at last wrote a testimonial about me 😊 Good to know that you actually consider me as a friend. Thought you always discarded me as a nobody 😞 Very few people know me very well and you are one of them.

Gotta admit, you live a THUG life, king size !! Chegg ka badshah ho tum !! You've always fascinated me by the way you manage to get away with things by putting in near zero efforts. That is quite an art, I have to admit.

I can't forget the endless gossips we had since last year, all the fights we had on petty issues followed by mutual apologies. Our bond only became stronger with these intermittent highs & lows in our friendship.

I guess you are self aware of the fact that you behave childishly sometimes (This explains why you have so many haters 😞). I could list a number of such instances, but I don't want to embarrass you on public front 😊

I can never forget one thing about you : you used to come to my room, calculate my estimated SGPA for that particular semester, that too way before the major exams..Bhai,Kyun ? Why the hell would anyone do that ? Grades aane tak wait karne ka patience nahi hai kya ?

Also why so much interest in others grades 😊

I can never forget your support during the placements, captain. BTW, I'm still not sure whether you did it because you actually cared for me or to woo that TnP volunteer ladki 😊

All the best for Flipkart and do pay some casual visits to Mumbai. Don't be kanjoos (like you always are 😊)

PS : Haan .. mein dil pe lethा hoon .. especially when you call me selfish !!

Vijender #TheBest kis angle se bhai. Acha wese mene ek baat pr bada vichar kiya aur conclusion nikala k you are obsessed with the claim that 'First Characters hate each other then fall in love' isi ummed me tu hostel me itne bando se fight leta he 😂 😂 . Jokes aside I think you are a good guy inside (ye bas mene tjhe khush krne k liye likha he 😊). But yes you give your best when it comes to things you want or hacking someone's id. All the best for flipkart i know waha pr b macha dega tu!

GOT character - Theon Greyjoy, kitni bar pitai ho gyi yr teri 😊

- Arvind Bhuriya

Its funny that we never really hung out much until we started our internship in bangalore but i guess that's how it is with good friends. you don't choose them, it just happens. 😊 and you certainly made life in bangalore very interesting for me. 😊 you've always impressed me with what you have done in chegg although you do repeat the same stories to me time and again 😊 but i'm really glad we got to know each other better this past year and i'm very sure we will have continue to have more fun once we are back in bangalore. 😊

Best Memories in IITD ?

Let's start in reverse chronology! First has to be House Day (What a night! Dance preparations, Uptown Funk, Nostalgia filled late night talks....), WOW, Holii, Arpit ka room . Ab random aa rha hai Cricket in Basketball court, baddy, Mafia, Michael ke saath timepass,... & many more 😊

Things you regret not doing ?

Regretting for the things not done.

Biggest Change Since First Year ?

Let's keep somethings to our self.... 😊 But still.....I'll say that I've become more mature, starting to understand what it's all about. I can think things through. Little less frivolous, little more sincere. New dimensions have been added to my perspective 😊

Best thing you learn from here ?

Anything is Possible! If you wish 😊 All you have to do is believe

What Next ?

Next kya? Wahi karenge jo abhi karte hai..... Thoda kaam, Thoda aaram aur bahot saari Masti! 😊

Best Buddys ?

Bahot saare hai yaar.... 😊

What an Intern I had! I really had a great time with each of you. The night-outs and parties we had during weekends. The countless movies we watched. The dinner routine. Minimal cooking seek gaya yr. The jokes we had (McD joke yaad he?). The maximum chutiyapa at the office. Volleyball 😊 . Every time I watch a Daredevil episode, you know what I'd be remembering. It was really fun knowing you. You had the passion for coding and CS, in general. 😊

Congratulations on the Big Flipkart offer! All the best for your future pursuits.

- B Deepak

Was excited to meet you in the first year as you were the only Gujarati in the whole hostel and true to the spirit of a guju : you are a foodie, enthusiastic about almost everything and keep on negotiating for marks even in the last semester 😊. All the best for your future mate 😊

- Nitin Agarwal

itna enthu kahan se laata hai be.. har cheez ke liye.. chal sahi hai.. tere enthu se verma ji bhi pakad me aaye.. aur chinta na kar, lat nahi lagegi.. abhi to nahi.. haan bangalore ka pta nahi

- Ashish Kumar

Zalachu, is bande se mene 1 question pucha tha (kab sudhrega?), jawab aaj tak ni diya. Lagta he koi scope ni he isme sudhar ka. Iski koi bhi bat aapko at last manni hi padti he, ye irritate kar deta he jab tak ni mano. EEL-205 me isko kuch 3-4 no kam pad rhe the 1 grade k liye, major ki copy dekhne gya tha, major me pahle toh fundey pel k 2 no badwae, ab 2 no or kha se? phir minor-2 ki yad ayi. minor-2 ki copy me 1 question me 3 no. mile the. Toh mam ko bola, mam ye actually 5 marks he, 5 ko 3 jese likh diya he. Fir kya tha, after a decent fight, Prof Monika gave up. Zala got 5 marks. Again RDL722 me village visit karni thi and at last presentation, without village visit presentation me iske highest the class me. Sab k funday pel diye isne, gav k sarpanch, up-sarpanch, gram sachiv k(with names).

- Prerit Kumar Patidar

"The one with the Trailers". The only Michael who has more Trailers in his laptop than movies. Bande ko 720p se kam to kuch chahiye hi nahi,
chahe wo girlfriend hi kyun na ho (Always thinks of dream girls, specially the Tota girl of the nights 😊). Bhai nokri mil gayi na, Ab chhokri bhee
mil jaayegi, bas thoda sabra rakhiyo. Aur haan, banglore mein Cheeni na mile to bol diyo.. Main Bhijwa doonga,
warna khana kaise khayega 😊
Flipkart mein bandiyon ko thoda kam tadiyo kyun ki main ni chahta ki tujhe pahle din hi bahar phenk de company waale.
Keep rocking and best wishes for the future.

- Ajay Kumar

You are probably the most procrastinating guy there can be. I mean, you literally ran home during the semester, ditching the minor exam entirely. I had fun doing CSP project with you. You lighten it up even during the gravest of times. Except the procrastinating part, never change. All the best!

- Parul Jain

Mr. Zola , tere se bada fundebaaz nhi dekha maine ,tu aisa banda h jo kisi bhi baat ko lekar kitna bhi excited ho skta h. accha aur kon aisa banda hogya jo HD mein trailer dekh k matlab aise khush ho jata h jaise na jane kya dekh lia ho. koi si bhi class ho kitne bhi bje but Mr. zola breakfast krke class phuch jata h. O man , u r different but overall u r good. Keep smiling always waise lgta tu chu**** hi h

- Saurabh Nakra

It was great working with you in csp, itni bakaith. Tu itna chill, uppar se teri loudspeaker jaisi aawaz, daant bhi khani padi gcl me 😊. All the best for your future 😊, flipkart me bhi sabko hasate rehna 😊

- Aastha Tripathi

You are the one guy who can get excited by anything .(Before eating Pineapple raita, after eating pineapple raita,

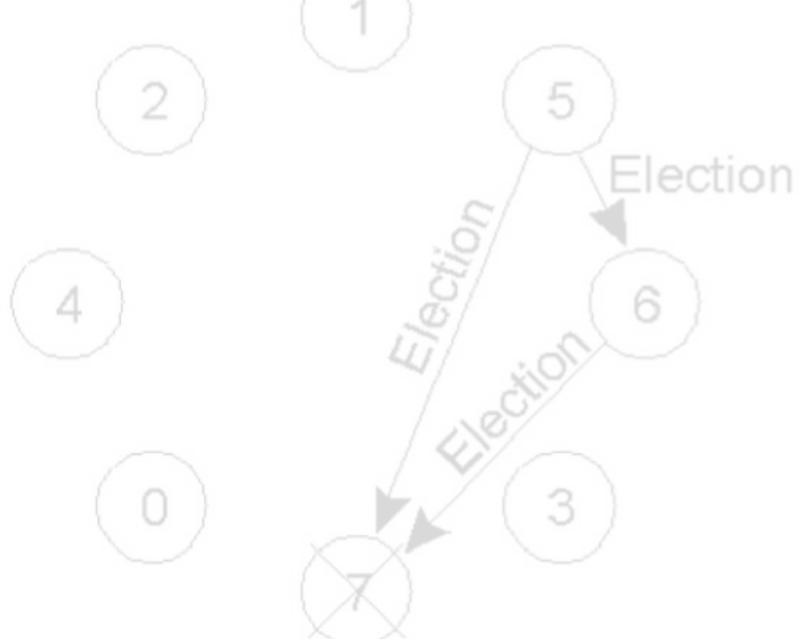

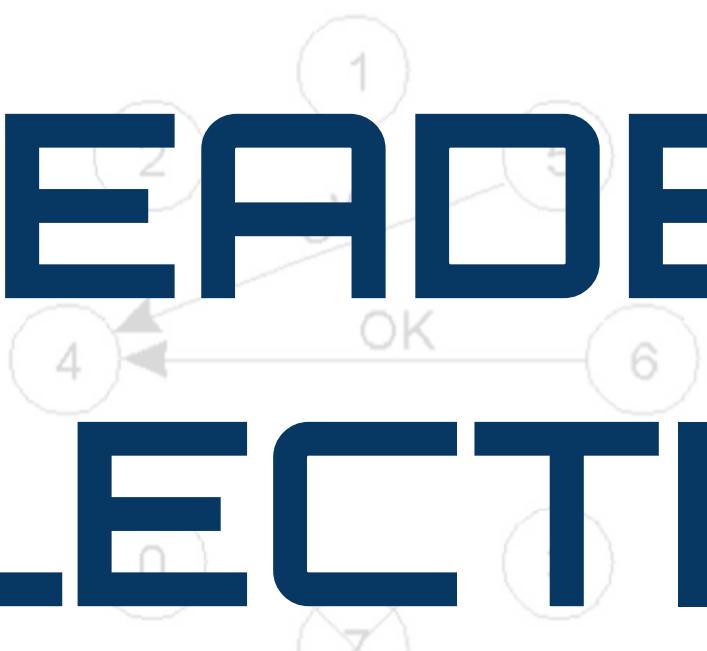

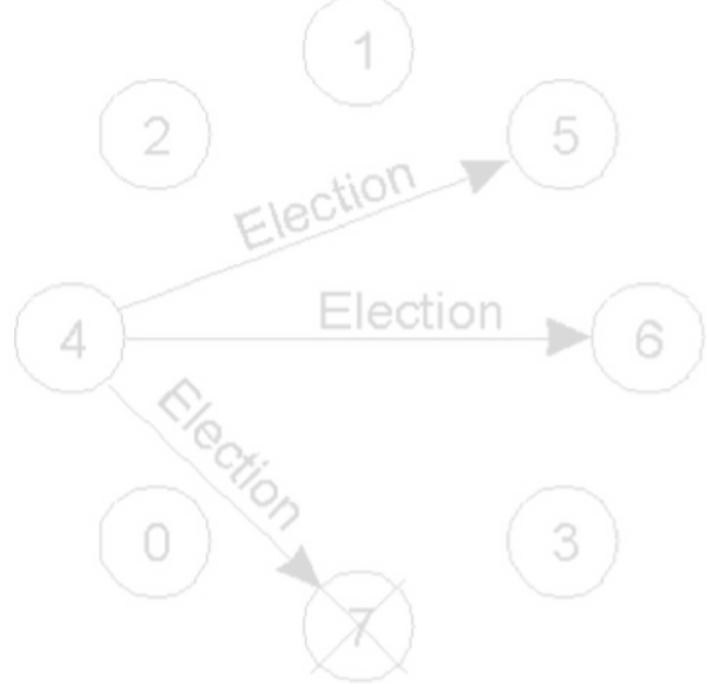

before watching a movie, after watching a movie ,before drinking IIT juice, after drinking IIT juice etc. etc. etc.). Thoda jyada badaa post ho jayega agar sab bataa diya to. You have the most widest smile I have ever seen 😊 .32 ke 32 daant dikhte hain yaar. Saale kitni baar tu mere saath assignment copy me pakda gaya hai, I can't even count.I guess after these 4 years tere dil me dehshat to bath gayi hogi meri .Baaki "tu to jaanta hi hai" 😊.

- Aashish Nagpal

When it comes to time pass, you have tremendous energy man. I won't forget the PGM classes 😊 . You get over excited at almost every thing, hell you can make a big deal out of Cafeteria Juice as well. You are smart, extremely efficient at convincing people (pata nahi kitne marks badhvaye honge phatlu mein tune😊) and a great friend. Wish you a great life ahead buddy!!
